country has scored again. Mr. Whittaker, the product of an Iowa farm, has, by patient, persistent endeavor won for himself a post of honor and momentary recompense. He is another disciple of Isaac Pitman, that statesman who "discovered" such men as Congressman R. R. Hitt and George Bruce Cortelyou. Mr. Pitman had the faculty of "discovering" pliable timber young men, who, with training and their own ability, have been successful in politics, business, or the professions.

Mr. Whittaker was born under the British flag, his place of nativity being Manchester. Left an orphan at the age of 10, he ran away from his relatives at Manchester to Liverpool, where he expected to become a full fledged seaman.
