**THEATRE.**—We hear the Hamlet of Miss Rose Evans last night spoken of as a very excellent performance.

On this evening's programme we notice the interesting play of Nell Gwynne, or the Court and the Stage, Miss Evans assuming the title role. Miss Coalbrook, Frances Stuart, Mr. Dudley Richmond, Mr. Thorne King, Charles H. and Mr. Bowring Samuel. This is really a fine drama and worthy of a large attendance.

**THE LECTURE LAST NIGHT.**—Mr. McDonald had another large audience last night. The lecture like the preceding ones was able and entertaining. The lecturer has the faculty of keeping his audience in lively good humor, always having on hand a budget of sprightly anecdotes, which he relates with excellent effect.

Mr. McDonald lectures again to-night, on the same topic as last night.

**A HANDY MAN.**—Dr. Newman appears to be a handy man to have at the Capitol, and excellent at certifying to the pendency of candidates for office.

He is also celebrated for his prayers, having composed a prayer for the North Pole.

C. F. Swan.

**CARED FOR.**—Utah is not being neglected this session of Congress, which shows that she is not destitute of friends, of one sort or another.

Senator Sargent, says a dispatch, has introduced a bill to suppress the peculiar institution and enable the people of Utah to form a constitution and State Government. That's right. Let the State Government come along, it is high time it did. As to suppressing the peculiar institution, we suppose the gentlemen in Congress want their little joke about it, and if they want to suppress it, let them. But they may as well try to overthrow Jehovah as to "eradicate truth." Let them to their day, and give us a State Government, and God will take care of the institution.

**MUSICAL VISITOR.**—We have received from Calder Brothers the January number of this elegant journal. Its twenty-four pages contain musical and theatrical news, reviews, criticisms, an admirable portrait of James M. Weill, the "Prince of Pianists," and nine full sized pages of music, embracing the "Fairy Glen," song and chorus by Lutz, "Edelweiss," Polka by Kinkel, "Dramas of Childhood," song and chorus by Lutz. The price is only \$1.00 per year, or 10 cents for a single copy.

**THE CAMP GRANT AFFAIR.**—The trials at Tucson, Arizona, of persons accused of the murder of Apache Indians, at what is known as the Camp Grant massacre, were lately concluded, resulting in the acquittal of the prisoners. After the verdict was rendered, Judge Tilton, formerly C. J. of Utah, addressing the spectators generally, said, "that he had heard it rumored about the city that, when the verdict was rendered, certain parties intended to burn in effigy all who had a hand in the prosecution of this case—including members of the Grand Jury who found the innocent, etc. That so far as he was personally concerned, they might burn him in effigy to their hearts' content, so long as the names did not touch him; but if they dared to burn in effigy anybody else, he would use the whole power of the Court to suppress the breach of order."

**THE TRAINS.**—The Bulletin at the Deseret Telegraph Office showed the following:

**CHENX.** 22, 3:30 p. m.—There is no report from the Pacific train to-night, it is not on this division. The Central Pacific leaves on time. It is expected that a train will leave for the east in the morning.

**LATER.**—Ogden 23, 3 a. m.—The blockade on the Union Pacific is between Lookout and Rock Creek. The trains coming west are at Lookout and Coopers Lake. The train that went east from here on Sunday morning is returning from Rock Creek, having left its passengers there. No train went west this morning. The Central Pacific train was forty minutes late, but arrived in time to transfer to the Utah Central, which leaves on time.

## THE TERRITORIAL LEGISLATURE.

**Monday, Jan. 23.**

**HOUSS.**—A message from the Council was received and read, announcing that they had concurred in the passage of the bill making sheep taxable property; and that they had passed with amendments the bill for an Act pertaining to horses. The amendment in line four was non-concurred in.

T. H. Giles and 239 others, citizens of Wasatch County, petitioned for a general school law; their petition was read and referred.

Petition of Geo. W. Ward and thirty others, praying for the repeal of the Willard City charter, was read and referred.

Petition of Allen Adamson and 131 others, citizens of Spanish Fork City, in Utah county, praying for a free school system, was read and referred.

Adjourned till 1 p. m.

**Low.**—Christian Anderson, now living at Coalville, Summit Co., lost a sack containing clothing, bedding and other articles, when on the way to Utah last fall. The parcel was put on board the cars at Omaha, since which he has not seen it. Any person giving information that will lead to the recovery of the articles will confer a favor on the owner, who is a poor man. Address Peter Brown, Coalville, Sumner County. Christian Anderson's name was on the parcel.

