TRACK-LAYING ON THE UTAH  
CENTRAL.

JOHN W. YOUNG, Esq., assisted by Bishop E. F. Shea, is organizing a party of tracklayers with which to commence the business of laying the rails on the Utah Central Railroad. This party when organized will immediately commence operations at Ogden and work this way, and the line will be pushed through as fast as practicable. Chief Engineer, Gen. J. W. Fox, started for Ogden this morning. He and his corps will arrange for the grading of switches and side tracks, necessary to carry on the work. If proper side-tracks should be built, arrangements can doubtless be made with the U. P. R. R. Company to have the rails and other materials needed for building our line, carried on its cars to the point where they are required, and thereby save the expense and loss of time of unloading and loading again upon the Utah Central Company's cars. We understand that the U. P. R. R. Company are now prepared to commence the delivery of iron, etc., to an agent of the U. C. R. R. and we hope to have it in our power in a few days to state that such delivery has taken place and that the labor of tracklaying has commenced. No effort will now be spared to push the work ahead, and but a few weeks will elapse before we shall hear the whistle of the locomotive in our city. The President, Vice-President, Superintendent, Assistant-Superintendent, Chief Engineer and Directors and other officers of the Road are fully alive to the importance of this work, and they will spare no energy to complete it as quickly as possible.

The prospect of an early completion of this road will be gratifying to all classes of our citizens, and will infuse new life into the grading, the hauling of ties and the other labors connected with the preparation of the road bed for the rails. The work up to the present time, in the language of Assistant-Superintendent Little, has been in the absence of the iron and other materials, if anything, too forward; but now that these materials are likely to be ready for immediate use the work on the line is not sufficiently forward, and every man who has a job of any kind—grading, furnishing ties or other timber—should get right at his work and not suffer the job to be detained a single hour on his account. Good, active hands are wanted, and can find good employment on the line.

[SPECIAL TO THE DESERT NEWS.]

## By Telegraph.

## GENERAL.

Toledo.—The State Fair opens here today; the entries already number sixteen hundred, being a large increase over the entries the first day last year.

Washington.—The report of Admiral Hoff, concerning his investigation of the facts attending the execution of two Americans at Santiago de Cuba, have been sent to the State Department with a view to the foundation of a claim for damages.

It is officially stated that the design in recently placing many naval vessels in commission was merely to prevent them from injury by lying idle.

Portland, Me.—The election is very quiet; the vote will probably be smaller than last year, but the parties, relatively, are nearly the same as then. The Hickborn ticket takes off less than ten per cent of the Republican vote in the places heard from, which will not be enough to defeat the election by the people.

Philadelphia.—The parties charged with attempting to murder revenue officer Brooks were up for a further hearing today; the evidence of importance was produced. They were held to bail for a further hearing. The doctors report that Brooks may die at any moment.

Evansville, Indiana.—The city is filling with people from the surrounding towns, coming to attend the Humboldt Centennial to-morrow. The Opera House was densely crowded to-night. The exercises were interesting, consisting of English and German speeches, and music from the orchestra and singing societies.

Louisville.—The celebration of the Humboldt Centennial commenced to-night, with a grand instrumental and vocal concert by all the German singing societies and the leading professional and amateur talent of the city.

A few days since, near Stanford, Kentucky, a party of thirty unarmed negroes rescued from the officers of justice a negro who was being conveyed to jail for an attempt to shoot another negro.

Cincinnati.—Warren Kennedy, a stationer in Vine street, near Fourth, suicided this evening, by jumping out of the fourth story of the window above his store.

Plymouth, Pa.—The late disaster at Avondale leaves 73 widows and 154 fatherless children; the number of the latter will be increased to nearly 200.

The receipts of the treasurer of the relief fund, amount to nearly \$11,000.

Pittsburg.—Extensive preparations are being made for the Humboldt Centennial to-morrow. President Grant will arrive in the city at noon. After his reception he will be escorted to the grove.

An incendiary fire this morning at Wellsville, Ohio, destroyed an entire block; loss \$3,000.

