

## LEADERS OF THE DEMOCRATIC PARTY

They Hold a Long Conference in  
The Rooms of Ex-Senator  
David B. Hill.

### CHAIRMANSHIP NOT DISCUSSED.

Parker Said to Favor Allowing the  
National Committee Make Its  
Own Selection.

New York, July 18.—Leaders of the Democratic party conferred for more than two hours tonight in the rooms of former Senator D. B. Hill at the Hoffman house and at the close made public a statement that the chairmanship of the Democratic national committee had not been discussed. Privately the judgment of all present was that the interests of the party would be best served by leaving the committee absolutely free to elect its chairman. Judge Parker was said to favor this course. The conference resulted in an agreement to call a meeting of the national committee to be held at the Hoffman house on July 26. The question of fixing the time and place for the nomination of the candidates for president and vice president was left to the candidates themselves.

### THOSE PRESENT.

Present at the conference were the leaders who brought about the nomination of Judge Parker. There were also present Senator Victor J. Doolittle of New York, who took of the Tammany interests. Every one declared that harmony had been the watchword throughout. The conferees were former Senator D. B. Hill of New York, James Smith, Jr., of New York; Senator Gorman of Maryland; William F. Sheehan of New York; Gov. Meyer, chairman of the New York state committee; John W. Kern of Indiana; James M. Guffey of Pennsylvania; P. H. McCarran of Brooklyn; James M. Head of Tennessee; Norman B. Maclean of Buffalo; Perry Belmont and August Belmont of New York; Thomas F. Ryan of Virginia; J. K. P. Hall of Pennsylvania; and John R. McLean of Ohio. The statement issued concerning the conference follows:

### A STATEMENT.

"J. M. Guffey presided. The gentlemen met primarily for the purpose of discussing the nomination of Judge Parker for president. It was decided to recommend that the committee be called to meet in New York City at the Hoffman house on July 26."

"The question of fixing a date for the nomination of the candidates was discussed and finally referred to the committee to fix the date and place of the nomination."

"There was also a general discussion as to the favorable prospects of the party in the coming campaign. There was no discussion whatever concerning the selection of a chairman of the national committee."

### CONGRATULATE DAVIS.

"The meeting gave a number of those present the first opportunity they have had of congratulating Mr. Davis since his nomination at St. Louis and the reception accorded him was hearty."

### THE DISCUSSION OF THE PROSPECTS IN THE COMING CAMPAIGN WAS GENERAL IN CHARACTER.

"The opinion was expressed by several that western Democracy would give earnest support to the ticket and that no fear of factional opposition need be entertained."

### NO FACTIONS EXIST.

"Speaking of the report that it would be necessary to give the nomination for the governorship to New York City in order to bring the Democrats and Murphy forces together, August Belmont said: 'There is absolutely nothing to it. Victor Dowling was present at the conference representing Tammany and to mention was made of the situation in New York state so far as any differences between alleged factions of the party is concerned. There are no factions in the Democratic party in this state and we expect to work together for success.'"

### SENATOR BAILEY OF TEXAS, WHO HAS BEEN IN THE CITY SEVERAL DAYS, DID NOT ATTEND THE MEETING, ALTHOUGH HE MET WITH SEVERAL INDIVIDUAL MEMBERS OF THE CONFERENCE DURING THE DAY. HE DECLARED THE CHANCES OF PARTY SUCCESS WERE BETTER THAN EVER BEFORE.

### WILL GO TO EUROPE.

"It is expected many prominent Democrats will go to Europe this week in an effort to enlist the aid of Judge Parker to the support of various aspirants for the national chairmanship. That any one will be successful in this is asserted to be very doubtful."

### THE MAINE MAY BE RAISED.

Washington, July 18.—Regarding the proposition that the old battleship Maine be raised in Havana harbor, Acting Secretary of the Navy Darling has addressed a letter to R. H. Sewell at New Orleans, who stated that he had a contract with the Cuban government to raise the wreck. The acting secretary said that while the department does not contemplate taking any action regarding the wreck, it has no power to relinquish any rights the United States may have in it, as only Congress has power to dispose of public property."

