

GOODING ISSUED NO PROCLAMATION.

He Never Invited Labor Unions
To Send a Delegation
To Boise.

POSITION CLEARLY DEFINED.

If Committee Were Sent He Would Arrange to Have Them Meet
Orchard.

Boise, Ida., March 23.—The authenticity of what purported to be a proclamation addressed by Gov. Frank R. Gooding, "To the labor unions of the United States," in relation to the prosecution of Moyer, Haywood and Pettibone, was denied today by Gov. Gooding. In an interview today Gov. Gooding said:

"In an interview with a newspaper writer yesterday I suggested that if the labor organizations, in place of passing inflammatory resolutions in which the prosecution is denounced and a vote of confidence in the innocence of the men is adopted, would endeavor to investigate the charges against these men and suspend action until that time, a better understanding would prevail and a better feeling exist. I said that if proper committees were appointed to make these investigations, and the men were acting in good faith, I should favor their being given every opportunity to satisfy themselves as to whether or not the state was justified in holding these men accountable for the crime committed, even to the extent of letting them meet Orchard."

J. H. Hawley, chief counsel for the prosecution, states that under no consideration will any one be shown the confession or any other testimony. Gov. Gooding has made the following statement respecting the allegation that he had offered to permit a delegation to see Harry Orchard and hear him tell his story:

"My attention has been called to a dispatch in a Denver paper, and to a reporter of a newspaper syndicate, stating that I had issued a proclamation addressed to the labor unions of the United States, requesting them to send delegations to this city, and that I would be pleased to allow those delegations to meet Harry Orchard personally and have him tell his story. I have told it to Detective McParland. I am quoted as saying: 'You can remember that I shall have the power as governor to hear your grievances, and to prevent any miscarriage of justice.'"

"I have issued no proclamation and no such statement was ever made by me. What I did say was that I regretted very much that some of the labor unions had decided to pass such radical resolutions, copies of which have been sent me. I stated to the correspondent, as I have to many others, that in my opinion the labor organizations of the country were vitally interested in this matter—that Idaho guaranteed to the accused men, as well as to the state, a fair trial, and that if they would appoint a committee to come here and investigate they would find as high a standard of citizenship here as in any other place in the United States—that an attempt on the part of any one to prevent a fair trial would be met by his own and effective opposition on the part of the state government and of the people at large."

"I stated that if a committee of laboring men was sent here to meet the state authorities, and they came in a spirit of fairness and of honesty, seeking only the truth, that I would go so far as to arrange for them to meet Orchard and Adams in my presence, and in the presence of their attorneys, and let them hear from Orchard and Adams' own lips that they had made a confession implicating Moyer, Haywood, Pettibone, Simpson and St. John in a number of murders, and that no promise of reward or of clemency had been made them by any one."

"I wish to state now, very positively, that the story of these confessions will never be told until it is repeated by Orchard and Adams in the trial of these cases."

(Signed) "F. R. GOODING."

PETTIBONE TAKEN TO BOISE.

Boise, Ida., March 23.—George A. Pettibone was brought from Caldwell today and lodged in the county jail here with Moyer. It was intended to send either him or Haywood to the jail at Weiser, but it was found that jail was crowded and could not afford proper accommodations for the prisoners. Pettibone seemed delighted with his removal to Boise, and Moyer was glad to have him here. The two occupy the same commodious room during the day, having all the comforts that can be provided. They spent the afternoon talking, and both manifested their satisfaction at being together.

MOTHER MURDERS CHILD.

Roswell, N. M., March 23.—Mrs. Mary E. Alken, who confessed to having buried alive her eight-months old boy, was today found guilty of murder in the first degree by the jury that heard her case at Carlsbad. The jury pronounced her insane, and Judge William H. Pope will have her committed to the territorial asylum at Las Vegas.

STRANGE FACTS.

It seems strange that sometimes your stomach or bowels won't digest your food, no matter what you eat. It may be the weather, or it may be just the state of your general health, but in any case, there is only one certain, safe and positive method of cure, and that is the proper use of that universal remedy for all forms of dyspeptic trouble or digestive weakness, whether in stomach, liver, kidneys or bowels—Stuart's Dyspepsia Tablets. These Tablets, taken a few times a day, may be such wondrous potential possibilities, that by their use the course of a man's whole life—yes, of the world—may be changed!