Atlanta, Ga.—Early on Sunday morning six one-story brick stores, on Marietta street, and one large building at the corner of Marietta and Peach Tree streets, were burned; loss \$100,000, insurance \$50,000.

Wilkesbarre.—The Miners' Union unhesitatingly states that no one will believe the fire at the Avondale mine was the work of an incendiary; they regard the report as a subterfuge to turn the public mind from the responsibility resting on the railroad company.

Utica.—A frame building at Watertown, undergoing repairs, fell this evening and buried five men, all of whom were rescued; one is not expected to recover.

St. Louis.—A number of leading citizens and railroad men left this afternoon by the Pacific railroad to celebrate the completion of the road between Atchison and Leavenworth, which is really an extension of the Pacific road.

Portland, Me.—Little interest is manifested in the elections. One candidate to raise, almost, half the State, gave Chamberlain 23,732 Smith 16,850; Hickborn 2,384. This indicates a total vote of 88,000, of which Chamberlain should have 43,000, Smith 35,000 and Hickborn 9,000, so that Chamberlain's majority should be about 8,000, against 19,268 last year, in a total vote of 130,782. The Republicans last year, carried fifteen of sixteen counties; this year they lose one or two more. They will probably elect twenty-seven of thirty-one Senators, although on account of a split in the ticket there may be no choice in a few cases, as it requires a majority to elect Senators. The Republicans lose a number of Representatives on account of Hickborn's votes, as in the case of Representatives the plurality elects; but they retain a large majority in the House as far as heard from. The Hickborn party has elected no candidate.

Philadelphia.—All the Democratic candidates for city offices withdrew this morning, and reported that an entire new ticket had been selected.

Richmond.—Charles Whitley, who defeated the Wells candidate for Congress in the Alexandria district, has been appointed by General Canby attorney general, vice Bowdin.

New York.—An investigation of the charges against Sheridan Shook and others throws no new light on the alleged fraud of fraud.

James McMann's stable, at Hunter's Point, was burned to-day, with five valuable horses, including the famous mare "Cora," valued at \$15,000. McMann's loss is \$75,000. Another stable adjoining, containing five more horses, and two dwellings were also burned; total loss \$150,000.

Advices from Scranton, state that the excitement is subsiding; the miners are at work except at the Avondale mine, where no labor will probably be done for a year.

Springfield, Mass.—The paper mill of John Carrell, at Mill River, was burned this morning; loss \$60,000.

San Francisco, 13.—Seward has returned from Alaska in improved health and excellent spirits.

The Germans, yesterday, commenced the celebration of the centennial anniversary of the birth of Humboldt. The festivities will last three days.

A heavy shock of earthquake was felt at San Luis-Obispo yesterday; a light shock was felt at Sacramento to-day.

A party, vouched for as reliable, writes to the Bulletin from San Buenaventura, that a document was found on the beach at that place, on August 30, much mutilated. The finder was requested to forward it to the Secretary of the Admiralty, in London, or to the British consul at the nearest port. The address was printed in six commercial languages. A portion of the document was filled with writing relating to Sir John Franklin and party. The document was evidently cast into the water in latitude sixty-nine degrees, thirty-seven minutes and forty-two seconds, and longitude ninety-eight degrees, four minutes and five seconds. It gives an account of the desertion of the ships Erebus and Terror. The party numbered one hundred and five at the time of the desertion, and was under the command of R. F. M. Crozier. They succeeded in reaching the above latitude and longitude, where they found a relic of the late Sir John Ross. The document states that the party wintered at Beechey Island, in 1846-7, and that Sir John Franklin died on the 11th of June, 1847, and contains many interesting incidents connected with the expedition.

Legal tenders 743.

Washington.—Hon. Jno. Ross and A. J. Johnson, the British and American Commissioners for the adjustment of claims under the Oregon treaty, have pronounced an award of \$50,000 in gold, to be paid by the United States to the Hudson Bay and Puget Sound companies, in extinction of their claims on the Territories west of the Rocky Mountains, irrespective of their claim for the navigation of the Columbia river.

