Last Night's Dispatches.

EASTERN

Attachment Granted.

NEW YORK, 30.—In the suit of Nathaniel B. Hall, vs. the California Bank, Judge Brady, to-day, granted the plaintiff an attachment against the bank's property in this State, to recover $15,000, deposited with the bank.

More Failures.

The well known publishing house of Lee and Shephard, of Boston suspended payment on Saturday; this suspension involves the New York firm of Lee, Shepard and Dillingham. This morning the acting partner of the house, Mr. Dillingham, made an unconditional assignment to Jas. Mills, the publisher, of No. 645 Broadway. A private telegram received from Boston, this morning, gives the liabilities of the senior firm at $1,000,000, but Miller and other prominent publishers, who are well informed in regard to the business of the house, say that the sum involved will not exceed $330,000, and that they will probably be able to pay 50 cents on the dollar. The New York branch is a comparatively new concern, while Lee and Shepard are two-third owners, the remaining share being owned by Dillingham. The debts of this house amount to about $150,000. Miller, the assignee, took possession of the establishment, and after making a liberal allowance for bad debts and the depreciation of the stock, he estimates that the concern will pay its debts in full. The parent house of Lee and Shepard was established in 1863, and did a very successful business up to the time of the Boston fire, in which it lost more than $100,000. They made a determined effort to recover themselves, but owing to the general stagnation of trade, have been at length forced to suspend payment. The event causes general regret, as the firm, though young, was the most popular in the trade.

Union and Adams, wholesale dealers in men's furnishing goods, suspended to-day; liabilities unknown.

Tax on Square Timber, &c.

WASHINGTON, 30.—The Secretary of the Treasury has decided that hewn pine timber, commercially known as squared or sided, is subject to duty at the rate of one per cent. per cubic foot, and not 20 per cent. *ad valorem*, as heretofore held by the department.

The Treasurer and Express Companies have settled the questions concerning the transportation of national bank notes, by agreeing on a basis of 37 cents per thousand dollars.

A Shocking Accident.

BOSTON, 30.—Yesterday, at Hopkintown, a boy named Morris Ryan, aged sixteen, started down stairs with a loaded gun, intending to shoot a cat, when his sister Mary, aged fifteen, who desired to save the cat's life, caught her brother by the shoulder to pull him back; at the same time two other sisters, younger than Mary, came to the head of the stairs. In the scuffle between Morris and Mary, the gun went off, killing Mary and one of the other sisters; a third sister was wounded in the arm, and Morris was wounded in the leg.

Quarantine Removed.

MONTGOMERY, Ala., 30. — The yellow fever has disappeared at Barrancas, and the mayor has issued a proclamation removing quarantine against Pensacola, as that city is perfectly healthy.

The Sioux Fraud Commission.

KANSAS CITY, Mo., 30. — The members of the commission appointed to investigate Prof. Marsh's charges of frauds, relating to the Red Cloud agency, arrived here this evening, and were interviewed by a reporter. The members are rather reticent, but say that numerous articles have been published making statements calculated to do the commissioners injustice, and which do not contain a particle of truth. They say that they have a mass of testimony which will be examined at their meeting in Washington on Dec. 9. The commission has made a searching inquiry, and will recommend some change in the Indian policy, but whether the charges are likely to be sustained or not, nothing could be learned, as the members have not yet consulted as to what course they will pursue.

WESTERN.

Funeral of Mr. Ralston.

SAN FRANCISCO, 30.—The funeral of Ralston, to-day, was the most imposing ever witnessed in this city. The services were conducted at Calvary church, which was crowded to its utmost capacity; and decorated with flowers and funeral wreaths. A concourse of citizens, numbering probably twenty thousand, gathered around the church. After the services at the church a procession, consisting of a battalion of cavalry, three regiments of infantry, a battery of artillery, the templar lodge of Odd Fellows, clergy and hearse, with the following pall bearers—R. F. Morrow, Wm. Burling, D. O. Mills, H. P. Wakelee, William T. Coleman, Geo. H. Howard, Wm. Sharon, D. D. Colton, S. M. Walson, William Alvord, John O. Earl, Louis A. Garnet, M. Livingston, Thos. Bell, Geo. S. Dodge, Peter Donahue, Col. W. H. L. Barnes, Hon. Ogden Hoffman, Hon. Cornelius Cole, W. K. Vanderslice, W. K. Dietrich, A. A. Cohen, Charles Clayton, Company C. 1st Infantry, and a guard of honor. The hearse was followed by the clerks of the Bank of California, regents and faculty of the University, members of Chamber of Commerce and of the S. F. Stock Exchange, Pacific Stock Exchange, members and friends of the family in carriages, officers and employees of the manufacturing concerns in which the deceased had been interested and a concourse of citizens numbering thousands brought up the rear. The services at the cemetery were conducted according to the rites of the Odd Fellows. The streets on the route of the procession were lined with people, and there was a great gathering at the cemetery.

Cause of Ralston's Dismissal, Etc.

A prominent banker reports that the immediate cause of the demand, by the directors of the Bank of California, for Ralston's resignation, was the discovery, by the directors, during the investigation, of a lot of bills receivable from irresponsible parties, aggregating in the neighborhood of a million dollars, with no collaterals. It is also reported that it was the intention of the directors to have subsequently called Ralston into their counsels, to avail themselves of his intimate knowledge of the business of the bank.

