

HER HEAD WAS SURELY WRONG

Brother of Miss Eastwick Explains
Her Mental Condition.

SHE HAD TO BE RESTRAINED

Was sent to Two Sanitariums After
Foul Attack of Typhoid
Fever.

New York, Sept. 4.—E. P. Eastwick, 26, president of the Eastwick Engineering company, of this city, in an interview explained the condition of his daughter, Miss Maria Josephine Eastwick, who was sent to London under a charge of insanity involving \$500,000.

Mr. Eastwick said: "My sister suffered from typhoid fever about four years ago and while she was in a protracted one, with pneumonia as a complication, her mental powers were so affected that she was able to be out she was an abnormal desire for outdoor exercise, and especially horseback riding and driving. Always a good dresser, she was encouraged in her eccentricities. The recreation would be for her, but she carried it to such an extreme that finally she had to be restrained.

"She was induced to enter a sanitarium near Philadelphia, but after a stay of several months she showed signs of improvement, and she was removed to another retreat in Connecticut, where one of the most eminent specialists of the country could watch her. When she was released from there, we were assured that though she was still averse to have vagaries which might annoy us, she was harmless. Soon after that my father took her to Europe, and has been with her almost constantly.

"Mr. Eastwick denied that his father had ever had become estranged. He said he has been home several times, but always, he said, with the full consent of his father, and almost always in visit of relatives.

Drive Botha About.

London, Sept. 4.—A despatch from Cape Town says: The forces of Colonel Botha have driven Gen. Buller into the Mortimer district. Nearly all of Gen. Botha's horses are in an excited condition and fully one quarter of his command is dismounted.

Gen. Buller, unfortunately for the British, captured 29 renouments. The Boer invaders are threatening Durban Pass, Cape Colony, which commands Swellendam. The place is well defended, however, and it is not thought that the Boers will attempt to enter the town.

British Faith Tested.

New York, Sept. 4.—Commenting on recent South African proclamations, the London correspondent of the Tribune says:

British faith in the efficacy of proclamations is severely tested as the time limit set by Lord Kitchener and Mr. Chamberlain approaches. The war, which was declared by Lord Roberts to be practically over on the eve of the general elections, will be technically at an end in a few days.

Lord Kitchener's weekly report has disclosed the average list of Boer casualties and British captures, but the results are hardly commensurate with the efforts made to scour the country by a large number of mounted columns. It is evident that these columns are marching through empty districts, and that the bands of guerrillas well informed respecting their movements, keep out of the way, and when pursued break up into small squads. Never was there more exasperating fox hunting.

Gen. French's work is the most difficult and there are few signs of progress. Commandoes ranging from 300 to 100 men and boys, are here, there and everywhere, and when the trail seems hot it is lost, and the commandoes reappears at the end of a week a hundred miles away.

Moreover there is no sense of security even in strongly garrisoned centers, like Pretoria and Johannesburg, as has been shown by the railway reverse north of Waterloofort. Whatever may be the official time limit, the war seems destined to drag along for months after months until the British succeed in driving out the guerrillas man by man. Meanwhile they are feeding the bulk of the Dutch population and many thousands of loyal refugees are starving and rusting in Cape Colony.

Incendiary Plot.

Chicago, Sept. 4.—What the firemen say was a well arranged plan to destroy the Orpheon theater building in Washington street, opposite the city hall, was made shortly after midnight. The building is a four-story structure and many of the rooms are occupied as offices by various firms. The principal occupant is the music hall company now operating the Orpheon theater.

Assistant Fire Marshal Horan and his men discovered evidences of incendiarism in a room on the fourth floor. This evidence, now in the hands of the fire department, consists of one large bottle containing gasoline, two glasses half filled with kerosene and several candles burned almost to the end. The firemen also have a bundle of rags soaked in oil and a quantity of charred newspapers. On the floor a train of powder was also found.

The fire was first discovered by pedestrians who were attracted by the sound of a small explosion. An alarm was given but the quick arrival of the fire department prevented what might have been a serious fire. The fact that the explosion occurred after the theater was closed is regarded as most fortunate. If the explosion, as planned, had occurred earlier in the evening, disastrous results might have followed, as there were many people in the house. The matter will be thoroughly investigated by the authorities today.

Samuel Howland Robbins.

New York, Sept. 4.—Samuel Howland Robbins, ex-fire commissioner, died at the Presbyterian hospital this morning. He had been in the hospital for some time suffering from a complication of diseases.

Britain's Wheat.

