POSTMASTER.

Our Country Contemporaries

Ogden Junction, May 9—

J. E. Browning, who was injured at the depot on Monday, is doing first rate under the constant watch-care and doctoring of his father, Mr. Jonathan Browning.

By letter from Almy, W. T., we learn that on the 5th inst. Mr. John Livingston met with an accident at the Rocky Mountain coal mine. While running the rope at No. 2 mine, in consequence of the breaking of a coupling he was jammed between some cars, breaking his leg and dislocating his ankle. Dr. Harrison, of Evanston, attended to his injuries and under his care Mr. Livingston is doing well.

The New York Herald says Wendell Phillips thinks his mission is, first, not to do anything himself, and, second, to find fault with everything that anybody else does. Wendell is not the only person of that sort.

History of a Picture.

Two of the most celebrated artists the world has ever known dwelt in the same city. One delighted in delineating beauty in all its graces of tint, form and motion. His portraits were instinct with the charm of physical vigor. The graceful half-voluptuous outline of form and feature harmonized with delicately blended tints. On his canvas, the homeliest features had an almost irresistible charm. The other found pleasure only in depicting weird and gloomy subjects. Above all, did he excel in painting the portraits of the dying. The agonized death-throe, the ghastly face and form, were all depicted with marvelous fidelity. There existed between these artists the most intense dislike. At length this dislike culminated. The beauty-loving artist had been engaged in painting the portrait of a beautiful woman. Connoisseurs pronounced it the most wonderful piece of art that had ever been produced. His brother artist was jealous of his fame and sought revenge. By bribing the keeper of the studio he gained access to the picture each night. At first he was content to only deaden the brilliancy of the complexion and eyes, efface the bloom from cheek and lip, and paint a shadow on either cheek. Later, his strokes grew bolder and freer, and one morning the artist awoke to find the entire outline of the portrait changed. He could scarcely recognize in the emaciated form and haggard countenance the glowing conception he had embodied. The pallid face and expressionless eyes he had attributed to a lack of genuineness in his materials; but when the outlines were changed he suspected the cause and indignantly dismissed the keeper. What the revengeful artist marred by a few rapid strokes of his skillful brush was only restored by years of patient industry. Reader, need we name the artists?—Health, who paints the flowers and "grassy carpet" no less the human form divine.—Disease, the dreaded artist who revels among the ruins both of nature and humanity,—and Carelessness, the keeper to whom Health often intrusts his portraits. And is it not the beauty of woman, the most admired of all the works which adorn the studio of health, that Disease oftenest seeks to mar? The slightest stroke of his brush upon the delicate organization leaves an imprint that requires much skill and patience to efface. Restoration must be prompt. Carelessness must be dismissed. Let suffering women heed the warning ere Disease has marred their chief beauty.—Health—beyond reparation. Dr. Pierce's Favorite Prescription has been used by thousands of these sufferers, and they are unanimous in the praise of its excellence. If you would be transformed from the pallid, nervous invalid into a happy, vigorous woman, try it.

Mrs. Grundy Says

That Sozodont eclipses all other preparations for the teeth and gums. And what Mrs. G. says is reiterated most emphatically by ninety-nine one-hundredths of the beauty and fashion of the land.

Fragrant and Delicate Odors.

Each flower contains a fragrant substance, and the separation of this substance in a manner so as to retain all of its sweetness, requires the greatest experience and care. Dr. Price's Unique Perfumes are prepared by a process that so retains their natural fragrance.

Great Run on a Well-Known Institution.

The famous Patent Medicine Warehouse of Charles N. Crittenton, No. 7, Sixth Avenue, New York, has recently been subjected to an extraordinary pressure—the pressure of crowds of sufferers from Coughs and Colds in search of "Hale's Honey of Horehound and Tar," of which he is the fortunate proprietor. The popularity of the article is boundless, and will last, for it is built on the solid foundation of innumerable cures. Crittenton's establishment might properly be called a Saving Bank, from the number it has been instrumental in saving from Consumption. Trochial affections of every type vanish under its balmy and balsamic influence with astonishing rapidity. Sold by all Druggists. Principal Depot, 7 Sixth Avenue, New York. Ask for large size, price \$1, they are much the cheapest. Pike's Toothache Drops cure in one minute.

IN THE WHOLE history of medicine, no preparation has ever performed such marvellous cures, or maintained so wide a reputation as AYER'S CHERRY PECTORAL, which is recognized as the world's remedy for all diseases of the throat and lungs. Its long-continued series of wonderful cures in all climates has made it universally known as a safe and reliable agent to employ. Against ordinary colds, which are the forerunners of more serious disorders, it acts speedily and surely, always relieving suffering, and often saving life. The protection it affords, by its timely use in the throat and lung disorders of children, makes it an invaluable remedy to be kept always on hand in every home. No person can afford to be without it, and those who have once used it never will. From their knowledge of its composition and effects, Physicians use the CHERRY PECTORAL extensively in their practice, and Clergymen recommend it. It is absolutely certain in its remedial effects, and will always cure where cures are possible. FOR SALE BY ALL DEALERS.
