

GOVERNOR VETOS THE MAIN BILL

Smelters Must Purchase New Sites From the Owners in Open Market.

LAW IS UNCONSTITUTIONAL.

All Legislative Acts Are Now Filed With Secretary of State With Executive Approval or Veto.

At midnight Tuesday, the time for executive action on the bills passed by the Seventh legislature expired, and as a result there are now 165 new laws on the statutes, while 12 memorials have gone on their way to various destinations.

The final act in winding up the business of the session was Gov. Cutler's disapproval of the bill granting eminent domain to smelting corporations. This measure was framed early in the session and was introduced by Senator Benner X. Smith. Originally it granted the right of eminent domain without restriction, but for fear the smelters would attempt to hold their present sites under it, in Salt Lake county the restriction was placed upon them that they could not make use of the right in counties of over 75,000 inhabitants, or in other counties until they control 75 per cent of the desired land.

These alterations seem to have made the law unconstitutional in the opinion of Gov. Cutler, as he points out that it is special legislation, in his letter to the secretary of state, explaining his veto. The text of the letter follows: "It appears to me to be contrary to public policy to have the private enterprises declared public uses; and there is a great difference between the right of eminent domain for public use and the right of extending that power over a radius of four miles to the great injury of that region from poisonous fumes and dust.

"The act is objectionable in that it is special legislation, violative of the spirit and letter of the constitution of the state, which says: 'In all cases where special law shall be enacted, this act is special for the reason that it grants the right of eminent domain to smelters in 75,000 or less, but withholds the right in counties with a larger population. In making all smelters a public use but discriminating against those in a county having more than 75,000 population by declaring that they shall not exercise the right of eminent domain while other smelters in the state may do so. It becomes at once a special law, and therefore in my opinion unconstitutional.

SOCIAL AND PERSONAL.

Today Miss Arvilla Clark and Mr. Willard Andelin were married in the Temple, the ceremony being performed by Apostle H. J. Grant, with the relatives and a few intimate friends present. The event will be celebrated in an informal affair given by friends who were abroad with the bride couple, and later Mr. and Mrs. Andelin will go to Richfield to visit with Mr. Andelin's relatives and in May they will leave for Berlin, where both have important musical engagements. The bride and groom are among Utah's most talented musical artists, and their future career will be watched with interest and sincere wishes for success by their many friends.

Mrs. John Ronselaar entertained delightfully this afternoon in honor of Mrs. C. S. Williamson of Denver.

Mr. and Mrs. E. A. Nock, formerly of this city and now of Denver, are here for a few days.

The Utah Woman's Press club will meet on Saturday night at the Exposition office in Templeton block and a program devoted to Longfellow is being given, an interesting part to be the tracing of the relationship of America's renowned poet to the late President Lorenzo Snow, by Mrs. Minnie J. Snow.

Mrs. Wallace Bransford entertained her card club this afternoon.

Mrs. C. S. Williamson was guest of honor yesterday at a card party given by Mrs. W. J. Lynch and Mrs. C. S. Slade, the rooms being decorated in spring flowers and six tables placed. The prizes were won by Mrs. H. McMillan and Mrs. W. L. Greene.

This afternoon Mrs. Lillie C. Wolstenholme entertained the Daughters of Utah Pioneers at an afternoon quilting party, each guest bringing bits of material from ancient or historic interest to be placed into a quilt for the relief of the poor in the Leon House. Old fashioned refreshments were served and an enjoyable time spent.

About 20 guests were entertained at cards on Monday by Mrs. E. A. Wall, the prizes going to Mrs. S. Pinkerton, Mrs. C. S. Slade and Mrs. W. F. Beer.

AMUSEMENTS.

The Farrell Recital—Mr. Alfred L. Farrell and his assisting artists gave an enjoyable and artistic recital before a good sized audience in the Congregational church last evening. Excepting Mr. Graham, those who participated were largely a family group, as Mrs. Sloan, soprano and pianist, and Miss Phyllis Thatcher, violinist and accompanist, are sisters of Mrs. Farrell. They have many friends in Salt Lake, and their recital was largely a family group, as Mrs. Sloan, soprano and pianist, and Miss Phyllis Thatcher, violinist and accompanist, are sisters of Mrs. Farrell. ing the dainty "Nimoreski" by Dvorak. She was heartily encored. Mrs. Sloan, well remembered for her beautiful work in "Patience" years ago, sang the Mozart "Dove" song and rendered the duet "Calm as the Night" with Mr. Farrell, besides appearing in a trio with Messrs. Farrell and Graham. While she suffered greatly from nervousness, she showed herself the possessor of a very sweet voice; her work at the piano was admirable throughout. Mrs. Farrell, who gave several recitations, was a genuine surprise. She showed complete self-possession, and has not only a rich voice, but an excellent dramatic conception of her themes. She too was recalled, and all the ladies were presented with flowers. Mr. Graham's well known accomplishments as tenor, were shown to good advantage in his two ballads and in the trio. The evening was voted one of genuine pleasure from first to last.