Cincinnati, 14.—The School Board continued in session till near midnight. A committee was appointed to confer with the Catholic church authorities, concerning the terms on which the Catholics will send children to the public schools. Resolutions to exclude the Bible from the public schools were laid on the table for the present. Editors, protesting against excluding the Bible, signed by over ten thousand persons, were presented by two members of the committee.

The Cincinnati Red Stocking base ball club, the first nine, will start, accompanied by Hutton, for San Francisco to-day. Harry Wright will be captain of the entire field. Brainerd will be pitcher, Allison catcher, Gould first base, Sweeney second, Waterman third, George Wright short stop, Leonard left field, Mevey right field. Taylor substitute. They will play the first game on the recreation grounds at San Francisco, on Saturday, Sept. 25.

St. Louis.—Perry Butler, who came here last week with Dan. Vorhies, as his attorney to defend the suit against him by the First National Bank, Washington, was arrested to-day on a telegram from Washington, charged with being privy to the fraudulent passage through the New Orleans custom house, of five hundred bags of coffee. About fifteen thousand dollars worth of goods, shipped from New York, consigned to Hays & Co., of Ottawa, Kansas, have been attached in their transit by the Sheriff of this county, as the property of Perry Fuller which, however, he denies, saying that Hays, who was formerly his clerk, was the sole owner. Vorhies sued on a writ of replevin, and while the bond was being made up, Fuller was arrested on the revenue charge.

The Times, of this city, asserts that it is a malicious proceeding, having its origin with some of the officers of the First National Bank, at Little Rock, which failed some time ago. The U. S. Court held Fuller in fifty thousand dollars bonds to appear to-morrow, which he could not give, but the matter was

arranged without sending him to jail by ex-Gov. Fletcher and other prominent citizens becoming personally responsible for his appearance.

Chicago.—The Germans commenced the celebration of the Humboldt centennial last night, by a festival in the Turner Hall. The program consisted of music by a splendid orchestra, and a large chorus, who performed several choice vocal and instrumental selections; also a series of tabernacle and an elaborate oration on Humboldt by Mr. Schlegel, of the Staats Zeitung. At the close of the performance a torch-light procession marched into the south division of the city, scattering various newspaper offices, etc. To-night a more elaborate celebration will occur at the Perse House, at which a poem, composed by Caspar Butz, for the occasion, will be read. A festive cantata, also composed expressly for this celebration by Hans Balatka, will be performed. Other appropriate ceremonies will be gone through. A scientific and literary club will also be organized under the name of the Humboldt society.

Washington special says there is reason to believe that the President has tendered the Chinese mission to Senator Frelinghuysen, of N. J., and has decided not to appoint Geo. Wilkes.

Governor Hoffman was transmitted to the State Department the official ratification of the fifteenth amendment by the State of New York.

Advices from Georgia and Florida say that about half the cotton crop in those States is destroyed by caterpillars.

Pennsylvania, who have been endeavoring to secure the vacant Cabinet position for that State, have apparently received assurances that there will be no permanent appointment for at least two months; nevertheless they are confident that when the appointment is made, it will be given to Pennsylvania.

The State Department has no official advices from Minister Motley which show that no new steps have been taken for negotiations for the settlement of the Alabama claims. The members of the Cabinet attribute this delay to an intention to wait and see if this Government does not concede the British position in the Alabama question by recognizing the belligerency of Cuba.

It is understood that the Department of State has requested the Danish Government to extend the time within which final action relative to the St. Thomas purchase may be taken by the United States.

An Omaha dispatch says that 420 Mormon emigrants left for Utah yesterday.

A telegram from Cheyenne says that track-laying on the Denver road commenced yesterday.

Further information from the recent stage robbery in Montana shows that only two men were connected therewith, one of whom was killed; the other informed his captors where the treasure was secreted. Thirty-nine thousand have been recovered. The robbers who committed the first robbery have been traced to Nevada, and it is believed they will soon be captured.

