

## MIXED MARITAL EXPERIENCES

Mrs. Anton P. Christensen is Married Four Times. Twice to The Same Man.

### STATE INDUSTRIAL SCHOOL.

Board Arranging for Needed Improvements—Walter J. Poulton Weds Ogden Belle.

Ogden, April 24.—To be married for the fourth time, and twice to the same person, is the unusual experience of Mrs. Sarah Jones of Ogden. The case has its pathetic as well as its amusing features.

In the early nineties the woman married a man named Van W. Jones with whom she lived until 1899 when she applied for a divorce from him, giving her attorney \$10 for filing fee, etc. Not being accustomed to the methods of law she supposed that was all she was necessary for a divorce, and fell in love with a man named Welch, to whom she was married. She had one child by him. Later he took sick and died. Believing that she had a right to marry again she became acquainted with a man named Christensen, and their friendship ripened into love. They secured a marriage license and were duly wedded by Judge Joseph Stanford, about four years ago, and they have had children born to them. Last February Mrs. Jones went to the county clerk's office to secure certain papers in her divorce suit against Jones when she was informed that she was not divorced from him. She immediately set to work to get the divorce straightened out, and only last Friday was decreed from Jones, although she had married two men since 1899.

Some property interests had to be fixed up for her children, but Judge Howell advised her that although she had lived with Christensen for years, the law did not recognize them as legally married, so together with Anton she secured another marriage license yesterday afternoon and again Judge Stanford married them. Mrs. Christensen was the daughter of Griffith Williams, deceased, who left a good estate at West Weber. A few days ago his widow was appointed administratrix of the estate. This did not meet with Mrs. Christensen's approval as she claims her mother is incompetent, and has therefore asked Judge Howell to set the appointment aside, which he has declined to do until she has been thoroughly investigated, and it can be proven Mrs. Williams is incompetent to administer the estate and has continued the matter for several days.

### INDUSTRIAL SCHOOL.

Many Needed Improvements—Concert Given for the Inmates.

Ogden, April 24.—A visit was made yesterday by Dr. E. M. Conroy and T. B. Evans of the board of directors of the state industrial school and Superintendent Thomas, to Salt Lake City, for the purpose of securing as soon as possible a portion of the appropriations made by the legislature for that institution.

The school has great need for larger dormitories, especially for the boys, as at the present time even with the boys gone, who were released during the past week, the sleeping apartments are too crowded for healthful

conditions. Other improvements at the school are equally urgent. While the officers of the school were not given any assurance of the amount or just when it will be given, they believe their requests will be granted so that the improvements can be made during the summer.

Tonight the pupils of the school are going to have an innovation, in the way of a musical treat, the Fourth ward choir having offered its services to give a free concert for the benefit of the inmates, whom it is believed will greatly enjoy it. The concert will commence at 8 o'clock.

### ANOTHER DAMAGE SUIT.

As the result of the Ahsey, Wyoming wreck on the line of the Union Pacific railroad, another \$20,000 damage suit has been commenced by A. L. Stone, administrator of the estate of Earl Smith, against the railroad company. Smith was killed in the Ahsey collision.

### WILL WED OGDEN BELLE.

A license to wed one of Ogden's most charming and popular young ladies, Miss Winnifred Woodmansee, was granted by the county clerk to Walter J. Poulton, the talented young musician and assistant tabernacle organist, to Prof. John J. McClellan, of Salt Lake today. Mr. Poulton was organist for the Ogden tabernacle choir for a short time, and thus became acquainted with Miss Woodmansee, who is the daughter of Charles H. Poulton, a well-known and a young lady of talent and prepossessing personality. They have a host of friends all through Utah who will be pleased to learn of their joining in wedlock, and will unite in the heartiest congratulations and wishes.

### TWO DIVORCE SUITS FILED.

Two divorce suits have been filed in the second district court. Le Roy N. Rose through his attorney, C. R. Hainesworth, has filed a suit for divorce from Lillie M. Rose. The complaint alleges that the couple were married at Salt Lake City, March 22, 1892, and that the defendant, Lillie, is a woman of bad character and habits, and is unable to perform the duties of a wife. The plaintiff asks for custody of the children, for the dissolution of the marriage, and for maintenance.