Yet, who would not appreciate the fact that if Napoleon had not been suffering from cancer of the stomach he would have won instead of lost—at Waterloo?

And Stuart's Dyspepsia Tablets would have cured his Stomach Trouble had they then been invented, as they have cured thousands of others in the past 10 years, who have suffered just as Napoleon did.

So you can readily appreciate that today, by curing all these people, Stuart's Dyspepsia Tablets is helping to get the world's work done by people who would do worse work if they were sick, so they must be having a great influence, in a quiet way, on the world's progress.

They may, therefore, be classed as one of the triumphs of science, amongst other discoveries, in medicine, mechanics, transportation, etc.

Let this, then, remain in your memory, a fact upon which to act when occasion requires:

"When any organ in your vast digestive machinery gets out of order, you have at your command one of the great inventions of the age, in Stuart's Dyspepsia Tablets, to put your machinery in order again."

By so doing you will save much useless friction, add to the energy and working possibilities of your healthy machine, and relieve yourself from suffering, disease, weakness, premature old age and death.

All this is in accordance with the most modern teachings of the best scientific schools of health, hygiene and medicine, and it will be to your advantage to lay these facts to heart.

Don't hesitate. Try Stuart's Dyspepsia Tablets today.

TESTIMONIAL BANQUET TO JEROME AND HUGHES.

New York, March 23.—The Delta Upsilon fraternity of New York gave a testimonial banquet tonight to Dist. Atty. Jerome, Amherst '82, and Charles E. Hughes, Brown '81. The 500 fraternal men present represented 37 different colleges and universities.

Mr. Hughes, who spoke briefly, was hailed as the "next governor of New York." In response to which he said:

"I attribute your good wishes to the spirit of fraternity and good fellowship. I must, however, leave political aspirations where they belong."

"Public opinion," said Mr. Jerome, in his address, "is a good deal like a ship driven here and there by the winds. Public opinion goes hither and yon, but in the end it is sweet, sane and sound, and like the ship, it will make its port. It is for us a positive duty to see that the tacks are no longer than necessary. But what do we find to-day in the city, the state and the nation? We find a public opinion of absolute hysteria."

Mr. Jerome referred to the return of Andrew Hamilton, saying: "It was only a few days ago when the newspapers were clamoring for Hamilton to be brought back and imprisoned or electrocuted or punished in some way. He did come back. He did it bravely and rightly, and struck true according to my own mind. But now the man for whose blood they were crying out for is made a hero and his uncorroborated word is taken to brand men whom the men of the community, whom you and I trust in."

"I am going to see that those who violate the criminal law shall be punished, but the way to convict is by evidence. I was informed the other day by a director of the Mutual Life that \$100,000 of policies have lapsed. These were policies of the poor, who had been influenced by the wild stories of the newspapers. These institutions are as solvent as the United States, but these poor people, clerks and laboring people, were scared by the incessant yapping of the hounds of the 'yellow press.'"

MOSCOW CONVENTION.

St. Petersburg, March 23.—The municipal convention of Moscow and St. Petersburg have been fixed for April 27, and the other cities will elect representatives to the lower house of Parliament, April 30.

The trade and industry convention which will choose six members of the lower house, has been called to meet in St. Petersburg, March 29.

ATTEMPTED SUICIDE.

Minneapolis, March 23.—Arthur T. Johnson, acting professor of English literature at the University of Minnesota, attempted suicide today by leaping from the Hennepin avenue bridge, 10 feet into the Mississippi. The current carried him within reach of men working on the gates. He was unconscious when rescued. He had been suffering from a nervous malady.

"SCOTTY'S" LAWYER ARRESTED.

Los Angeles, Cal., March 23.—Atty. Wallace W. Wiederman, who has been interested in the Walter Scott case, and has appeared on several occasions representing Scott's friends, who are accused of assault, was today arrested in this city on a warrant charging him with offering a witness \$100 to leave the country.

Wiederman is alleged to have offered the cash bribe, together with the transportation to Mexico, to A. W. DeLyle St. Clair, who is about to be called as a witness in San Bernardino against Walter Scott. "Shorty" Smith and William Keyes, in the hearing of the charges of assault preferred against them.

GREAT BRITAIN DISSATISFIED.