### MINERS' FEDERATION.

### Ask Red Cross Society to Take Charge of Distribution of Funds.

Denver, Colo., July 18.—The ways and means committee of the Western Federation of Miners has appealed to the Red Cross society to take charge of the distribution of funds and the general relief work for families of deported miners in the Cripple Creek district. A communication addressed to Mrs. John A. Logan, president of the society, reads in part as follows:

"After having been deported from their homes the husbands and fathers, way of food and clothing to be issued through the hands of the military authorities."

"do not feel justified in trusting the matter of relief to the military, feeling satisfied that owing to the hatred would not faithfully carry out this great trust."

## Tired, Tired

Tired. That one word tells the whole story. No rest. No comfort. No particular disease. Just all tired out. Fortunately, physicians know about Ayer's Sarsaparilla. They prescribe it for exhaustion, anemia, depression, general debility.

No matter what ails you nor what medicine you take, you cannot get well if your bowels are constipated. Correct this at once by taking Ayer's Pills, just one pill each night. These are a great aid to the Sarsaparilla.

25 cents. J. C. AYER CO., Lowell, Mass.

"Now, therefore, knowing it to be the mission of the Red Cross society, of which you are the official head, to take charge of as much as possible of the suffering caused by the cruelties of war, we earnestly appeal to you to arrange to have your noble organization take charge of the distribution of food and clothing to the families of deported citizens of Teller county. We will furnish all necessary supplies, and only ask that your organization take charge of the distribution of same."

### PRICELESS ANCIENT COPE.

### Pope Anxious to Obtain It from J. Pierpont Morgan.

New York, July 19.—It is stated in a special dispatch from Rome, says the London correspondent of the Herald, that the pope has commissioned Cardinal Vannutelli, who is about to visit Ireland, to try to obtain from J. Pierpont Morgan the priceless ancient cope which was stolen in 1902 from the cathedral of Assisi. The cope mysteriously disappeared while repairs were being made to the cathedral, and though the government took measures for its recovery, they were unsuccessful. It now transpires that the cope was sold to Mr. Morgan, who loaned it to the South Kensington museum, where it is at present on view. The cope is a beautifully embroidered piece of work, done in France in the thirteenth century. It was presented to the Assisi cathedral by Nicholas IV. The entire ground is of gold thread, on which are worked 15 exquisite panels of religious subjects. The cope is of English, not of French, workmanship.

### CARPENTERS LOCKED OUT.

### Stops Work on Every Large Building in New York.

New York, July 19.—All carpenters employed here by the Master Carpenters' association have been locked out by order of the board of governors of the Building Trades Employers' association. The lock-out ties up the carpenter work on every large building in the borough, and involves between 5,000 and 6,000 men.

This is the first time since the acceptance several months ago of the arbitration agreement of the Building Trades Employers' association that there has been a general lock-out of any kind. The carpenters locked out belong to the Brotherhood of Carpenters, and the trouble is owing to the violation of the arbitration agreement by carpenters, striking on a contract held by one firm holding membership in the Master Carpenters' association.

The trouble was about the handling of non-union wood. Twelve men struck on the building about six weeks ago. The men were ordered to return to work pending a settlement, and did so, but more men were required as the work progressed, and there was more friction, which ended in another strike. The men were ordered to return to work a second time, but only the 12 men who originally struck returned to work. The board of governors of the Employers' association met again and gave the carpenters a fixed time in which to return. The carpenters went to work three hours after the time set, but the lock-out order was enforced, much to their astonishment.

### CHICAGO THEATERS.

### It Will Be Possible for Nearly All of Them to Open Sept. 1.

Chicago, July 18.—Amendments to the theater ordinance which will make it possible for nearly all theaters to open Sept. 1, have been passed by the city council. Some of the principal amendments for existing theaters are:

Springing Seats—Theaters required to auditorium or above or below stage; retained in paint, storage, property, scenery and dressing rooms.

Cross Aisles—Optional whether there shall be cross aisles or direct exits through galleries.

Rising Galleries—Maximum slope increased from 18 to 22 inches.

Vents—To be opened by pressing electric button instead of by mechanical device.

Seats in Row—Eleven seats allowed in row in balcony and on main floor; 13 permitted if within 20 feet of an exit.

Policemen—No police attendance required; two firemen held sufficient.

Distance between Rows—Minimum decreased from 34 to 32 inches.

