

CHARGES AGAINST GEN. LEONARD WOOD

Senate Military Affairs Sub-Committee Continues its Investigation of the Same.

MAJ. RATHBONE ON THE STAND.

Asks That Maj. E. J. Ladd be Subpoenaed and Asked to Tell What He Knows of the Case.

Washington, Nov. 24.—A sub-committee of the senate military affairs committee, consisting of Senators Proctor, Charles and Pettus, met today to continue the investigation of charges against Gen. Wood to prevent his confirmation as major-general.

Maj. Estes G. Rathbone resumed his testimony in explanation of his personal charges. He also asked the committee to subpoena Maj. E. J. Ladd, U. S. A., and interrogate him concerning the condition of Gen. Wood's Sanitary accounts in 1898 when he was acting as auditor of Cuba.

Brig.-Gen. Tasker H. Bliss of the general staff will be summoned by the committee and asked for certain information he is said to possess concerning the charge made by Maj. Rathbone that Gen. Wood accompanied E. G. Bellaire from Havana to New York in 1898, with some knowledge that Bellaire was an ex-convict.

Gen. Bliss was chief collector of customs for Cuba, with headquarters at Havana, during that time and he will be asked also to regard to charges that presents for Gen. and Mrs. Wood were

admitted to Cuba without payment of duties.

Maj. James L. Runcle arrived in Washington today from Havana and will appear before the committee Friday.

It was stated at the close of the last session that probably more than two weeks would be occupied in hearing the witnesses the committee already has determined to summon.

Two sessions were held today by the committee. An adjournment was taken until 11 o'clock Friday, when Maj. Runcle will be the first witness.

Opponents of the confirmation of Gen. Wood openly express the opinion that the military affairs committee will report the nomination favorably to the senate, but declare that when this course is taken some charges will be presented to the senate which the committee has excluded from the testimony.

From the attitude of senators opposed to the confirmation of Gen. Wood it is certain that a demand will be made for the appointment of a sub-committee to go to Cuba to inquire personally into several of the charges. Maj. Rathbone today reiterated his determination to go to Cuba at the same time, for the purpose of pointing out sources of information which form the basis of many of his charges.

OUTLOOK FOR PEACE VERY FAVORABLE.

Indications Are That Differences Between Russia and Japan Will Be Amicably Settled.

WIJU REPORTED OCCUPIED.

Should it Prove True, it Would be Regarded as a War Move, Surely Leading to Hostilities.

Washington, Nov. 24.—Dispatches from Tokyo received at the Japanese legation here as late as today make no mention of Japanese warships being dispatched to prevent Russian war vessels reaching Port Arthur. On the contrary, the advices are to the effect that there is a favorable outlook regarding a settlement of the questions at issue between Japan and Russia.

Nothing is known here of the reported occupation of WiJu by Japan, and officials say they would be surprised to have the report confirmed in view of the fact that this is the port which United States Minister Miller has gone to Chemulpo to endeavor to have opened to the world's trade. If the report is true, the officials say, there can be but one conclusion drawn from the fact, namely, that the move is a war measure on Japan's part and is made in full consideration of the fact that it is no longer possible to avoid a hostile clash with Russia.

One popular Tokyo newspaper has twice been officially suspended for publishing verses indirectly suggesting the assassination of the ministers. It is also feared that popular feeling may manifest itself Dec. 5, when the diet meets, unless some decided development in the negotiations occurs in the meantime.

The ministers remain reticent, professing confidence in their ability to control the situation.

No reply has been received by Japan from St. Petersburg on the subject of the Japanese overtures, and there are many indications that the delay in the negotiations is embarrassing Japanese foreign trade and raising impatience in Japanese circles, as shown by public meetings at Tokyo, Yokohama and Osaka, protesting against the ministerial inactivity.

Princess Alice, wife of Prince Frederic, disappeared two weeks ago and that her coachman disappeared at the same time. The people of Dresden believe that the princess and the coachman have eloped. Inquiries at the residence of the princess elicit the answer that she is traveling and that her present whereabouts is unknown. The princess is the youngest daughter of Don Carlos of Bourbon, pretender to the Spanish throne.

Holy Rollers Spreading.

Corvallis, Or., Nov. 22.—O. V. Hurt will no longer shelter the Holy Rollers in his home. Apostles Creffield and Brooks have been ordered out of the hospitable home which has given them such comfortable shelter for the past several weeks. Brooks is traveling easterly from Corvallis and is reported to be spreading the doctrines of the rollers. Five prominent citizens of Corvallis visited the Hurt home last night for the purpose of having a talk with Mr. Creffield, and it was then learned that Mr. Hurt had given the apostles notice to vacate.

Report on Indian Affairs.

Washington, Nov. 23.—The annual report of Commissioner of Indian Affairs Jones, advocates the education of the Indian in the rudiments of the English language and that he be taught that he must work or starve. The com-

missioner thinks this policy in a generation or more will regenerate the race and that the Indian should be protected only to the extent that he may gain confidence in himself, leaving nature and civilized conditions to do the rest. There were 257 Indian schools in operation during the year, 31 being reservation boarding schools, 25 non-reservation and 140 day schools. The enrollment of pupils was 24,357 and the employees numbered 2,382.