### BURIAL OF MRS. BROWN.

A large gathering of sympathizing friends assembled at the First ward meetinghouse yesterday afternoon to pay tribute to the memory of Mrs. Hattie Brown, who died unexpectedly Saturday night after an illness of 36 hours leaving three little orphans, her husband having died only a year ago. The funeral was held at the home of the deceased, Mrs. H. Ensign, and other speakers eulogized the life of the deceased, speaking of her virtues and the extreme sadness of her untimely demise. Interment took place in the Ogden cemetery.

### WEDDING PERMITS.

Licenses to wed were granted by the county clerk to the following couples:

John W. Scott, 21, of Salt Lake City, and Miss Ruth Fowler, 19, of Ogden City. They were married this evening at the home of the bride's sister, Mrs. W. E. Heller.

Parley James Pickford, 21, of North Ogden, and Miss Rosella Taylor, 17, of Farr West, Weber county.

#### NO FRUIT CROP THIS SEASON.

Severe Frost Causes Heavy Loss—Sunday School Conference.

Richfield, Sevier Co., April 21.—According to reports received from different parts of the valley, the late cold spell has put an end to all prospects for a fruit crop this season. The cold was unusually severe for this time of the year, ice being frozen one-half inch in thickness for two nights in succession. It is still freezing but gradually getting warmer.

### DESERET.

#### HEAVY LOSS BY FLOOD.

Reservoir Dam Breaks With Disastrous Results—Irrigating Water Lost.

Deseret, Millard Co., April 17.—The people were aroused from peaceful slumbers this morning before the break of day by the very ominous cry: "There's a break in the dam. The waters from the reservoir are flooding the town." Upon investigation it was found that the waters were higher and greater damage was done than at any previous flood. Several residences in the lower part of town were entirely surrounded by water. The loss was estimated at \$100,000. The water was turned off by the dam, and the waters from the small reservoir turned through its gates, and after running for a few days only it was discovered that the apron of the spill was washing and in a dangerous condition. The headgate was therefore closed down and the waters that were in the reservoir in the irrigation ditches accumulated in the reservoir, the weight of which proved too great for a weak part, where the river bed had previously run, and what is known as the "Cropper Cut." This cut had been recently repaired by the irrigation company at a cost of \$1,000, and it will now require nearly double that amount to again close its banks, as the channel has washed much wider than before.

All the farmers turned out and under the direction of an able school board and an energetic teacher 25 hardwood trees were planted in the new school grounds. An excellent and appropriate program was given in the schoolhouse, after which the students played a lively game of basketball.

The 18th of April was a big day here. The Relief society and Y. L. G. got up a surprise on the bishop, James Varnen, and his counselors, Robert Sidman and Oliver Gibbons. The ward turned out en masse and each member of the bishopric was, in turn, summoned to the main meetinghouse, where tables were set for about 350 persons. After the banquet an excellent program was rendered.

S. hospital yesterday of "Sunny Jim" Norton, former master mechanic at this place, of locomotive mania. This is a sorrowful news for his former employers and associates on the railroad, for he was much liked by all the men, who out of respect to his genial disposition dubbed him "Sunny Jim."

Dear Sir: Wilson, Conn., Feb. 18th, 1906.

"A man could not be in any worse condition than I was with kidney and bladder trouble. I doctored with several good doctors and one physician told me I had Bright's disease and that I would not live over six months. Another told me it was gall stones. I had severe pains all over my body, could not sleep, could not eat, and my urine was as thick as cream and it would come out something dreadful. I had to get up many times in the night to urinate."

I took Swamp-Root and today I am a well man and never felt better. All of my troubles have gone and show no signs of returning. I take my cure of Swamp-Root and prove it where I am today, and I can prove it to my acquaintances."

Very truly yours, E. H. RAND.
