The most stylish collar you can wear is the Warwick. Ask for it at the gent's furnishing stores.

Lost.—A red Bull, star in face, three years old, ring in nose. The finder will be rewarded on returning it to Geo. C. LAMBERT, d144 Salt Lake City.

Mr. P. SHAWKIS has just returned from New York with a large stock of Staple and Fancy Dry Goods, which he has purchased at panic prices and offers to the public at the lowest figures, decidedly cheaper than any house in town.

We call the attention of our readers to the card of Miss Mary H. Barker, Surgeon and Physician, of this city. From her youth she was educated by her father, an eminent surgeon and physician of Wisconsin, who was an assistant surgeon U. S. A. then after three years' study she graduated at the Medical College of Pennsylvania, at the head of her class, and during two years in Salt Lake has acquired a large practice. As a Surgeon and Physician she has been eminently successful, and now ranks with the leading members of her profession, while in constant devotion to her patients she has no superior.

That large firm, the Sierra Nevada Lumber Association, announces an extensive and varied stock of doors, windows, blinds, lath, shingles, mouldings, wood panels and water pipes, besides any amount of lumber of the best kinds. The S. N. L. A. does a great amount of business, and has the reputation of being straightforward and honorable in its deal.

NEW GOODS.—Now is your time to call at Shwartz' New York Dry Goods Store, opposite the Post Office, to secure bargains in Dress Goods. Shaws from \$1.50 and upwards, and everything in the Dry Goods line just received direct from New York. d143

To the ladies of Salt Lake City: We have just received by express our second shipment of Boys' Children's and Infant's straw hats. They are the very latest styles from the New York manufacturers. Geo. D. SPORN, Practical hatter and boot fitter.

KOYLE OYLE 50c. per gallon at Reid & Kinsey's.

CHAMBER'S ENCYCLOPEDIA.—Messrs. J. B. Lippincott & Co., of Philadelphia, announce that, by a recent purchase, they have become the sole proprietors of the American Revised Edition of "Chamber's Encyclopedia," and are thereby enabled to offer the work at much lower rates than hitherto. In the course of its recent thorough revision, the American edition was edited with the special view of supplying the wants of American readers. It also possesses a special attraction in containing a series of over seventy-five full-page engravings not contained in any other edition. d50

GREAT inducements offered to wholesale purchasers in Lamps, Coal Oil, etc., at Reid & Kinsey's.

IT IS A FACT that many grocers sell Dr. Price's Baking Powders at the same price that do the cheaper kinds, and as they have to pay more for it, make less money, hence they never sell it unless the purchaser demands it. They place it out of sight, and urge their customers to take the common kinds because they are more profitable. Let consumers become acquainted with the fact that it is only necessary to mix one part flour to two parts Dr. Price's Cream Baking Powder to make a powder as perfect in its results as other kinds, and there are few who would pay the same price for the adulterated articles as for Dr. Price's, not when four cents less than six cents a pound. Dr. Price's powder is not sold in bulk.

Buy your Coal Oil of Reid & Kinsey, opposite Walker House, reduced to 50c. per gallon.

IMPORTANT TO THE TRAVELING PUBLIC.

It is the duty of all persons before starting on a journey to ascertain by what route they can reach their destination with the least trouble, and if there are two or more roads leading to the same point, to decide which is the safest and pleasantest to travel.

We take pleasure in stating that the CHICAGO & NORTH-WESTERN RAILWAY is the oldest, and several miles shorter, than the Great Northern and Chicago & North-Western. Within the past two years the road has been put in an admirable condition, and almost the entire line has been re-laid with steel rails. The Depot in Chicago is centrally located, and as their trains arrive there thirty minutes in advance of all other lines, passengers can always be sure of making Eastern connections.

Close connections are made at Chicago with the Lake Shore & Michigan Southern, Michigan Central, Baltimore & Ohio, Erie, Fort Wayne & Chicago, Kansas City Line and Pan Handle Routes, for all points EAST and SOUTH-EAST.

If you are going to Chicago, or East, you should, by all means, purchase your tickets by the Old Pioneer Route.