London, Sept. 4.—The Times today reviews the wheat trade which has been subject to remarkably little excitement, the weekly average price of English wheat fluctuating only 3d per quarter. Three years ago the fluctuation was more than 17s, caused by the Spanish-American war and gigantic speculations in the United States. All figures are slightly lower at the end of the year than at the beginning.

Forty Gold and Five-1/2 per cent.

and sold in the year was reduced in the statutory markets in London and Wales, which were caused by the corn returns act of 1899. These figures are exact, and the

Over-Work Weakens Your Kidneys.

Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work.

Pains, aches and rheums come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or uneasy heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It is used to be considered that only urinary troubles were to be traced to the kidneys, but modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes.

You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

average prices thus established are important. Tithes are based on them, yet as they are only for the best salable grain, they represent something more than the real value of the whole output. The average price of wheat was 27 1/2-12s per 480 pounds.

FLOODS IN CHINA.

News Comes to Christian Herald of Wholesale Drowning.

New York, Sept. 4.—The Christian Herald has received the following cable from Arthur H. Smith of Tientsin, chairman of the famine relief committee:

"Che Foo, Sept. 3.—Terrible Yangtze floods. Dr. Richard and others approve that the Shanghai committee of Chinese and foreigners, embracing consuls, missionaries, and missionaries, distribute relief. If funds are not all required in Shanghai, then will transfer remainder to Yangtze.

(Signed.) "SMITH."

Several hours later a second cable was received as follows:

"Dr. Duncan wires that one-third of the population are dead. Shanghai is forming a Yangtze relief committee. (Signed.) "SMITH."

Shanghai is situated at the mouth of the Wong Poo river, twelve miles above the mouth of the Yangtze. In the estuary is the Yangtze delta. It stands on a level and highly cultivated plain and is in no danger from floods. It is believed that Dr. Duncan refers to floods in the Yangtze delta valley which occurred on July 24th. According to Associated Press dispatches received at the time, several thousand people were drowned.

BIBLE IN DRAMA.

John the Baptist is the Hero of the Piece.

San Francisco, Sept. 4.—A notable theatrical event was the production at the Central theater for the first time on any stage of a biblical drama by Edward Elmer, entitled "A Voice from the Wilderness," in which John the Baptist is the leading character. The action of the play takes place in Judea just before the advent of Christ. The chief variation from scriptural history consists in the introduction of a scene between John and Herodias, the consort of Herod, who declares her love, but is treated with scorn by the evangelist. These characters were effectively impersonated by Robert Downing and Annette Marshall. The play was presented by Baileys and Thail with artistic scenery and remarkable attention to detail and historical accuracy and scored a success.

\$130,000 Fire.

San Francisco, Sept. 4.—A spark from crossed electric wires started a fire that destroyed machinery in the Hicks Laid printing establishment, on First street, worth \$130,000, and did other damage estimated at \$30,000. Crane and Company, wholesale dealers in plumbing supplies, occupied the ground floor. Their loss is estimated at \$5,000. The insurance amounted to about \$75,000.

Will Carry Reserve.

San Francisco, Sept. 4.—The cruiser Philadelphia will sail today from this port for Astoria, will take on board the Oregon naval reserve for its annual cruise.

Spaniards Object.

New York, Sept. 4.—It is the belief among many Americans that the Merchants' Union of Havana will not continue the economic propaganda to obtain a reduction in the American customs tariff, in favor of Cuban products, says the Havana correspondent of the Tribune. While its president, Mr. Gamboa, a man of American ideas, favors the movement, there are certain elements, led by Mr. Lodriguez, secretary of the corporation, that hamper Mr. Gamboa's work. The reason is said to be founded on the fact that these parties are Spaniards who understand well enough that if, in return for a reduction on the Cuban sugar and tobacco in the United States, a similar reduction is granted to American products in Cuba, these countries will control Cuban markets to the detriment of the Spanish commercial interests, which are favored by the United States.

Treat Czar Coldly.

London, Sept. 4.—The Times prints a dispatch from Copenhagen, which asserts that the remarkable coyness of the people in regard to the czar's visit continues. This is declared to be undoubtedly due to the Finnish question, Finland being regarded as a part of Greater Scandinavia and the Pan-Scandinavian feeling being never more intense than at the present time. The very day that the czar arrived in Danish waters a party of Finnish singers, who had been enthusiastically received, departed. It is asserted that the emperor will not visit Copenhagen.

Out door Exercise

gives greatest good, when it is supplemented by using in the bath

Woodbury's Facial Soap

It draws the sting of sunburn, heals chafes and bruises, freshens and invigorates the skin leaving it smooth, firm and white.

