

WILL CONTINUE EAST TONIGHT.

Former Queen Liliuokalani of Hawaii to Resume Her Journey After an Enjoyable Sojourn in Salt Lake.

After a visit of three days, which has been enjoyable to herself and most pleasing to the people of Salt Lake, Queen Liliuokalani will depart tonight for the East, with her three foster children. Her sojourn here, while brief, was characterized by the efforts that were made to show her the respect and sympathy due her rank and circumstances, and a silent but heartfelt gratitude that she expressed for those manifestations of kindly feelings.

One of her main objects in going East is to attend the Thanksgiving dinner in New York with a number of her friends. She will also place one of her sons in a school in New York and will spend the greater portion of the winter equally interesting to her and her party together with a number of citizens, including R. B. Taylor, General Passenger Agent, McMillan, Abraham Fernandez, and Bishop Solomon, visited Salt Lake, which she pronounced to be a magnificent resort and expressed regret over the receding of the lake. She had a number of pictures taken of the lake and the pavilion.

AT THE BEE HIVE.

There is no doubt that the chief function that the queen attended here was the reception at the Bee Hive House on Saturday night. It was equally interesting to her and her guests who were there assembled. Many of her former subjects met her for the first time since her crown was taken. She met them all, however, with a gentle dignity, and while she never testified of her keen appreciation of all the kindly sentiments that were spoken to her. The Hawaiian flag was draped on the east wall of the southeast parlor and with the many natives present one could easily have imagined himself at a function of state in Honolulu. There were other attractive decorations, and with the diversity of the 250 guests, the unique program and the train of thoughts awakened by the pathos in her majesty's silent presence, all served to make the occasion peculiarly interesting. The bulk of the honors of the evening were decidedly borne off by the natives themselves. The only thing left for their American brothers and sisters to do was to sit to one side and listen and admire. And there it could be plainly seen that the queen was proud of her people and the people were proud of their queen.

ARRIVAL OF GUESTS.

The guests began to arrive about 7:30 o'clock, and it was shortly after that hour when the queen arrived from the Kenyon in her carriage, accompanied by Mr. and Mrs. Abraham Fernandez. When the reception began Mr. Fernandez, assisted by Benjamin Goddard, presented the guests to her majesty, who received each with a gentle smile and a gentle bow of the head. There was something very touching in it all, and yet something very noble. This delicate and sovereign extending a cordial hand to citizens of the nation that had deprived her of her crown, on her way to the very seat of that nation again, was a season of rest and happiness as far as is possible. It is a rare privilege with a queen to be so warmly and so pathetically received by the eyes of many who witnessed it.

AFTERNOON MINING CALL.

Low Prices is the Order of the Day in All the Trades Made.

Carissa was the business getter at this afternoon's session of the Mining Stock Exchange, 13,000 shares going under the hammer at prices that gradually dwindled from 90 cents to 35 cents each. The stock was sold in a mild but had companions in nearly the entire list, the whole market sinking under the terrible hammering of some of the brokers. Most metal stocks are in a very pitiable condition, whatever the condition or whoever the persons may be who could be called responsible for the situation. The first sale of May Day was at \$1.00 even, but despite the efforts of friends who desired to see the value of the security held up it was pounded down to a low level. The price of the stock was brought prices between these two points in a total sale of 8,100 shares.

Tenora was one of the stocks that sold in the business. It was sold at 1.00 and 1.01. The price of the stock was brought prices between these two points in a total sale of 8,100 shares.

LIQUOR CASES HAVE FLICKERED

Probabilities Are That Nothing More Will Be Heard of Them.

DRUEHL CHARGE DISMISSED

Judge Diehl Does Not Feel to Criticize Action of Police in Famous Drug Store Case.

The drug store liquor cases, or one of them at least, has been disposed of and the probabilities are that the others will never be called for trial. The case of F. A. Druehl was dismissed this afternoon by Judge Diehl and the defendant discharged.

In passing upon the evidence in the case Judge Diehl said that he had carefully gone over the evidence and the law which had been submitted by counsel for the defense and the city and that some was in point while some was not.

"I believe," said the court, "that the chief of police and Officer Brown acted in good faith, and I do not feel to criticize them in their actions. They did what they thought to be their duty and they were a little over zealous. As to the defendant's I will say that they would probably be different to the one at bar. Judge Diehl said that if the evidence was the same the cases would be thrown out of court."

LOLA IDA BONIE'S CASE.

Prosecution Continues to Produce Damaging Testimony.

Washington, Nov. 25.—The trial of Mrs. Lola Ida Bonie for the murder of James Seymour Ayres, Jr., last May, was resumed today. Frank Drew, of the Capital Hill policeman who was on the stand last Friday when the court adjourned, resumed his testimony. He swore that he had seen Mrs. Bonie when she came out of Ayres' room. The last occasion was about a week before the tragedy. It was at night about 9 o'clock. On cross-examination he testified that he had seen Mrs. Bonie come out of the rooms of Ayres' hotel, among them those of several single men, and her companion was in no way different from that when he saw her emerge from Ayres' room. She displayed no evidences of excitement. Her bearing was natural. She had a habit of visiting the street.

Drew testified that there were empty cartridge shells in the slot jar upon his first visit to the room, which was before Officer Brady broke the pistol and took the shells out.

Thomas M. Baker, an employee of the dish commission who resided in the building adjoining the Kennore test house, testified that he was awakened by the report of a pistol shot. He went to the window and saw a small woman descend the stairs outside of the Kennore test house. He saw her enter the Kennore test house and saw her go to the door of the room where she disappeared into a window. The woman wore no hat and as he did not know the defendant at the time of the tragedy, but saw her about 10 o'clock on the night of the tragedy, he was questioned by Detective Horne. She was smiling and he heard her say she knew nothing about the case of Ayres' death.