The Chicago and North-Western. You will find on all through trains Pullman Sleepers, new and magnificent Day Coaches, and the best smoking and Second Class Cars now on any road in the United States.

Particular information with maps, time tables, etc., may be had at any of the Through Ticket Offices in the West, or upon personal or written application to J. W. Irons, Ticket Agent, Salt Lake City, A. H. Earl, Ticket Agent at Ogden, or to J. H. Mountain, Western Traveling Agent, Omaha, Neb., or to W. H. Bennett, General Passenger Agent, Chicago, Ill.

45 x 30 feet. What we now have sold on \$500 below what it cost for the purpose of having a good school. This writing will prove that my education is poor and if God helps me my four sons shall have a little more.

We are glad to hear that our correspondent is so charitable and is willing to do so much for the cause of education. We do not know what "authority" is opposed to education, nor "the reason for being opposed to education." But we may suggest that \$3.65 could hardly be better spent upon "Som poor widows Childs Skooling" than in paying for said child a year's subscription to the DESERT NEWS WEEKLY, which within that time would supply said child with eight hundred and thirty-two columns of interesting, useful, and choice reading, including the current news of the day.

Seriously Indisposed.—The many friends of Brother James Needham will be sorry to learn of his indisposition, he having had a severe attack of pleurisy. We are pleased, however, to be able to state that his symptoms appear to be more favorable, and he hopes soon to be convalescent.

Theatre.—The play of "The Ticket-of-Leave Man" was presented with much ability at the Theatre on Saturday evening, but the very inclement state of the weather prevented so large an attendance as would otherwise have been there.

Attempted Horse Stealing.—About two o'clock this morning a couple of horse thieves were detected in an attempt to steal the animals from the stable of the Street Railroad Company, 9th Ward. The thieves succeeded in opening the stable doors without awaking the guard. When discovered by a couple of residents of the Ward, they fled, and escaped in the darkness.

Benefit of Professor C. J. Thomas.—Professor C. J. Thomas, conductor of the Theatrical orchestra, well known for many years past to the musical world of Salt Lake, will have a benefit at the Theatre next Saturday night, on which occasion a splendid bill, dramatic and musical, will be presented; the very best talent of the city will appear on the occasion, and an entertainment of unusual excellence may be anticipated. The friends of the professor will have an opportunity of showing their appreciation of his abilities as a musician, and for his sake it is to be hoped they will do so by attending en masse and giving him a benefit worthy of the name.

Young vs. Young.—In the Third District Court this morning, Judge D. P. Lowe, C. J., delivered an opinion on the matter of the application on the part of the plaintiff in the suit of Young vs. Young, for a writ of attachment to compel the defendant to comply with so much of an order of court as commands him to pay to plaintiff attorneys' fees and alimony pendente lite, \$3,000 attorneys' fees and \$500 alimony having been already paid, but \$9,500 being due and unpaid.

The defendant had previously appeared in court by his attorneys to show cause why an attachment should not be issued, and the matter was submitted and taken under advisement by the court. The ruling is very elaborate, showing the deep attention the Judge has given to the subject, the reasoning being so clear, in every particular, as to appear simply unanswerable, and is considered by members of the bar generally, to be the most learned opinion ever delivered from the bench in this Territory.

It is forth that the point raised by the defendant of the want of jurisdiction of the Court in the case could only be properly determined in the Supreme Court. Regarding the other point, that the defendant had perfected an appeal from the order, to the Supreme Court of the Territory, the ruling was that the Court would be very glad indeed if it could rightfully say that an appeal could be taken, but the law was plain that it could not; the statute only providing for appeals from orders of a final character, while the one in question was not final, but merely interlocutory.

In all cases of divorce the law was plain and the authorities overwhelming that alimony could not be awarded unless a valid marriage was either first admitted by the parties or proved. The defendant had alleged in his answer that the marriage in question was a bigamous and polygamous one, and the allegations, not being denied, must be taken as true.

The order, so long as it remained in Court, was subject to its repeal, and the decision of the Court was that the writ of attachment be denied and the order be set aside.

Excursionists.—A party of one hundred and fifty excursionists from California, mostly San Francisco, arrived in this city last evening, and have been visiting the various points of interest to-day.