Lighting—Theaters are allowed to be gas instead of sperm oil.

Official Admission—City electrician and head of police and fire departments given right to enter building at any time.

### RED SEA PATROL.

### Russians Express General Satisfaction at the Plan.

St. Petersburg, July 18.—General public satisfaction is expressed over the decision of the admiralty to patrol the Red sea for the purpose of intercepting contraband of war destined for Japan. As yet, however, the papers do not discuss the subject.

Copies of supplementary regulations for the government of foreign newspaper correspondents at the front, dated Mukden, July 10, have arrived here. They require correspondents to pledge themselves, when given leave to proceed to certain points, to travel only by the route indicated; in no circumstances to absent themselves from the regimental divisions or corps to which they may be attached; in case of their expulsion to travel by the route indicated to European Russia, and not to attempt to leave Manchuria except through European Russia.

### NICK OR POOR—YOU NEED TEETH

No one, old enough to know better, should be neglectful of that most vital and useful organ of the human system—the teeth—the very guards to the gateway of health.

## SOZODONT TOOTH POWDER

should be found on the toilet table of every one, be he rich or poor. It will not tarnish gold work nor scratch the enamel. A perfect dentifrice—the one for you.

3 FORMS: LIQUID, POWDER, PASTE.

## THE PRESIDENT IS WORKING HARD.

He is Preparing His Speech in  
Response to Notification of  
His Nomination.

### HE WILL MAKE NO SPEECHES.

Delegation of Miners Interested in  
Colorado Labors to be Received—  
Committee of Musicians Calls.

Oyster Bay, L. I., July 18.—P. C. Knox of Pennsylvania, former attorney-general and one of the closest friends and advisers of the president, was a visitor to Sagamore Hill today. Mr. Knox will take an active part in the campaign and will deliver at least two important speeches.

The president is working both day and night on his notification speech and his letter of acceptance. He will deliver no political speeches during the campaign, contenting himself with a statement of his position and the results achieved in his administration in the letter of acceptance.

The president received today a telegram from the anthracite coal miners' convention, held yesterday in Pennsylvania, asking for an appointment for its committee to lay before him the petition regarding the Colorado labor troubles. Secy. Loeb, for the president, has telegraphed the committee that Mr. Roosevelt will be glad to see them tomorrow afternoon.

President Roosevelt received by appointment today a call from a committee representing the International Federation of Musicians, the members of which will visit him with a protest against the admission to the United States from foreign countries of musicians who come here under contract. The committee consisted of J. M. Weber, president of the International Federation of Musicians, and F. M. Smith, president of the Musicians' union, New York City. They reported to the president that by the admission to this country of musicians who come here under contract a serious hardship is worked against the resident professional musicians, and they urged that the contract labor law ought to be so construed by the authorities as to exclude musicians precisely as contract laborers are excluded at the time of their notification. This is the first time the president and Mr. Root have met since the convention, at which the latter, as temporary chairman, sounded the keynote of the presidential convention.

Miss Alice Roosevelt, who has been visiting friends on Long Island, reached here today. This is the first time she has been at home since her arrival here of the family for the summer.

### TWO NEGROES IN JAIL.

### Held on Charge of Murderous Assault on White Boy.

Topoka, Kan., July 18.—Nathan Shad and Blaine Greenway, two Holton negroes, are in the county jail here charged with assault with intent to kill. They were charged with trying to rob Arthur Scott, a white boy 16 years old, in Holton, and fracturing his skull with a rock. The negroes will be held here pending the result of Scott's injuries and will then be taken to Holton for preliminary trial.

The feeling in Holton is very bitter against the negroes, and it was to prevent a possible lynching that the officers brought them here. Scott is in a very serious condition.

### Nurse's Mistake Caused Death.

San Francisco, July 18.—Frank Johnson, a patient at the United States marine hospital, died today from the effects of a dose of bichloride of mercury administered by mistake by a nurse. He was formerly a sailor on the ship Glory of the Revenue cutter and was injured by falling down a hatchway.

### G. W. Beavers Held for Trial.

New York, July 18.—George W. Beavers the indicted ex-postoffice official, was again before a United States commissioner in Brooklyn today and again was held for trial in Washington. Further motions are to be made by Beavers' attorneys next Thursday, and until they are decided he can not be taken to Washington.

