W. H. HOOPER,

SUP'T.

Salt Lake City, 1875.

PRESIDENT GRANT

All classes of people, from the humblest citizen in the land, like to wear good-looking, comfortable Boots and Shoes, and everybody who has bought goods of the WORKINGMEN'S CO-OPERATIVE ASSOCIATION in this city will readily

That for Perfection of Fit, Reliable Quality, and Reasonable Prices, the Boots and Shoes made by the W. C. A. are second to none. These are facts that cannot be

IMPEACHED!

And we invite all who have not given us a trial to come and prove the truth of our statements.

Repairing done. Hides Bought.

The Trade supplied with Leather and Findings.

90 MAIN STREET.

S. P. CROMPTON, Supl.

Mower at Work.

Mower Folded.

Self-Rake Reaper at Work.

Showing Gearing.

The above cuts represent the celebrated **Cayuga Chief Mower and Reaper**, manufactured at Auburn, N. Y., by the **Cayuga Chief Manufacturing Company**.

The new Machine, No. 6 Combined, possesses all the advantages of the other Cayuga Chiefs in their most improved and popular form, as heretofore constructed; the leading features of which are arranged and combined in the most desirable, compact and symmetrical form, making it superior to anything of the kind heretofore produced. MR. WHEELER, whose name as an Inventor and Patentee is familiar not only to manufacturers of Reapers and Mowers, but to the agricultural community generally, has spent twenty-one consecutive seasons in the harvest field in experiment. For the past two years he has devoted his whole time to the organization and test of this Machine, which embraces all the most important and valuable improvements heretofore made and patented to him, combined in the most simple, substantial and symmetrical form, with other improvements made by him, which by practical and thorough test in the field, under his inspection and supervision, have proved valuable and successful.

In introducing them to the farming public of the Far West, we desire to call attention to some of the important features of these Standard Machines, and ask an examination of the same by all who contemplate purchasing a Mower or Combined Mower and Reaper the ensuing season, being satisfied that inspection will lead to a sale.

An examination of the Machine will show that the main or driving wheels are of large size, and are placed further apart on their axle than usual, giving the machine greater steadiness when in use, especially on rough, uneven ground.

Two frames are employed in the construction of this machine, and the same system of gearing as used in the other Chiefs, but it is arranged centrally in the frame, which serves also to shield and protect it.

The lifting devices for the finger bar are the most perfect and effective. The Cutting Apparatus—a very important feature—is entirely different from all others, and its advantages will be apparent on inspection. Its Folding Arrangement as shown in cut is the only convenient mode of transportation by which the machines can be perfectly balanced, perfectly safe, and can be driven ANYWHERE A TEAM CAN GO.

As a Reaper it has a light, compact platform, which can be quickly attached to or detached from the Machine. The Self-Rake used is the same popular Wheeler Rake, so long and successfully in use on our other Machines, and is entirely different from any other in use. In its application to this Machine, all its valuable features are retained, whilst its application is so simplified that it requires but a few moments to attach it to or detach it from the Machine. Two eye bolts serve to hold it in place, by clamping it to the pivot pins of the main shoe. These have simply to be loosened to remove it from the shoe. By the location of the Rake upon the shoe, and the hinging the shoe to the cutter frame, the platform wheel has no part of the weight of the Rake to carry, thus overcoming the difficulty experienced in Machines when the large shoe is located outside of the road wheel by the great weight carried on the platform, causing it to sag and the Machine to run hard, with often severe side draft. The platform is readily adjusted to cut at different heights, and is the most durable platform made in America.

The Gearing as shown by the cut is arranged in the centre of the Machine, in a compact and simple manner, being completely encased, thus protecting it from all dirt and grit. Every part of the Machine is duplicated, and tons of extra parts are now on hand at the different agencies in Utah.

LOOK TO YOUR INTEREST, and before purchasing a Mower or Reaper, or Horse Rake, call on or address Mattison & Johnson, Agents for Wyoming, Utah, Nevada, Idaho and Montana.

A. J. JOHNSON, Ogden, Utah.

SPRING OF 1875.

TO THE GENERAL PUBLIC throughout Utah and the neighboring Territories. Z. C. M. I. offer a large and well selected line of Merchandise of every description.

The advantages of capital and experience possessed by this Institution enable it to offer a general stock of Merchandise at lower figures than any other house equally remote from manufacturing centres.

The Wholesale Dry Goods Department

Is displaying a large and attractive line of **Spring Prints** and other **Dress Goods**, together with all the popular brands of Bleached and Brown Goods, Ticks, Denims, Hickories, Cheviots, and our usual full line of Notions, beside many attractive Novelties recently selected in the East.

THE WHOLESALE GROCERY AND HARDWARE DEP'T

Constantly replenished by large shipments and dealing principally with manufacturers, offer all goods at popular prices. An immense and varied stock of *Staple and Fancy Groceries, Heavy and Shelf Hardware, Hazard and Giant Powders, Fuse, Mining Outfits, Plows and other Agricultural Implements, Stoves, Stove Furniture, Etc.*

SPECIAL.

THE BOOT AND SHOE DEPARTMENT

Has been enlarged to double its former capacity and is now displaying a superior class of goods, embracing the most staple and popular Styles known in American markets, among which, for Ladies' and Children's wear, we call attention to the Specialties of Edwin C. Burt, Sollers & Co., Sausser, Dangler & Co., and many other styles of Shoes justly esteemed and sought for.

Particular attention is called to immense additions recently made to our stock of Foreign and Domestic Leather and Shoe Findings.
