Legislative Nominations.

The Republicans of the Third senatorial district yesterday nominated Mr. Lucy A. Clark of Farmington for the Senate. She will run against Aquilla Nesbitt, Democrat.

In Wasatch county the Republicans named Thomas F. Watson by acclamation for the new Senate.

Emery county Democrats have named P. L. Overson. The Republicans of the same county have made N. E. Curtis their standard bearer.

The Eighth Senatorial district Democrats, who assembled at Nephi yesterday, nominated Joseph V. Robinson of Nephi for the upper house.

In the Twelfth at Provo the Republicans made R. S. Udall their nominee, and in the Eighth Parnell C. Calder of Fillmore was given a similar honor by acclamation. In the Tenth, members of the same party nominated James M. Robbins. In the Fifth, Abraham Smith will be pitted against H. C. Clawson. For Representatives, Charles A. Callis of Juab and myself have been nominated by the Democrats.

Last Night's Fire.

The premises occupied by the Salt Lake Stove company at 41 east First South street were discovered shortly after nine o'clock last evening. A still blaze was quickly sent in to the fire department and both stations responded promptly. The roof was found to be in flames, but the office and work of the department soon brought them under control. The John Clive real estate room, the bindery, and the stock of unfinishable goods in the store was valued at $2,500, with an insurance of $1,800. It is believed that the fire was the work of incendiaries. The damage done was slight.

Mrs. Jensen Injured.

Yesterday afternoon, about 4 o'clock, Mrs. Peter Jensen, who resides on State road south of the city, was driving near the railroad track at Bingham Junction when her team became frightened at an engine on the Rio Grande Western and ran away, throwing the lady out and injuring her very severely about the head and right shoulder. Dr. Richards attended Mrs. Jensen and says the lady will in all probability soon recover from her injuries, which, however, are very severe. The fireman and engineer of the engine jumped and attempted to stop the team, but their efforts were unsuccessful. The runaway made straight for a rig used by Messrs. Thos. Ashworth and George Humphrey, the former driving. Mr. Ashworth gave the rig the whip and nearly escaped as a narrow lane as the runaways passed by.

HARRISON POLITICS.

Some Interesting Words From Two Royal Hoosiers and Ford Company.

"If it is not too early I would like to tell you a campaign story," remarked the chief of one of the bureaus of a down town department to a Washington star reporter.

"One of the scenes in it was a candidate at the Chicago convention and the other is a candidate for governor of his state.

"The scene was in a western state, though neither of the gentlemen resides in that state now. Both were candidates for a small county office, and both then, as they are now, were zealots for anything they went after. They were making a house to house canvass, which is necessary in that state, owing to the sparse population, and, while they endeavored to work in different sections, they frequently found themselves in the same neighborhood at the same time. The occurrence which I refer to was at a farm about a mile distant from the village where both candidates were to speak the following day. The candidates kept their eyes pretty well on each other during the early part of the day, but during the afternoon they started out to do missionary work at the farmhouses. By a singular circumstance they landed at the same farm, though one did not know the other was there till later on.

"The man first referred to, finding that the owner of the farm was absent, deported himself in the wife, and, of course, said all kinds of nice things to her, meaning special inquiry after the children, whether they had caught the measles, which prevailed at that time, etc. The lady seemed charmed with the attention shown her, but as she would like to be excused so she had to milk the cow. The candidate kindly offered to assist in that performance, and did, although he could not milk, he could keep the flies off the cow, or at least hold her tail.

"While engaged in holding the cow's tail he ventured to ask if his competitor for the office had been around yet.

"'Oh, yes,' answered the wife, 'he is here now. He is in the back barn and is holding the calf, for the cow won't give her milk down if the calf is in sight.'