Woodbury's Facial Cream, same cheap soap and hands. Sold by dealers, 25 cents each. Booklet free. Trial size package of soap and cream 5 cents postpaid.

COLOMBIA WILL BE BROKEN UP

Twenty Thousand Well Armed
Troops Pitted Against Her.

REBELS ALSO HAVE A NAVY

They Propose to Capture a Seaport to
Facilitate Importation of War
Munitions.

New York, Sept. 4.—Plans of the movements of the revolutionists in Colombia have been received by their agents here, and if all has gone well, confirmatory news of a startling nature is soon to be expected. The Red Line steamer Philadelphia brought a large mail for Dr. Restrepo, the agent for the revolutionary party in this city. Interviewed he said:

"Altogether in Colombia we have now an army of more than 20,000 men, well armed and equipped. Gen. Uribe-Uribe has 10,000 well drilled troops under him, and according to our advice was to start on his campaign of invasion of Colombia at a point below San Cristobal on August 23.

"Before his lines is Gen. Genzalez Valencia with nearly an equal number of Colombian troops to oppose him. "At Riochacha, which is the seaport at the northern part of the department of Magdalena, with a population of 10,000 we have two generals with a force of 3,000 men, who now have the city surrounded. Gen. C. Castillo is in command, and Gen. J. M. Castillo is next in charge, with the forces divided about equally between them.

"Riochacha will be attacked both by land and sea, and we expect, with speedily fall. Then we shall take Santa Marta, further down the coast, and hold both seaports of the Magdalena province. It will not be difficult to control the entire department. Between Riochacha and Gen. Uribe-Uribe's position near San Cristobal is stationed Gen. Camacho who has a force of 4,000 veterans. For some time they have been without ammunition, but about eighteen days ago new arms and a large quantity of ammunition were successfully gotten to them, and they are now in fine shape.

"Near Honda is Gen. Marin with 2,000 seasoned men, and in the Cauca province, in the south, are two generals and Gen. Herrera. I cannot speak of the size of their forces or their movements.

"When Gen. Camacho and his troops join with Gen. Uribe-Uribe the department of Santander will be virtually in our hands.

"It is my belief that the Colombian gunboat Pinzon will come back over the bar at Barranquilla. It is very easy to go in but so difficult to get out that steamboat navigation of the river has been practically prohibited.

"Gen. Alban committed a grave mistake when he carried her there. Gunboat Pinzon was lost five rapid-fire guns, 1,000 rifles and 1,000,000 rounds of ammunition, besides other military stores, went down with her."

SUNK BY REBELS.

New York, Sept. 4.—The brief cable mention of the recent sinking of the Colombian gunboat La Popa has been supplemented by further particulars regarding the accident by mail, says the Tribune. Gen. Joaquin Velez, governor of Bolivar, charges that La Popa was sunk by rebels, and has caused the impression that the four survivors are guilty of complicity in the plot.

The government has used every endeavor to suppress the details of the wreck. On this account it is not definitely known how many lives were lost. La Popa was carrying troops from Cartagena to Barranquilla, and none of them was saved. The warship, which went down about sixty miles from the port of Savannah, also carried a cargo of a half million cartridges and 1,000 rifles, the loss of which will be seriously felt by the government.

The sinking of La Popa will also cripple the naval fighting force, as Colombia recently sold the Cordova, which was her largest ship, and is now left with only one gunboat of account. This is the Gen. Pinzon, formerly the American steam yacht Namouna. One hundred thousand dollars has been sent to Gen. Velez from Bogema with which to purchase another vessel.

Coincident with the receipt of the foregoing details comes the news that the revolutionists are preparing a simultaneous land and sea attack on Riochacha on the Atlantic side of Colombia. It is the object of the rebels to secure control of at least one seaport, which will greatly facilitate the introduction of munitions of war. They possess a fleet that is almost, if not quite equal to that of the government. This planned attack will be directed by Gen. Jose Maria Castillo and Gen. C. Castillo, whose forces have joined for that purpose.

Upholders to Strike.

New York, Sept. 4.—The upholsterers' union of this city has made a demand for the eight-hour work day, to go into effect today. Strikes are to be ordered whenever the demand is refused. The union has 2,000 members in Greater New York, and their demand has been endorsed by the Central Federated union.

Oriental Concentrates.

Victoria, B. C., Sept. 4.—The steamer Tosa Maru, which arrived last night, brought one of the richest cargoes which has come from the Orient. She had 2,500 tons, including 3,500 sacks of very rich concentrates shipped to Seattle by the Leigh Hunt Mining company, at Gansan, Korea.

