Purchaser Represents Largest Wheat And Flour Business in the Orient — What Caught Him

(Special to the "News.")

Ogden, Sept. 17.—One of the most interesting men in the big horticultural hall at the Ogden fair grounds is Col. Henry E. Dosch, commissioner for Oregon, and a man who has represented that state at various expositions in different countries for the past 10 years. The colonel is one of the old timers and is a veritable fund of information. Immediately after the war in company with Hon. Fred Kiesel he drove an ox team across the plains. Mr. Kiesel elected to stay in Utah upon arrival here while Col. Dosch went on to Oregon. Needless to say that his early life was full of variety. He has never forgotten Mr. Kiesel and the result is that the two are having a great time telling their experiences.

They day before yesterday arrived from Japan where he had been in charge of the American exhibit at the Fifth National Industrial exhibition. What is the interesting feature of his visit to Utah is the fact that he has brought with him to this state Mr. Charles Eadsdale who accompanied him from Japan for the purpose of looking into the wheat situation with the object in view of placing an order for 20,000 sacks of wheat to be shipped to Japan every week.

HOW UTAH GOT IT.

"People say that these exhibitions do not pay from an advertising standpoint," said Col. Dosch to the "News" today. "I want to say right here that they do and here is an example right now. Mr. Eadsdale, who represents the largest wheat and flour concern in Japan, was interested in the exhibit of Oregon over there and the result is that he came along with me. He is in Salt Lake today looking over the situation and will take all the wheat the dealers can give him. He wants 20,000 sacks a week which will be shipped from Portland. The Japanese business is the best in the world. It does no credit business and consequently everything is cash on the nail. A great deal of hubub was aroused over Canadian wheat over there. The Japs like hard wheat because it makes bigger loaves, which is good for them. They do not care for anything else, the color, Utah and Idaho grain just as good as wheat any day as does bread, and it is a great deal nearer the market. I think that Mr. Eadsdale will do some big business before we return to the coast."

SALTAIR'S SHOWING.

Its August Business Broke All Records For the Same Month.

With the Electrical Workers ball at Saltair last night the cheap excursions to the lake are a thing of the past as far as this season is concerned. In reviewing the season this morning General Manager J. E. Langford expressed himself as being well satisfied with the business transacted. Despite the fact that for the first half of the season the fare out to the lake was 50 cents, the number of people carried by the railroad will be about equal to that carried last year during the five summer months. During August there was an increase of 14,000 over and above the total of passengers for the same month in 1902. In all 172,200 passengers have been carried this year as follows: May, 8,500; June, 31,200; July, 51,300; August, 74,700.

The Apollo quartet will give a concert Tuesday evening in the Grand theater, preparatory to the departure of members of the organization on business engagements.

Daniel C. Sullivan was buried yesterday afternoon from the Catholic cathedral, with interment in the Catholic cemetery. A number of friends from Park City attended. Sullivan died from miners' consumption.