Mr. N. C. Carter, of San Gabriel, Cal., is the projector and director of the excursion.

The party kept together in their perambulations to-day, and created some curiosity, on account of its being some what novel for so many strangers to travel around in order of procession hereabout, other parties of the kind generally going about in fragments.

The party left San Francisco on the afternoon of the 5th, and will leave this city to-morrow morning, when they will proceed to Boston, New York, Chicago, St. Louis, or Omaha, according to the individual inclination of those composing the party.

Perhaps it would be interesting to some to learn the excursionists from San Francisco to the points in the Eastern States above named, or from those points to San Francisco. Here they are:

To or from Boston and New York, 700; Chicago and St. Louis, 500; Omaha, 500.

John H. an overcoat to have sent Lakens out of the coat in these excursionists? If ticked at the above rate could be arranged for here and the places named, probably numbers would take advantage of a visit to the East or West at cheap rates.

More Burglary.—We are informed that burglars attempted to enter the house of Brother Knaggs, 8th Ward, by a window, last night, but they were disturbed in their operations and left, also that they succeeded in gaining an entrance to the house of Brother Sheldermine, adjoining, and got off with cents, which they took from the pockets of the clothing of one of the boys.

More Attempted Housebreaking.—Last night burglars attempted to enter the house of Mr. Park, of Jolin & Park, in the 7th Ward. Mrs. Park heard a sound as of some one endeavoring to open a window, and awoke her husband, who exclaimed, "What's the matter?" and was probably heard by the thieves, as the sound then ceased.

Mr. Park's hired man also heard the noise at the window, and lay watching for the intruders with a loaded pistol for a couple of hours, so that had they entered the house their reception would probably have been a warm one.

The not prize were seen on the soil outside the window this morning.

Cause of the Accident on the O. P. R.—There was a rumor on the street to-day that the accident on the Central Pacific Railroad yesterday was due indirectly to the crowded state of the road in sending forward freight that was delayed by the recent blockade; and directly to the fact that the train starter had been at work almost continuously for several days, and uninterruptedly for seventeen hours, and that under the influence of intense fatigue a mistake in starting the train was made, and that led to the collision. It is also said that Mr. Fell, the starter in question, has been in the service of the company ten years, and never made a mistake before, and it is tolerably safe to presume that he would not have done so now had he not been completely wearied and worn out by long protracted exertion.

Another Horse Thief.—To-day Brother Adam Sharp arrived in town from Rush Valley, bringing with him a man giving the name of C. C. Patterson, a horse thief.

Patterson himself states that he left town not long since on horseback on his way westward. At Rush Valley his horse died, so he took a valuable stallion, belonging to Mr. Sharp, with which he rode fifty miles out upon the desert, where he rested, thinking he had traveled too fast to be in danger from pursuit, soon, however, he heard the rattling of hoofs and there they were, several young men, after him. He mounted and fled, his pursuers calling for him to stop and he not desisting, they fired at but did not hit him. Finally he distanced them all but one, a young man named Rockwell, to whom he surrendered, and he is here to answer to the charge of horse-stealing. The examination will be conducted before U. S. Commissioner Kimball.

Serious Accident.—A serious accident occurred about three blocks east of this office, on South Temple, to-day. William Carleton, well-digger, of the First Ward, and another man were engaged in making a large excavation on the street, in front of the house now being built by Mr. John Lloyd, to drain the water in that part, when the earth caved on them. The accident was first observed by Brother R. F. Nielsen and some others in the vicinity, who rushed to the rescue.

One of the men was soon dug out, only being covered to the waist, but poor Brother Carleton was under at least two feet of dirt, and was fully twenty minutes before his head was reached and he could breathe. His groanings were fearful, his sufferings being intense. By dint of great exertion he was finally dug out, and we are pleased to learn that his injuries, though serious, are not necessarily fatal. Drs. Anderson and F. D. Benedict were on the spot to render what aid might be necessary, and Brother Carleton was conveyed to his home in the carriage of Mr. James T. Little.

The excitement around the scene of the accident was considerable for a time.