San Francisco, 5.—Seward, to-day, attended the opening of the seventh Industrial Exhibition at the Mechanics' Institute. He visited the public schools by invitation of the board of education. He leaves to-morrow by steamer for San Diego, and returns overland and will probably participate in the breaking of the ground for the San Diego and Gila railroad. He departs from here on a Panama steamer on the thirteenth, for Massanville, where preparations have been already made for his transportation to the city of Mexico, under an escort. The Mexican Consul to-day writes that his Government will prepare for Seward's reception.

Generals Rosecrans and Sedgwick leave to-morrow for San Diego, to inaugurate the work on the San Diego and Gila Railroad. Funds, sufficient to build a road to the Gila river are already subscribed. Congressman Axtell accompanied the party for the purpose of inspecting the harbor of San Diego, and report to Congress the result of his observations.

## FOREIGN.

London.—The Daily News contains another letter from William Howell on the charges against Lord Byron. He says Lady Byron has condemned herself by a breach of honorable alliance, that an irreparable wrong was done by the destruction of the papers containing his justification, and that the solution of the question is impossible, except on defective *exparte* evidence. Dr. Forbes Winslow, in a public communication on the same subject, holds that the theory of the mental aberration of Lady Byron cannot be maintained.

The Times, in an editorial, commenting on the Emperor's illness and the publication of the *Sensuous Constitution*, says the person of the Emperor is of secondary importance; if the personal government is ended it matters little who is Emperor or Regent. The essential question is who is Minister and on what terms does he hold office, and on what principles does he conduct his administration. No one can govern except through the Cabinet and enjoying the confidence of the majority of the people.

Paris.—A tempest yesterday, prostrated the telegraph wires, and communication in every direction was temporarily interrupted. The Emperor's health is better to-day.

It is asserted that the Empress will set out again on her journey east.

Gen. Prim, while at Vichy, had a conference with the Spanish ambassadors to England and France, on the subject of the communications received from Washington. It is rumored that the disposition of the people of the United States to interfere in the affairs of Cuba was denounced at the conference as an act of intervention, to Spain, and the hope was expressed that Spain would reply energetically to the official manifestations of the Americans.

Madrid.—The Imperial insists on the necessity of the speedy suppression of the Cuban insurrection. Part of the reinforcements for Cuba have sailed from Barcelona. Other detachments will follow from Catalonia.

Differences are growing up between the progressist and unionist parties. J. Madrid.—Commissioners have been named to consider the alteration of the penal code for the colonies, the administration of reforms and the abolition of slavery in Porto Rico.

New York.—Robert Barrin, in Westchester jail, charged with outraging his own daughter, suicided last night.

New York.—The Liverpool Journal

of the 31st ult reports that Jefferson Davis, accompanied by his friend, Dr. Chas. Mackay, had returned to Edinburgh from the North, much improved in health by his sojourn in Scotland.

A Haytian dispatch states that Gen. Victorine had surrendered Gonaves to the insurgents, being permitted to return to Port au Prince with his troops. Gonaves had been again opened to trade. Salvave was in the interior.

Special Notices.

The Cornet of Nature is a magnificent head of hair. Apply Burnett's Cocoa to render it pliable, soft and brilliant.

In any Foreign Court, Burnett's Flormel would be considered a peer in Perfumery.

Burnett's Kailliston softens the skin, and is admirably adapted for Gentlemen's use after shaving.

The opposition in fictitious brands that Burnett's Cooking Extracts receive, renders contrast in quality apparent.

Burnett's Fine Store in New York, on Broadway, is worth while to visit.

This Red Jacket Bitters are the safest and mildest stimulant and the best appetizer yet discovered, as all who have used them will testify. They are sold by all druggists and dealers throughout the country. Take our word for it, and try a bottle.

Deeley's Chemical Yeast Baking Powder

Is the only reliable baking powder in market. The ingredients entering into its composition are chemically pure, and so carefully combined that it never fails to make light, sweet and nutritious biscuits, rolls, cakes, pastry, etc., of all varieties with uniform success. It is the cheapest to the consumer, as it requires from one-third to a half less than those of ordinary manufacture. For sale by grocers generally.
