Crop Report.

CHICAGO, June 26.—The following is the weekly crop summary printed in this week's issue of the *Farmers' Review*:

Although no change has taken place in the condition of the ripe and fast-ripening winter wheat crop since our report last week, it is gratifying to note that no material damage is being done to crops by rust. Harvesting operations are progressing rapidly and the weather is everywhere favorable for work.

Growing crops are in need of rain in Illinois and the western states. The hay crop is very light. Corn prospects are excellent. Fruit prospects are fair. Our reports on the condition of the winter

WHEAT CROP

in the different states are as follows: Fifteen counties in Illinois report an average condition of 83 per cent, with slight injury in six counties by fly and by rust, and by fly in Lawrence county. Eleven counties in Indiana report the condition at 88 per cent., and injury from insects in three counties, and rust in Spencer Co. Twelve Kansas counties place the average at 90 per cent. and complain in nearly every instance of severe injury to crops by chintz bug. Winter wheat is almost a failure in Sedgwick County. Fourteen counties in Ohio report the average condition at 76 per cent., with very little complaint of fly. Kentucky counties place the average condition at 96 per cent. Michigan counties report an average condition of 95 per cent., with damage by insects in Van Buren and Lenawee counties. Thirteen counties in Missouri report the average condition at 105 per cent. The crop in Bates County is reported a total failure by chintz bugs and drought. No other counties complain of injury by insects. The crop is in shock in Christian County. The condition of

SPRING WHEAT

in the different states is as follows: Wisconsin counties report an average condition of 88 per cent. Pippin county complains of chintz bug. Eleven Minnesota counties report an average of 79 per cent. Nine counties in Nebraska place the average at 89 per cent. The crops are in good condition in Dakota.

The oat crop has been quite liberally damaged by drought and insects. Indiana, Michigan and Ohio alone report the crop in good condition.

Weather Crop Bulletin.

WASHINGTON, June 26.—The weather crop bulletin issued to-day by the Signal Service for the week ending June 25th, 1887, is as follows:

During the week ending June 25th, 1887, the weather has been slightly cooler than the average for the week in all agricultural districts east of the Rocky Mountains, while it has been warmer than usual on the Pacific Coast. In northern California, Oregon and Washington Territory the average daily excess of temperature for the week ranged from 4 to 10 degrees. During the week the rainfall has been in excess in all states on the Atlantic coast, along the immediate Gulf coast and in western Missouri, and eastern Kansas; the heaviest rainfall occurring along the middle Atlantic coast. A large seasonal deficiency in rainfall exceeding ten inches continues over the cotton region and a seasonal deficiency exceeding five inches exists in Illinois, Wisconsin and Iowa; in all other sections the rainfall for the season differs slightly from the normal.

THE WEATHER

during the week has been generally favorable for the principal crops. Rains in the South Atlantic States have doubtless improved the condition of the staple crop in that region. More rain is needed in the cotton regions and indications this morning are that rain will occur in the lower Mississipi and Ohio valleys by Monday afternoon. The weather has been favorable for harvesting in wheat regions, there having been an excess of sunshine and very little rain. In the corn region the weather has been generally favorable, although in some localities more rain is needed, and the cool weather of the past week must have slightly retarded the growth of the corn crop.

Terrible Scenes at a Fire.

LONDON, June 25.—Fire broke out in a tenement house on Oxford Street this morning and the flames spread so rapidly that several inmates were unable to make their escape. Frightful scenes were witnessed by enormous crowds of people attracted to the spot. One youth jumped from the top story to the ground and was instantly killed. His mother followed, striking upon the railings in front of the house, and rebounding on the heads of the crowd. Another woman appeared at a window holding a child in her arms. A moment later she fell backwards into the flames. The charred remains were afterwards found.

GREAT FIRE IN CHICAGO.

Chicago Packing Company and Armour Lose Over $1,250,000.

CHICAGO, June 26.—A million and a quarter dollars went up in smoke at the Union Stock Yards to-day. Early this morning an employe of the Chicago Packing and Provision Company discovered fire in the tank room. In a few minutes one of the tanks exploded, scattering the burning lard over the adjacent buildings. A dozen fires were soon competing with the other in the destruction of the immense establishment. The fire was not struck out till this evening, fourteen and a half hours after its start, and a five-acre oven will remain on the premises red hot for a couple of days. In this territory were

FOUR LARGE BUILDINGS

of the packing company. The main building was 200 by 475 feet. This, with the exception of the curing room, which was saved with the contents—19,000,000 pounds of short ribs, in a damaged condition—is a total loss. On the east side of the main building was a warehouse, four stories and a basement, and containing 17,000 barrels of mess pork belonging to Armour. The building and most of the pork was totally destroyed. Between 600 and 700 hogs were also cremated. Back of the main building was a fertilizing factory 100 feet square, and an engine house 50 by 65 feet, both of which structures were completely destroyed.