London, March 24.—Turkey having declined to withdraw her troops from Tabah, on the Anglo-Egyptian frontier of the Sinai peninsula, which is claimed to be Egyptian territory on the ground that it is part of the Turkish empire, Great Britain has replied that she is unable to accept that view, and has expressed the hope that the sultan will be influenced to modify his contention. Nothing is known here of the report that Great Britain proposes to make a naval demonstration.

JOHNSTONE BENNETTE ILL.

Montclair, N. J., March 23.—Miss Montclair Bennett, the actress, is critically ill at her home here, and her death is said to be only a question of days. A cold contracted in Denver about two years ago developed into lung trouble.

LABOR LEADERS ASKED TO SPECIFY.

The President Wants Instance of
Violation of the Eight-
Hour Law.

WILL ENFORCE IT EFFICIENTLY

The F. of L. Executive Council Will
Compile a List of Com-
plaints.

Washington, March 23.—Frank Morrison, secretary of the American Federation of Labor, today received the following letter from President Roosevelt:

"March 23, 1906.—My Dear Mr. Morrison: At our interview yesterday I requested you to bring to my attention any specific violation of the eight-hour law. I would like you to call my attention as soon as possible to these complaints, and I shall also forward them to Mr. Neill of the labor bureau, and direct him to investigate them and report direct to me."

"Furthermore, I shall hereafter direct all departments in control of work as to which this law applies, to notify the department of commerce and labor when the work is begun and I shall notify the secretary of the department of commerce and labor whenever such notification reaches him, himself to notify the head of the labor bureau whose duty it then will be to take cognizance of any complaint made as to violations of this law, to investigate the same and to report to me."

"As you know, I do not only sympathize with you on the eight-hour law, but I intend as a matter of course to see that that law is efficiently enforced. My belief is that you will find that with Commissioner Neill personally supervising the enforcement of the law all just complaints will be met. Sincerely yours,

"THEODORE ROOSEVELT."

"Mr. Frank Morrison, secretary American Federation of Labor." At the executive council of the Federation of Labor, it was decided to have compiled a list of complaints as suggested by the president.

RAILROAD RATE LEGISLATION.

Sir Thomas Shaughnessy Thinks Roads
Make Too Much Opposition.

New York, March 23.—Before sailing on the White Star line yesterday Sir Thomas Shaughnessy, president of the Canadian Pacific railway, expressed his convictions concerning legislation on railroad rate regulations, now under discussion in the senate at Washington. He said:

"It is my opinion that the railroads are making altogether too much opposition to the proposition. It seems to me that the people are entitled to regulate rates. It is therefore only a question as to the best method of securing that end."

"Rate regulation in Canada, under the control of a federal railway commission, created by an act of parliament in 1902, has been in operation for two years, and is satisfactory to both the railroads and the shippers. Our commission consists of three members appointed by the government, one for a period of two years, and removable only by parliament. The only appeal from the decisions of the commission is to the governor. No member of the present commission has ever been identified with the railroad business, but there is an obvious anxiety to be just alike to the railroads and the shippers, and as a result the decisions in the main are fair. The commission has full authority to initiate every rate in the schedule, but in practice it ratifies existing rates within certain limits, and experience has indicated to be equitable. The complaints are made to the commission and its decisions stand unless reversed by the governor in council. However it may be accomplished, I am clear that the railroads will be better under government regulation of rates."

WHITE SLAVE TRAFFIC.

New York Women Protest to Mayor
McClanahan Against It.

New York, March 24.—The Interurban Political Equality Council of Greater New York, an organization composed of 18 clubs, with a membership of over 2,000 women, has presented a communication to the mayor against "the shameful condition of affairs in this city, called the white slave traffic."

The mayor is appealed to to see that the traffic of this city do their duty and make it safe for honest women to seek employment without running the risk of being entrapped and kept in a vice den."

NELSON'S MEMORANDUM.

Owners Had No Idea of Its Value Till
Told to See an Auctioneer.

London, March 24.—The Daily Telegraph today states that the "general memorandum" of Lord Nelson, being his autographic directions to his captains on the eve of the battle of Trafalgar, and which was sold at auction in London, March 15, for \$15,000, was the property of a London omnibus driver, who is still plying his calling. The memorandum was given to this man's father by an admiral, and he had no idea of its value till he was advised to consult the auctioneer.
