Hot Weather Breakfasts Served Free

If you still go without Mapl-Flake, let us furnish one package free. This is the ideal breakfast. Don't wait till summer is over before you know this fact.

These are not good days for fad foods. Hot | weather is the time for whole wheat.

Wheat is the food of the ages. The time will never come when other cereals can take the place of wheat.

It is doubly important now, because it produces the minimum heat. And it gives the maximum nourishment.

Heat-producing foods, in summer, should be sparingly employed. At least one meal a day should be Mapl-Flake and fruit. Comfort and health demand it.

But wheat uncooked would be indigestible. And wheat half-cooked would only half digest.

The particles must be separated by a fierce heat so the digestive juices can get to them.

Else part of the wheat goes to waste. Worse than that, it ferments and causes digestive disorders.

Even mere economy requires that the wheat be prepared in the proper way.

So we spend 96 hours to make Mapl-Flake. It could be prepared, as some flakes are, in 18 or 20 hours,

We steam-cook the wheat for six hours. Then we cure it for days-a partial digestive process.

Then we flake each separate herry so thin that the full heat of our ovens can attack every particle.

Then those thin flakes are toasted 30 minutes in a heat of 400 degrees.

And the wheat is cooked in pure maple syrup, to give it that enticing flavor. We want children to like best the food that is best for them. So do you.

So we make this perfect food more delicious than any inferior food. Those who eat it once never will go without it.

Mapl-Flake itself can tell you more than words can tell about it. So we ask you to try it, at our expense, rather than have you delay,

Don't let other children have better food than yours. Learn what Mapl-Flake means to them.

Just send us this coupon-now, before you forget it. We will then send you an order, good at your grocer's, for a full-size package free. See if it's as good as we say.

home to the cemetery, three miles, to-day, upon the shoulders of 30 miners, who took this dramatic method of pro-test against the lawlessness reigning in Batte. The Henry murder occurred during a saloon holdup. While his hands were up, Henry was shot through the heart, at close range. He had known Paddy Rodgers for years, and it is thought by the police that Rodgers saw that Henry recognized him and killed him to escape pursuit. The men engaged in the rob-bery were masked, but several wit-nesses declare the nurderer is Rodgers. Rodgers has been a boasted despera-do for many years. He was tried and acquited a few years ago for the brut-al murder of an old man in a saloon brawl. Before that murder, when a mere boy, when wanted on a robbery charge, he fied into the hills, rifle h hand, and defied the police for weeks, He was captured later near Lewistown, Mont., brought home and finally dis-missed. He has figured in several shooting scrapes with the police ano while in jail recently warned half a dozen newspaper men that he would "get" them. Nevertheless, he waked forth free, as every effort of the au-thorities failed, nobody caring to come forward and testify. Lynching is now openly talked of, and if Rodgers load the bad man.

MARY ROBB'S DEATH.

Body Exhumed and An Investigation Instituted.

Instituted. Blackfoot, Ida., July 21.—A prelim-imary examination is being held here to determine who or what was the cause of the death of Miss Mary Robb, who died here June 13 after having been operated upon, supposedly for appendicits. Miss Robb was a teacher at Rigby, and her home was at St Anthony. On June 26 the body was exhumed and the appendix was found intact, but there was evidence of a criminal op-eration having been performed. Bing-ham and Fremont counties and her family joined forces to run down the criminals, and some of the best legal talent is employed on both sides.