Don't Like Snobbery.

LONDON, June 26.—Dr. Parker, of the City Temple, in the course of his sermon this evening, said he was astonished at the interest shown by Americans in the Queen. One American had offered five hundred pounds for a ticket of admission to Westminister Abbey on the occasion of the jubilee services. Americans, he said, had no state coach but they had education, liberty, independence, a spirit of progress and energy. Mr. Cleveland, America's king, had written him a friendly letter, showing that he did not feel that there was a wide difference between a president and a preacher.

The fact that no wind was blowing was probably the only circumstance that saved the

ENTIRE STOCKYARDS

from destruction. Before the fire department could respond to the first alarm, the flames had gained headway which no amount of water could reduce. Twenty-six engines and every reservoir in the yards were soon brought into play. All of the firemen and hundreds of stock yard employes' efforts were bent toward keeping the conflagration confied to the works of the Chicago company. About this time more tanks exploded and a heavy beam went smashing into a freight car where several firemen were stationed, breaking pipeman Baker's ankle and knocking Lieut. Elliott unconscious. Soon afterwards the walls of the warehouse fell to the ground, disclosing great heaps of mess pork which two or three hundred of Armour's men went to work removing as best they could. After the flames had consumed most of the wood work of the buildings, the fire still held sway in the great mounds of burning meat. The suffocating fumes from this and the blinding dust from falling walls of brick made the task of the firemen a terrible one; many of them were well nigh overcome.

THE MOST EXCITING

scene of the day was presented when the men were attempting to drive out the live hogs in the upper stories.

Jubilee Services.

LONDON June 26. — Crowds of royal personages were present at Windsor jubilee services at St. George's Chapel to-night Nearly all the members of the royal family attended. The Queen was not present.

Murder and Escape.

SPRINGFIELD, Mo., June 26.—C. B. Carter, Tom M. Killon and three other prisoners killed a deputy sheriff and escaped from jail at Mount Vernon yesterday. Carter was to be hanged next Friday for the murder of Robert Crockett and Killon was awaiting trial for complicity in the same crime. Carter and Killon were saloon keeper and druggist respectively and Crockett had reported them for violation of the liquor law.

The Last Day.

LONDON, June 26.—The time set for signing the Egyptian convention expires to-morrow. It is asserted that if the Sultan does not sign, a special British envoy will depart immediately for Constantinople.

We Looked for This.

NEW ORLEANS, La., June 26.—Jeff. Davis, in a letter to a local paper, denies the authenticity of the letter sent out early in the week from Danville, Ills. He claims it is a barefaced forgery and denies the views attributed to him on the subject of the rebel flags.

The Sunday Law.

ST. LOUIS, June 26.—The Sunday law was generally observed to-day, and it was exceedingly difficult to get a glass of intoxicating liquor. Eighteen saloonkeepers were arrested for violation of the laws. The saloonkeepers' organization will make a test case of one of them.

Preservation of Ancient Work.

ROME, June 26.—Signor Baccell and Signor Bonghi, ex-ministers of public instruction, will present in the Chamber of deputies to-morrow, a bill providing for the preservation of ancient Roman remains in the vicinity of the forum baths of Caracalla and Viacaphia, by means of an archaeological promenade enclosing them. The estimated cost of the work is $8,000,000, to be paid in annual rates by the municipality government.

NIAGARA FALLS, June 26.—The action of the U. S. authorities in taking the name of Canadian employes on the American side as they pass over the bridge, causes great indignation here. Citizens threaten that if any rule compelling Canadians who work in the United States to live there be put into effect, they will bring about measures to have railways transact their business on the Canadian side of the river.

McGlynn in Chicago.

CHICAGO, June, 26.—At a meeting of the Land and Labor Club here this afternoon, Dr. McGlynn addressed the members for about two hours. He touched upon a great number of topics and among other things said the united labor party was well organized and would have up a candidate for the presidency in 1888.

No More Summary Executions.

ST. LOUIS, June 26.—A special from the City of Mexico says that the law to protect railroads from interference by the vicious public, which in effect sets aside the constitutional right of trial by jury to all train wreckers or robbers, and caused the immediate execution on the spot of all persons implicated in such unlawful pursuits, has expired and will not be extended, as the executive is satisfied that the stringency of the law has overawed the vicious and superstitious, and the anti railroad people have become satisfied with the advantages. Train-wrecking is considered a thing of the past in Mexico.

Anarchists and Socialists.