The steamer Tacoma also arrived last night from the Orient.

Buenos Ayres' Representatives.

Buenos Ayres, Sept. 4.—President Roca has signed a decree appointing Dr. Antonio Bernijo and Dr. Lorenzo Amador representatives of Argentina at the Pan-American congress.

Powerful Searchlight.

New York, Sept. 4.—Incoming steamers of the New York line report seeing occasional reflections in the sky of the searchlights of the war vessels guarding the Boer prisoners of war, more than forty miles from land, while steamers of the West India line report seeing these reflections in the sky more than seventy miles south of Bermuda, says the St. George, Bermuda, correspondent of the Herald.

It has been suggested that it would be useful to ships passing the Bermuda to know the ship. Besides the question has been broached, would not the principal lighthouses of the world be of more utility if they had attachments of powerful searchlights, to be thrown about on the sky seaward? In the case of shipwreck these powerful beams might prove of great value.

BLAWST ME HEYES

SAYS MR. CROKER

Report That the New Yorker is
Becoming Anglicized.

WILL LIVE IN ENGLAND.

It is Said That He is Preparing for
Citizenship—If So, Let
Him Go.

New York, Sept. 4.—A London dispatch says: In the current issue of Week End a contributor gives an account of a conversation he recently had with Richard Croker.

"Mr. Croker tells me," says the correspondent, "that he is passionately fond of rural England, and that some day he hopes to settle down at a little country house in one of our most picturesque counties.

"I hope I am betraying no confidence when I remark that he is trying to prove himself fit for citizenship with us by an applied study of our manners and customs."

Hopes for the Best.

London, Sept. 4.—Abdul Krim, who has represented the sultan of Morocco on a special mission to Paris and St. Petersburg, says, according to a dispatch to the Times from Tangier, that he trusts a satisfactory arrangement in regard to the French frontier has been arrived at. He has reason to believe, however, that the arrangements will not be permanent, though he thinks it will allow unending direct negotiations between the sultan and the French minister to Morocco.

Spain has been unable to obtain the restitution of a boy and girl kidnapped by subjects of the sultan. If they are not returned by September 12 Spain will take action.

Cleveland as Orator.

New York, Sept. 4.—Former President Grover Cleveland is to be the chief orator today at the opening of "Old Home" at Norwich, Conn.

He was invited to participate because his grandfather, William Cleveland, was an old resident of Norwich town, and made clocks there.

Revert to Materialism.

Seattle, Wash., Sept. 3.—A special to the Post-Intelligencer from Victoria, B. C., says:

A long and stormy cabinet session was held this morning at which Premier Dunsinuir insisted on the advent of Brown of New Westminster, to the cabinet. Elerts, McBride and Prentice violently protested, but without avail. Prentice was offered the ministry of finance and Brown was eventually sworn in as provincial secretary. McBride will resign, if his resignation is not already in the hands of the premier. Prentice will probably resign also.

It is believed that the premier will shortly retire and that McInnes will succeed him. Excitement here is at full heat and a crisis is believed to be imminent. It is regarded as a virtual reversal to Materialism and destined by Martin to the premier, who is willing to take Martin's advice rather than that of the ministers.

Colonists Suffer.

Durban, Sept. 3.—Representations have been made to Lord Milner that the British refugees are not nearly so well treated as the Dutch colonies are being treated. The transportation by railroads of supplies for the Boer refugees prevents the British returning to their homes. Foreigners, it is said, are allowed to move about as they are inclined, but the refugees are threatened with ruin through accumulated liabilities. The feeling prevails that the proposed settlements are not fair to the new colonies, and that a just proportion of the responsibility for the war and expenses involved is not shown by them.

Alaskan Agriculture.

Washington, Sept. 3.—Dr. E. W. Allen, assistant superintendent of experiment stations conducted by the agricultural department, has returned from a ten weeks' tour of inspection of the stations in Alaska. Dr. Allen reports that all the hardy vegetables are being grown there, and predicts that the time will come when Alaska will grow a sufficient supply of them.

He also says that wheat, oats, barley and rye have been matured at the stations, and he thinks it practicable to raise the home market. He says there is much inquiry for land along the coast, from people living in northern Europe, and he thinks the time will come when many of them will find more comfortable homes there than they now have.

Higimo for President.

Rio de Janeiro, Sept. 4.—It is asserted that Senor Jose Higimo will be appointed president of the Brazilian legation at the Pan-American convention. The other members of the delegation will be former minister Epitacio Pessoa and the Brazilian minister to the United States, J. F. de Assis-Brasil.