### Dr. Roberts, Astronomer, Dead.

Crowborough, England, July 18.—Dr. Isaac Roberts, the well known astronomer and geologist, is dead, aged 75 years. Death occurred in the garden of his private observatory here.

### Woman Jumped Overboard.

Plymouth, England, July 18.—Tragedy again marked the homeward voyage of the North German Lloyd steamer Kaiser Wilhelm II. On the arrival of the vessel here today almost at the hour that an inquest was being held over the body of F. Kent Lewis, it was announced that a second-class passenger, Mrs. Lipschitz, had committed suicide by jumping overboard when the ship was one day out from New York. Hundreds of passengers witnessed the suicide and watched the efforts of a life boat to rescue the woman. No trace of the body was found.

### Cholera Making Ravages.

Baku, Russia, July 18.—Refugees from Teheran tell terrible stories of the ravages of cholera. They say that on some days the mortality reached 300. The Europeans are abandoning their property and are fleeing to a camp in the mountains. There is a pitiable condition of affairs at the railroad stations which almost are without food. The government has ordered the closing of the frontier for the purpose of preventing the introduction of the disease.

### Important Decision on Chinese.

San Francisco, July 19.—Immigration Commissioner North has received a decision by Secy. Victor H. Metcalf of the department of commerce and labor regarding the appeal of Yee Ching Ton, landed on the steamship Doric, May 12, from the refusal of the port authorities to admit him into the country. This decision may be considered to establish a precedent of great significance.

Yee Ching Ton alleged and brought witnesses to swear that he had been born in this country 26 years ago, and as a child was taken to China, where he was reared and married. He

claimed free admission into the United States on the ground that he was a free born citizen. In dismissing the appeal the secretary says, when a child born in the United States waits until he is 26 years of age, establishing himself in his own country and marries before he attempts to claim his birth right, it is not within the reasoning upon which the supreme court reached its decision in the Wong Kim Ark case.

### A Romantic Marriage.

Chicago, July 19.—Having traveled 2,000 miles that they might carry on their courtship without interruption, C. A. Gordon and Miss Katherine Hucock of Tacoma, Wash., have been married in Evanston, Ill. After the ceremony they began the return trip to the Pacific coast to seek the forgiveness of Miss Hucock's father, who had forbidden the marriage.

Gordon is a student in a Chicago medical school. To be near her lover and to educate herself in a way congenial with his tastes, Miss Hucock came to Chicago to study as a trained nurse. The bride is the daughter of J. R. Hucock, a wealthy grain merchant of Tacoma.

### A PARISIAN MANTEAU.

The polo grounds in the Bois de Boulogne is a fine place to study the really charming fashions worn by the smartest of the smart. The lovely mantau

illustrated was quite the most stunning wrap to be seen there a few weeks ago. It is almost a costume in itself and is created from Irish point lace mounted over heliotrope silk.

### WORKINGMEN'S WIVES.

A writer in an English magazine says that it is a sheer impossibility for a workingman's wife to leave home, no matter how sorely she may need the rest and change. When the same person is nurse, cook, laundress, charwoman and needlewoman to an entire household her absence means chaos. By thirty-five many of these women are well on toward old age, broken in health and unattractive, with the graces of life destroyed and losing influence over husband and sons. The rest of the family takes it all as a matter of course, and, while the majority of men are not consciously unkind, the women feel their neglect and suffer much from social loneliness.

### INTERESTING POSSESSIONS.

China collecting is one of Mrs. Brown Potter's hobbies, and she possesses at Bray Lodge, her home near Maidenhead, England, some valuable specimens of old Chinese and Battersea ware. Although she seems to favor English china most, there are priceless bits of Satsuma and other porcelains. The bed in Mrs. Brown Potter's room is the one in which the celebrated beauty Diane de Poitiers used to sleep, while the writing table in the adjoining room once belonged to Marie Antoinette.

### FOR CAMPING OUT.

If the camp of a permanent affair have the floor of at least one tent boarded. Rain is no respecter of campers, and unless you are a small boy you won't enjoy sitting with your feet in puddles.

Get good heavy duck or drilling, fold the tents and do not omit the flies. They not only afford protection against the rain, but by absorbing some of the sun's heat they keep the tent proper cooler. They are especially necessary if the tent is pitched in the open.