NEW YORK, June 26.—The *World* says: The anarchist Johann Most has received a letter from Louis Ling, one of the condemned Chicago anarchists, complaining that the attendants at the Crook County jail treat him and his six comrades "like slaves, not showing the least kindness." Ling predicts a great uprising in case the sentence of hanging is carried out.

At a secret meeting of the American section of the socialistic labor party to-day, it was resolved to reorganize that body. A resolution was passed favoring the holding of a national convention at Buffalo, on September 17th. Below were scores of workmen rolling out barrels of pork and down on the crowd pell mell leaped dozens of hogs maddened with burning, jumping from the windows and through the hatchways. The workmen below were compelled to flee for their lives. In the afternoon, when a number of firemen were trying to save the short ribs in the curing room, a division wall fell, injuring Thos. Murphy so seriously that he died four hours later. Five other firemen received severe wounds.

Armour places his loss at $360,000, but thinks the salvage and insurance will make him even. The plant of the Chicago company was valued at $300,000, and the stock at $700,000. About half of the two thousand employes will be thrown out of work.

The Victorious "Genesta."

LONDON, June 27.—At 4 o'clock this morning the *Genesta* was two miles off Dover in the direction of Boulogne. The *Genesta* arrived at Dover at 5:15 a. m.

The French Won't Stand It.

CONSTANTINOPLE, June 26.—The French government has sent a note to the Sultan, in which it distinctly refuses to accept the situation which would result from signing the Egyptian convention, and says that if the convention be ratified France will take the measures necessary to protect her interests, which will be endangered by a disturbance of the equilibrium of the Mediterranean. On the other hand France offers a formal assurance that she will protect and guarantee the Sultan against whatever consequences may result if he will refuse to ratify the convention. By so doing, the note says, the Sultan will strengthen the ties of friendship between France and Turkey and protect his country from the encroachments and ambition of England. Upon receipt of this note a counsel of ministers was summoned and a note to the powers drafted complaining of French interference in the internal affairs of Turkey. The note will be submitted to the Sultan for approval.

It is rumored that the Russian troops are advancing from Kars as a menace to the Turks.

Opposed to Boulanger.

PARIS, June 26.—A recent meeting of the French Patriotic League had led to the resignation of many members of that organization, including M. Metivier, one of the founders of the league and an intimate friend of Gambetta. Letters have been received from various branches of the league protesting against "throwing France at Boulanger's feet." The affair threatens to break up the league.

Arrested as a Spy.

PARIS, June 26.—The leader of a fashionable Hungarian band has been arrested on suspicion of being a Prussian spy.

Bernhardt.

PARIS, June 26.—It is asserted that Mme Bernhardt, on her return here, will be readmitted to the Comedie Francais.

Proper Action.

LONDON, June 26.—The archbishop of Cologne has excommunicated Heron Solemacher for challenging Baron Schorlemer to fight a duel.

An Acute Stage.

LONDON, June 26.—The *Morning Post* says: The Egyptian negotiations have reached an acute stage.

Total Clearances.

BOSTON, Mass., June 26.—A table compiled from specials to the *Post* shows the gross clearings of leading cities of the United States for the week ending June 25th were $991,930,762, an increase of 7.4 per cent. over the corresponding period of 1886.

Sharp Suffering.

NEW YORK, June 26.—At the urgent request of counsellor Stickney, Judge Barrett modified the order relating to the confinement of Jacob Sharp in Ludlow Street jail. Mrs. Sharp and her daughter, Mrs. Delmar, were allowed to remain all night. Sharp has passed a bad night. He was restless and moaning almost constantly. He evidently suffered much pain. The prisoner has not eaten much of anything for several days.

The Apache Fiea.

BENSON, Arizona, June 26.—The latest report from the Apache Indians is that eleven of them have been driven back to their reservation by Lieut. Johnson and troops. This leaves but very few at large.

The Gould & Curry Fire.

VIRGINIA, Nev., June 26.—The gas and smoke have ceased issuing from the Gould & Curry shaft, indicating that the fire, if not extinguished, is merely smouldering. It is thought a connection can be made some time to-morrow with the space where the fire imprisoned miners. The imprisoned men have not for many hours given a sign of being alive.

The Anti-Poverty Dreamers.

NEW YORK, June 26.—At to-night's meeting of the Anti-Poverty Society, a reference to McGlynn's coming excommunication caused the large audience to shout: "We will stand by him." The speaker asserted that the punishment was caused by Joseph J. O'Donohue. The mention of Archbishop Corrigan's name brought forth a storm of hisses. Henry George, in a speech, likened Pope Leo and Cardinal Simeoni to an organ grinder and his monkey.