All the houses of amusement are running this week on bills that will not change. The theater is nightly presenting the beautiful play "The Bonnie Brer Bush." The Orpheum will turn people away before the week is out. Murray & Mack at the Grand are increasing their popularity, and at the Lyric popular priced vaudeville is going to gratifying business.

THE CHOIR INVISIBLE.

Clyde Squires, the Young Salt Lake Illustrator, Again Wins Distinction.

One of the distinctions that mark the rise of talent in the artistic and literary world is the presentation of an artist's or an author's work in the special editions of eminent periodicals. This distinction has been again won by Clyde Squires, this time in the production of a two page drawing from his pencil in the special Easter number of Life, that greatest of American publications, devoted to wit and humor. When Mr. Squires' picture "An Old Song" appeared, friends wondered if there could come to the artist anything so appealing as the theme he portrayed in that tender and speaking picture. In his work in Life's Easter number he has found a subject if not quite as touching yet as subtle and appealing in its way as "An Old Song." Mr. Squires calls it "The Choir Invisible," and the story is a choir loft containing the invisible songsters of a modern church, comprising a quintet—the organist with head bowed on his nature, the choir leader, and the four voices, each with a different personality, with the weight of the minister's eloquence, or sleep, while on either side are grouped two couples, arranged as if appears in the fashion for an interval each apart from the other, young eyes looking into young eyes, each couple as apparently oblivious of the preacher and public outside the church. A thrilling story is told both in the tableau, and in its treatment by our native artist; the first is of love, and the second of talent, and both are distinctly and artistically, and unmistakably portrayed. It is an interesting part of the picture to know that the scene is a partial reproduction of a tableau sketched by Mr. Squires, who inadvertently stumbled into the choir loft in a New York church during the Sabbath services. His has been the picture already accepted by Life, which are to be published from time to time.

JAMES DOUGLAS GOES FREE.

James Douglas, arrested several days ago on the charge of threatening to do bodily harm to the person of A. A. Mich, was dismissed in Judge Diehl's court this morning for the reason that the evidence was not sufficient to warrant holding the defendant. Douglas was represented by Atty. James M. Hamilton.

SEVERE ECZEMA CURED IN SIX WEEKS.

Suffers Three Years—Hands and Eye Most Affected—Employed Doctor to No Effect—Now Entirely Recovered and Will Recommend

CUTICURA REMEDIES IN ALL PARTS OF PARISH.

"My wife was taken badly with eczema for three years, and she employed a doctor with no effect at all until she employed Cuticura Soap and Ointment. One of her hands and feet were badly affected, and when she could stop using Cuticura Soap and Ointment the eczema came back, but very slight; but it did her a sight of good. Then we complied with the instructions in using the entire set of Cuticura Remedies and my wife is entirely recovered. She thanks Cuticura very much, and will recommend it highly in our locality and in every nook and corner of our parish. God bless you for the sake of suffering humanity. I. M. Robert, Hydropolis, La., Jan. 5 and Sept. 1, 1906."

SOUTHERN MAN CURED OF A Terrible Eczema by Cuticura in Six Weeks.

"Some time ago I suffered terribly with eczema, and I had the best medical attendance, but the more medicine I took the worse it seemed to get. I kept on with medicine for about five weeks until I saw the Cuticura Remedies advertised, and I at once purchased the Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent, but had not the slightest hope of them curing me. After I had used the first set of the Cuticura Remedies, however, I was cured, and in just six weeks my skin was as smooth as ever. I advise any one suffering from this terrible skin disease to use the Cuticura Remedies. Henry J. Stellas, 192 Spring St., Charleston, S. C., June 12, 1906.

STREETCAR IMPROVEMENTS.

General Manager Wells of the Utah Light and Railway company signed a contract yesterday afternoon, with the William Wharton, Jr. company of Philadelphia for \$5,000 worth of track curves, thus doing away with the Belgian or trap block condition at present in a very uneven condition.

When spring fully opens the street railway system will be extended from Fifth North and Second West streets to Fourth West street, and north to the county road leading to Houtfall and the North Salt Lake gravel pits. Some 250 families will be accommodated by this extension, and the company will have access to some fine gravel deposits.

The management will put into operation April 1 next, a new transfer system which will enable patrons to take any car except on the line from which the transfer is issued or on the line parallel to it within one block. This will be welcomed by the traveling public. At present, if a party would go south on Main from a First South street car he must wait for the particular car designated on the transfer, whether any other car would serve better or not. After April 1, he can take the first one that comes along.