Pneumatic mattresses, hair mattresses covered with waterproof duck and coats made of waterproof canvas may sound more prosaic than a bed of fragrant pine boughs, but they will be found more comfortable.

Tent stoves are to be had that come jointed with an eye to their packing. An asbestos stovepipe collar relieves all worry as to the tent catching fire. Do not forget enough lanterns to go round. Candles are of little service in the drafty out of door life of camping.

### A SACRED PICTURE.

The dowager empress of China has, so it is reported, commanded the attendance of a Japanese photographer at the palace to take her portrait. The reason for her majesty's decision to be photographed is that the people may be able to worship the imperial image, as in Japan. Having her photograph taken is a new experience to the empress and is a proof of her progressive ideas, for in days past any attempt to depict her would have been considered an act of sacrilege.

### GEMS AND THEIR SETTING.

It is quite a liberal education nowadays to pay a visit to a noted jeweler, so lovely are the jewels and so delicate their setting. There has lately been a wonderful sapphire on view which seems to bear in its depth all the blue of sky and sea at their deepest. The diamonds which flash around the sapphire accentuate its hue, which is as blue by night as by day. A reversible tie pin is another innovation, set with diamonds one side.

### OUTING EXCURSION

### July 23rd.

Via Oregon Short Line. Greatly reduced rates and liberal limits will be made to principal northern, central and Idaho points. An excellent opportunity for a fishing vacation during the hot days. See agents for full particulars.

ATTORNEYS, NOTARIES and real estate men will find a full supply of legal blanks at the Deseret News Book store.

Mrs. Hughson, of Chicago, whose letter follows, is another woman in high position who owes her health to the use of Lydia E. Pinkham's Vegetable Compound.

"DEAR MRS. PINKHAM:—I suffered for several years with general weakness and bearing-down pains, caused by womb trouble. My appetite was fitful, and I would be awake for hours, and could not sleep, until I seemed more weary in the morning than when I retired. After reading one of your advertisements I decided to try the merits of Lydia E. Pinkham's Vegetable Compound, and I am so glad I did. No one can describe the good it did me. I took three bottles faithfully, and besides building up my general health, it drove all disease and poison out of my body, and made me feel as spry and active as a young girl. Mrs. Pinkham's medicines are certainly all they are claimed to be."

Mrs. M. E. HUGHSON, 347 East Ohio St., Chicago, Ill.

### Mrs. Pinkham Tells How Ordinary Tasks Produce Displacements.

Apparently trifling incidents in woman's daily life frequently produce displacements of the womb. A slip on the stairs, lifting during menstruation, standing at a counter, running a sewing machine, or attending to the most ordinary tasks may result in displacement, and a train of serious evils is started. The first indication of such trouble should be the signal for quick action. Don't let the condition become chronic through neglect or a mistaken idea that you can overcome it by exercise or leaving it alone. More than a million women have regained health by the use of Lydia E. Pinkham's Vegetable Compound.

If the slightest trouble appears which you do not understand write to Mrs. Pinkham, at Lynn, Mass., for her advice, and a few timely words from her will show you the right thing to do. This advice costs you nothing, but it may mean life or happiness or both.

Mrs. Leilah Stowell, 177 Wellington St., Kingston, Ont., writes:

"DEAR MRS. PINKHAM:—You are indeed a godsend to women, and if they all knew what you could do for them, there would be no need of their dragging out miserable lives in agony."

"I suffered for years with bearing-down pains, womb trouble, nervousness, and excruciating headache, but a few bottles of Lydia E. Pinkham's Vegetable Compound made life look new and promising to me. I am light and happy, and I do not know what sickness is, and I now enjoy the best of health."

Lydia E. Pinkham's Vegetable Compound can always be relied upon to restore health to women who thus suffer. It is a sovereign cure for the worst forms of female complaints,—that bearing-down feeling, weak back, falling and displacement of the womb, inflammation of the ovaries, and all troubles of the uterus or womb. It dissolves and expels tumors from the uterus in the early stage of development, and checks any tendency to cancerous humors. It subdues excitability, nervous prostration, and tones up the entire female system. Its record of cures is the greatest in the world, and should be relied upon with confidence.

**\$5000** FORFEIT If we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness.
