ENED.

THE above is one of the sensational headlines used by many of the ewspapers in the States, about this time, and prefixed to the windy alsehoods dispatched, ostensibly from this city. Of the papers which indulge in these expanded sensations the New York Herald is one of the foremost, one of the most "enterprising" in this particular field of Journalistic enterprise. Truth is one, felsehood is many, Perhaps the very multifariousness of the latter renders it dear to the heart of the "enterprising" correspondent and newspaper man. Kaleidoscopic many - sidedness, which characteristic falsehood un-deniably possesses, may be invaluable to a newspaper man whose surnat lives on its "enterprise," and whose readers look for some thing sensational from it to help down their every matitutinal meal. If newspaper readers expect lies, demand lies, and will pay for lies, such mental ailment will certainly be furnished them daily, for there are men and institutions in the country which will furnish anything for which there is a paying demand.

Although the current newspaper sensations concerning Utah are grossly untrue, and therefore grossly unjust, yet some of them are so farfetched, so ridiculous, so absurd, and so utterly and ridiculously foreign to the facts, that one is rather at a loss whether to regard them as merely amusing or as more worthy of indignation and contempt. Certainly those persons who love and make and circulate lies, according to Scripture, are not worthy of any respectful consideration, and have little to hope for when justice is meted out to all.

As the papers have set themselves to blowing up this big bub-Mormon war," it may naturally be not be the last time. expected that they will continue until the bubble bursts of its own extreme inflation, or until some other sensation more promising shall arise, in which latter case the Sale of short horns at Chi- "Mormon war" bubble would be quietly cast adrift and left to float away into the upper deep as it might, or be suddenly pricked and burst, as a child would use a toy bubble when he had grown tired of or indifferent to It.

We have just adjourned our semiannual conference here at Laie, having been in session three days. Gov. Emery, who has had his attention called to the facts, still deliberates whether or not to take action in regard to them.