It is reported that some heavy stock brokers and others, who have borrowed large sums, in one case amounting to half a million dollars, for the benefit of the Bank of California, securing their own bills payable with stock of the bank, are likely to become heavily involved, as the stock of the bank can't be given away at present.

Collection day is thus far progressing with a mutual feeling of accomodation among business men.

Deed of Ralston to Sharon, &c.

The deed of Ralston to William Sharon conveys all his property, real and personal, wherever found, in absolute ownership, with a right to dispose of the same on such terms and prices as he deems best, and to apply the same and the proceeds thereof, and of the property hereby conveyed, to such purposes and uses as said William Sharon may, in his judgment, deem best for our joint and several interests.

The board of supervisors, yesterday, met with closed doors, but it has transpired that a heated discussion arose, and a policy of taking no action with regard to the resolutions in memory of Ralston was adopted, with only one dissenting vote.

Flutter Among Distillers.

The flutter among the distillers and revenue agents here is in consequence of the presence of special revenue agent Clark, who is examining into affairs on the coast. On Saturday evening the deputy collector at Antioch, Contra Costa County, seized Jost's distillery and 26,000 gallons of spirits, valued at fifty thousand dollars, on a charge of the illicit manufacture of whiskey.

Found Satisfactory—Subjected to Chemical Analysis.

At the request of the comptroller of the currency at Washington, Dr. Linderman, director general of the U. S. Mint in this city, has made a thorough examination of the books and assets of the National Gold Bank and Trust Co., and has found everything in a satisfactory condition; he will report the same to the comptroller. The bank will be left free by the government to manage its own affairs.

The inquest in the case of Ralston will be resumed to-morrow; his stomach has been subjected to chemical analysis.

Gone to Protest.

A number of cases have been reported to-day in which commercial paper has gone to protest, in some instances on prominent firms, but no disposition has been shown to take any action on the protests, or to push the endorsers, and in a majority of the cases the notes have been partially paid and renewed.

Not Yet Opened.

The Merchants' Exchange Bank does not open this morning, in accordance with the almost positive assurance of the secretary given yesterday; it may possibly do so during the day, but that will depend on the success of negotiations now pending. The officers are apparently somewhat less confident of immediate resumption than yesterday, but say that any delay is merely temporary.

The National Gold Bank and Trust Co. is still closed, and is unable to say when it will resume, but says the outlook is favorable.

Sharon Interviewed.

Sharon was interviewed this morning with regard to the statement credited to him that the Bank of California would resume business, and he stated in reply to a direct question—"We are moving heaven and earth to reopen, and it is possible and not improbable that the bank will resume, there is a reasonable probability of it." In reply to a question as to the rumors of an over issue of stock and the substitution of worthless paper in envelopes which had contained collaterals, and other fraudulent proceedings, he said—"I know nothing about it, I have not been amongst the clerks or in the vaults." Bell, one of the directors, in reply to a similar question this evening, said—"I know of nothing of the kind."

Will Probably Resume.

Sharon is credited with the statement that, unless something unforeseen turns up, the directors of the Bank of California will make no statement, but that the bank will resume business. An attorney stated in the rooms of the Bar Association, to-day, that one of the directors of the Bank of California informed him that the affairs of the bank were in a much better condition than he anticipated when the directors commenced their examination.

Political Wire Working.

Sharon's statement as to the prospect of the reopening of the Bank of California is unquestionably intended purely for political effect; this view is confirmed by the utterances of other gentlemen prominent in the management. D. O Mills, on being urged by a prominent citizen to come forward with other stockholders and settle the liabilities of the bank, said—"It is impossible; the bank is in a very bad condition; the stockholders lose all the stock, and more, and many of them are unable to respond to such a call." There is still further confirmation in the exclamation of Wm. Alvord, who, on being asked, this evening, as to the truth of the reports concerning fraudulent transactions, nervously said — "Why push that question; won't it do after the election?"

Startling Facts Leaking Out.

The San Francisco commercial correspondent of the *Record-Union*, a well-known writer, and one who has heretofore taken a pretty favorable view of all the movements made by the managers of the bank, makes the following significant statement—

"In the meantime the investigation by the trustees into the affairs of the collapsed bank has proceeded, and some new facts have gradually become known, that excite a good deal of anxiety to receive the forthcoming report, and know the worst. It can be stated that the condition of the bank affairs is far worse than had been dreamed of, and that the executive committee of the board of trustees, whose duty it is to verify the monthly exhibit of the managers, has been systematically deceived for some time past, as those monthly exhibits have failed to detail a true state of the accounting even. If the statements that are made 'in well-informed circles as to improper entries upon the books, and the important obligations current but not entered at all, and over hypothecation, should ultimately be realized, the fact will remain that at the time of the crash the bank was rotten through and through. The whole capital, five millions of dollars, the whole surplus, one and a half millions on the top of that, are gone, and a sad balance of indebtedness remains, for which the stockholders in their individual capacity are liable to be called on. Assets to a large nominal amount are discovered, upon which a small per centage only can be realized; many are worthless. The bank has latterly been a heavy borrower in a quiet way."
