

watched like a hawk but he wanted his adversaries across the table to commit themselves. They did not do so. Nevertheless, Mr. Sato returned to the Associated Press this morning, late in the afternoon, and said that he had been to the conference chamber that the disputed articles would be returned to "later"—which means Monday.

#### MYSTERIOUS HINTS.

The Russians, in the final test, may yield one of the two points. They will not do more if they will do so much. If the Japanese they do not yield at least one of the points. It is not clear that can be regarded as certain. If the conference threatens at the last moment to go to pieces, the Japanese hint vaguely of a situation at sea by President Roosevelt. They offer no explanation, they furnish no specifications. Where, how, in what way, they do not say. But the hint is that the government is still endeavoring to yield one of the points. The situation created by the hint is that the government is still endeavoring to yield one of the points. The situation created by the hint is that the government is still endeavoring to yield one of the points.

#### RUSSIANS LEFT FIRST.

The Russians for the third morning in succession had the start of the Japanese for the morning today. They left the hotel about 9:10 a. m. Mr. Witte and Baron Rosen appeared on the veranda accompanied by several members of their mission, including General Yermoloff and Mr. Berg. Baron Komura and Mr. Takahira on their way from the elevator to their automobile, passed an aide of the people whose greeting was acknowledged by both plenipotentiaries.

### GREAT SENSATION ACROSS THE POND

London, Aug. 18.—A great sensation has been created by the arrest of Hugh Watt, a financier and formerly a member of parliament for the Camachie division of Glasgow on the charge of attempting to procure a private detective to assist in the murder of his former wife. Detective Marshall testified in a police court today that Watt offered him \$2,000 if he would induce the woman to come to Watt's flat where he proposed to kill her by the administration of chloroform and then to remove the smell of chloroform with peppermint. Watt was remanded for trial on bail of \$2,000. The police found both chloroform and peppermint in Watt's apartments. Watt was in the divorce court some years ago when his wife sued for a divorce, the co-respondent being Lady Violet Beauchamp, daughter of the late Lord and Lady Widdowson. Watt has since married Lady Violet Beauchamp.

Since the granting of the divorce, Watt and his former wife have been in the law courts regarding their marriage settlements and much bitterness has resulted from this litigation. A couple of weeks ago, the parties appeared in a police court, Watt charging his former wife with having assaulted and violently ejected him from her house, where he said he went for the purpose of trying to compromise their business disagreements.

#### TWICE SHOT.

Springville Burglar Gives Officer Exciting Chase Before Capture.

(Special to the "News.")

Springville, Aug. 18.—It took a short thorough search to stop John Hooper, an escaping burglar, at 1:30 o'clock this morning. While chasing him, and firing at him, a confederate of the robber was firing at the officer, but his three shots were without effect. Deputy Marshall "Alone" Johnson made the arrest. He was walking down Main street, where he serves as night watchman, and observed a suspicious character standing, as if on watch, in the road. He ordered him to move on, and then proceeded to watch the store in that vicinity. A couple of minutes later, a burglar was found at work in the Springville drug store, and seeing the officer in front of the window, he started to flee. Johnson jumped a fence to follow him, and as he did so the man came out of a side window and headed for Johnson with a big club. He tried to escape, the oncoming burglar, and commanded him to hold up his hands. He turned and ran, however, and a shot was fired at Johnson from the top of a shed in the rear of the building. The officer went after him, and shouted to him to stop, or he would kill him. As he kept going, Johnson shot him through the left leg.

This brought him to the ground, but in attempting to arrest him Johnson found him still able to move, and he broke free and started to run. A command to halt did not stop him, and Johnson shot him through the other leg, with more serious results. He fell bleeding profusely, and as Johnson approached he cried "How in H— did you get me?"

After examining the wounds the officer decided he was needed, and went to get a doctor but when they arrived the man had gone again. He was traced by a trail of blood to the yard of the P. S. Wood Mercantile company, in which he was found hidden among some empty boxes.

When searched he had in his possession jewelry valued at \$100, and \$20 in nickels and dimes, taken from the drug store. In addition he had a purse containing a valuable ring and a large amount of money.

During the past few weeks a number of robberies have occurred in the town, and the prisoner is thought to be one of a gang that has been operating steadily. His wounds have been treated, and will not prove fatal. Sheriff Johnson of Utah county arrived this morning to question him in regard to confederates.

#### BUSINESS NOTES.

The various board of directors of the Utah Sugar company, the Idaho Sugar company, the Western Idaho company and the Sugar Trusts company held meetings this morning at their offices in the Desert News annex. Only routine business was transacted, the most important being reports on the condition of the crops in the various fields and the estimated tonnage for the coming season. The reports were generally of a satisfactory character, the only considerable damage reported being in Sanpete and Sevier counties, where, however, the acreage planted is light.

Today's local bank clearings were \$731,231.81, as against \$498,123.82 for the same day last year.