**Shimmer** nights come just now, but the days are still as beautiful as ever.

**A GREAT ARGUMENT.**—One of the most powerful arguments offered by the little clique of anti State gentlemen is this, "If Utah becomes a State, we shall be no account." That's just it, with the addition that such gentlemen never were of much account.

**A PREVAILING QUESTION.**—The question, pro and con, of the admission of Utah into the Union, is being freely discussed in many of the journals of the country. The January number of Crockett's Western World contains an article on the subject. The writer of the article thinks the bill which recently passed the House, which provides that no territory shall be admitted until its population equals that of Connecticut, is intrinsically just, the ground work for this opinion being, as expressed in the same article, that "the inequalities of the Federal system are already sufficiently great, without adding to them by giving these hand-outs of people a vote in the Senate equal to the great States of Ohio and New York."

It is easy to see that the position taken by the World on this part of the question is equitable, and to prove it is only necessary to ask the question whether the inequalities of the Federal system would not be greater to continue to leave out in the cold, without a voice in either the Senate or House, a community of probably 100,000 people, than they would be to admit them to representation at the headquarters of the Government.

We have no hesitation in expressing the unqualified opinion that it is certainly not repugnant to the Constitution to extend representation a community because it is comparatively small numerically.

Another flimsy argument advanced by the World in support of the position it takes on this question is that Utah could not support a State form of government without the most onerous taxation.

In answer to this, it may be said that in Utah there is a self-sustaining community, the past and present condition of the Territorial treasury being evidence of the same, and if the people are willing to take on themselves the responsibilities and pay the taxes of a State, we do not see that anybody else has the business to object to such a thing. It would be a slight reason for such a thing to begin to grumble or be afraid to help to shoulder the burden of a community of loyal and law-abiding citizens.

## Special Notices.

An Article of True Merit.—"Brown's Bronchial Trochies" are the most popular article in this country or Europe for Throat Diseases and Coughs, and this popularity is based upon real merit.

**JOHN LECTURES** upon Human Nature and Physiology, that Prof. McDonald is delivering at the Tabernacle, are a grand success. His audiences are large and highly pleased. **Dr. A. C. Castle** recommends mechanical anesthesia for tooth-drawing, in preference to chloroform, ether, or nitrous oxide. It may be effected either by application of ice on the temples, or by an assistant pressing for one minute with each of his middle fingers into the hollow behind the ridge of the temporal bone.

When various indecent publications displayed in the front of the establishments of new dealers to be suppressed? They are the prolific fountain-head of vice; they give first knowledge of the worst crimes in the world; they have instilled into youthful minds wicked yearnings, and they have helped to fill penitentiaries, jails and bag-nios.—Omaha Herald.

**SEWING MACHINE SALES FOR 1870.**

"The magnitude to which the manufacture of Sewing Machines has attained is shown by the 'WORM' returns (to which any one can have access) of the manufacturers for the year 1870 to the owners of the sewing patents, on whom they pay a royalty. According to these returns the number of machines sold by each manufacturer in 1870 is as follows:

The Singer Sewing Machine Co.	127,833
Wheeler & Wilson	12,000
Howe	7,500
Grover & Baker	5,000
Wood	3,500
Willcox & Gibbs	2,500
American Sewing Machine Co.	1,500
And several other companies who sold a few machines.	

It will be seen by this table that the popularity of the Singer Machine far exceeds that of all others. Their sale being one-half of the total sales of all the other machines.

Our Machines are the Best in the World!

**The New Family Singer Sewing Machine,**

With Attachments for All Kinds of Work.

Is fast winning supreme favor in the household, as shown by the rapidly increasing sales, over all other machines.

This New Family Machine is now capable of a range and variety of work such as was only recently thought impossible to perform by machinery. We claim and can show that it is the cheapest, most beautiful, delicately arranged, nicely adjusted, easily operated, speedy and smoothly running of all the Family Sewing Machines. It is remarkable not only for the range and variety of its sewing, but also for the variety and different kinds of fabrics which it will sew with equal facility and perfection, using silk twist, linen or cotton thread, fine or coarse, making the finished work—straight, slant, or both sides of the fabric sewn the only stitch which is universally approved, or is at all adapted to first-class work. Thus, heavier cloth or leather may be sewn with great strength and uniformity of stitch, and in a moment this willing and obedient instrument may be adjusted for the work on gauze or consumer tissue, or the making of curtains, or flannel, or almost any other work—even by a child—without delicate fingers have been known to perform. Even the careless and thoughtless have little or no trouble on this machine.
