**GALVESTON, 23.**—The *News* this morning publishes a clipping from the *Two Republics*, published at the City of Mexico, as follows: Cholera has made its appearance in San Donisco del Mar, Oaxaca.

#### FOREIGN.

**LONDON, 21.**—The Cairo correspondent of the *Central News* says that the actual number of deaths during the last 24 hours, was nearly 600, and that the official figures under-estimate the number of fatalities. The cordon around Alexandria has been moved nearer the city. Cases of cholera are reported in places which have not heretofore been affected by the disease.

The Lord Mayor will entertain the American rifle team at luncheon at the Mansion House next Tuesday.

The weather opened stormy and unpropitious for to-day's shooting in the international rifle match, and rain is now pouring down forming pools of water. The Americans say they will make as good scores at the long range as the British will. The match will probably be a very close one. It is raining hard, and a strong wind is blowing from the north.

The Americans first arrived in camp, and all are well and confident. At 11 a.m. the Americans proceeded to firing, though it was still raining hard, but the sun was trying to struggle through the clouds. Very few spectators were on the ground.

11.45 a. m.—The match again opened with firing at the 800 yards range. Young of the British team, shot first and made a magpie. The rain is coming. Low of the British and Cash of the Americans both made a miss, the first on the 12th and the second on the 16th shot. The scoring of the Americans was level. Both seemed to have got the proper elevation. The sun is shining brightly.

12.30 p. m.—At the end of the 4th round the Americans were 12 ahead in to-day's shooting. A thunder

storm was then raging. The British missed the 8th shot. The Americans are shooting splendidly. Smith made the first bull's eye for the Americans. McVittie, British, missed his first shot. It is raining in torrents.

Grand total for the entire match: British, 1,951; Americans, 1,936. The British team thus won by 45 points.

**CAIRO, 23.**—The disease is spreading everywhere. The mortality increases hourly. The erection of houses at Bulak was ordered by the native ministers. The inhabitants suddenly driven out of their homes by the police during Friday and Saturday nights were huddled on board barges. Hundreds of them evaded the police and fled to the centre of the city, taking with them their filthy bedding and other rags. Eight hundred of them were landed at Larah to-day. Gen Wood's troops compelled the others to return. Since then there has been a case of cholera among Gen. Wood's forces at Turah. The deaths at Cairo really numbered 481 between 8 a.m. and 6 p.m. of Sunday, besides fearful mortality among the Egyptian artillery. The natives of Abbassy are panic stricken. The British officers have to bury the dead.

**Alexandria, 22.**—The sanitary commission have decided that all passengers must undergo medical examination before leaving Egypt. The commission are considering the permanent sanitary measures to be enforced against vessels arriving at Egyptian ports from Bombay. Deaths from cholera on Saturday 381 in Cairo and suburbs, 33 at Mansurah, 17 at Samanoud, 26 at Meha-la, 18 at Chibir, 25 at Chobarat, 33 at Gizeh, 4 at Damietta, 11 at Ziftah, 8 at Menesleaf besides 34 in six other villages.

**Cairo, 22.**—The sanitary commission—Gen. Sir Evelyn Wood, Baker Pasha and Gen. Stephenson, will be formed immediately. The inhabitants of the most infected portion of Bnrah were sent to Turah, 10 miles up the Nile, and their houses burned. Officials of the department state that the domains have been removed to Helouan, a few miles further up the Nile, where they are encamped. A great quantity of tar is burned in Cairo every night.

**Rome, 23.**—Orsini, the promoter of Rome's exhibition, has defeated Ricciotti Garibaldi for a seat in the Chamber of Deputies.

**Alexandria, 22.**—All business and

agriculture suspended. The customs receipts are decreasing. Two months delay in legal judgments granted. In the interior the rinderpest is worse and the natives continue to eat the diseased meat. The cholera has appeared at Damanhour, where the crowds of people that pass through the cordon are collected together and badly lodged and fed.

**CAIRO, 23.**—One thousand five hundred inhabitants of Bulack were moved up the Nile and the owners, who burned their houses, will be indemnified. The natives oppose the removal of patients to the hospitals. The disease is very sudden in its effects. People frequently fall dead in the streets. The epidemic is spreading northward as well as southward.

#### NOTHING LIKE IT.

No medicine has ever been known so effectual in the cure of all those diseases arising from an impure condition of the blood as Scovill's Sarsaparilla or Blood and Liver Syrup the Universal Remedy for the cure of Scrofula, White Swellings, Rheumatism, Pimples, Blisters, Eruptions, Consumption, Gout, Boils, Cancers, and all kindred diseases. It purifies the system, brings color to the cheeks and restores the sufferer to a normal condition of health and vigor.

It is asserted that the ordinary cosmetics used by ladies are productive of great mischief. We believe this is so, and that a better means of securing a beautiful complexion is to use some good blood medicine like Scovill's Sarsaparilla or Blood & Liver Syrup, which cleanses the blood and gives permanent beauty to the skin.

(Special to the DESERET EVENING NEWS of July 3rd, 1883.)

### Trial of a Twine Binder.

Yesterday afternoon there was an exhibition of the Osborne Twine Binder, on the farm of Mr. John Briggs, in Sugar House Ward. The main points of excellence claimed by the company for this machine are, its simplicity, ease of draft and management, perfect binding, power to elevate and the width of cut, the smallest machine having a six foot blade, while the largest one's blades are ten feet long.

The machine did excellent work, binding equally firm and even in long and short grain and not missing a single bundle. Notwithstanding the fact that the grain was green and heavy, the elevator did perfect work, and the grain was bound so tight that it was next to impossible to shake the bundle out. Considering the inexperience of the driver and team the acre of grain was cut in a notably short time and to the satisfaction of all present. A number of local farmers who were present gave Mr. Mellor, the manager, a testimonial to that effect.

JULY, 2nd, 1883.

We, the undersigned, having witnessed the cutting and binding of about one acre of heavy green wheat, on the farm of John Briggs, near Salt Lake City, by an OSBORNE, No. 11, TWINE BINDER, certify that it did the work to our entire satisfaction, and did not miss a bundle.

WEST JORDAN, July 5th, 1883.

Meers, D. M. Osborne & Co., Salt Lake City:

GENTLEMEN:—The new No. 11 Twine Binder purchased of you this season, was started on my farm to-day in ripe rye, cutting and binding to my entire satisfaction. The draft is light, it misses no bundles, and is the simplest and most perfect self binder I ever saw. I would recommend all farmers in want of binders to purchase the Osborne No. 11.