Another Burned.

Troy, Ala., Sept. 3.—Bill Fournier, alias Bill Hillis, a negro, charged with assaulting Miss Wilson at Chestnut Grove, was shot and his body burned by a mob near the scene of his crime today.

Miss Wilson, who is 16 or 17 years old, and the twelve-year-old daughter of Dr. Carroll, were on their way to school at Chestnut Grove, just across the line in Coffee county, when they were overtaken by the negro. He seized Miss Wilson, and the little girl ran off. As she did so the negro fired his pistol at her, but missed.

The little girl raised the alarm, and soon a posse was in pursuit of the negro. When they reached the scene of the crime they found Miss Wilson unconscious and terribly bruised in the face and about the head.

The posse tracked the negro to his home, where he was found in bed. The little girl identified him, and he was then taken out and shot and his body burned. Miss Wilson is in a precarious condition. The sheriff and three deputies left tonight for the scene of the crime.

Poisoned Candy.

Deadwood, S. D., Sept. 3.—Mrs. Myra Priest, a waiter in a restaurant in this city, is under arrest for attempted murder. She has a daughter about 12 years old, who had been adopted by the St. George, Bermuda, correspondent of the Herald.

The little girl raised the alarm, and soon a posse was in pursuit of the negro. When they reached the scene of the crime they found Miss Wilson unconscious and terribly bruised in the face and about the head.

The posse tracked the negro to his home, where he was found in bed. The little girl identified him, and he was then taken out and shot and his body burned. Miss Wilson is in a precarious condition. The sheriff and three deputies left tonight for the scene of the crime.

PRESENT NAMES OF CANDIDATES

Peabody, Dives, Low, Coler and
Norton Named for Mayor.

CITIZENS' UNION AT WORK.

New York's Non-Partisan Movement
Is Taking Practical Shape—
Meeting Tonight.

New York, Sept. 4.—The committee of 107 representing the Citizens' Union will meet tonight to act upon the report of the conference committee on the candidates for city offices. While the committee tonight is to select a candidate from each of the three lists of four names proposed by the conference committee for the office of mayor, controller and chairman of the board of alderman it is believed that some of the candidates, if their names are dropped tonight, will carry the fight into the convention of the Citizens' Union, to be held on Sept. 23. The list of 18 candidates selected by the conference committee, so far as is known, contains these names:

For mayor: George Foster Peabody, George L. Dives, Seth Low, Bird S. Coler, F. Norton Goddard and John Dewitt Warner.

Controller: Edward M. Grout, R. R. Bowker, James McKee, Charles W. Dayton.

For president of the board of alderman: Edward N. Burghard, George Cromwell.

Owing to the size of the committee and the varying claims of the candidates it is not believed that a decision will be reached at the meeting tonight.

Unprofitable Smuggling.

Chicago, Sept. 4.—Diamonds and other valuables worth \$25,000, which were recently slipped into the country by a prominent Chicago man on his return from Europe, without the payment of duty, have been seized by J. J. Crowley, special agent of the treasury department in this city. The jewels, which were purchased, it is said, in Paris, have been turned over by Mr. Crowley to William Penn Nixon, collector of customs, in this city. He will hold them until orders for their disposal are finally received from Washington.

An effort is being made to settle the case with as little publicity as possible. It is probable that the owner of the valuables will pay all the costs, which will amount to something like \$10,000, and thus avoid prosecution.

This is a Losing Game.

Capetown, Sept. 3.—It is reported that Comandant Myburg has issued an order directing that all armed colonials captured after September 15th are to be shot.

Capt. Willis, with a patrol of twenty-five men from Oudstroom, was taken in ambush near Meiringspoort. He and two men escaped, three others were killed and four wounded, and the rest, who surrendered and took the oath of neutrality, were released.

Shot in Cold Blood.

London, Sept. 2.—The Colonial office published today a dispatch from the governor of Cape Colony, Sir Walter Hely-Hutchinson, received September 1st, announcing that the Boers on August 25th captured two unarmed British scouts near Haarekloof and shot them in cold blood.

ANOTHER MAID CHOSEN.

Miss Clara Corse is Selected to Represent Ogden Lodge.

Miss Clara Corse, daughter of Geo. H. Corse, joint agent of the U. P. & O. S. L. in Ogden, was today selected by a committee from the Ogden lodge of Elks to represent them as maid of honor to Queen Mabelle. The choice is

MORE BOXES OF GOLD,

And Many Greenbacks.
