statutes against vice and crime and the social evils were vigorously en-forced. Elder Islaub thought it would be well, as we had adopted the Australlan ballot at our elections, to fol-low their example in the observance of of the sabbath day and in the regulat-ing and controlling of the liquor traffic,

- all the cities and towns of Australia liquor houses and saloons were closed at 11 o'clock at night. The sale of Intoxicants, gambling, horse racing, all games and sporting exercises, were entirely prohibited on a Sunday. The people were in full sympathy with the aw makers, which resulted in good order and peace growing out of good ad-ministrative government. The law also provides for the closing of all business houses and stores, except those selling refreshments, at 6 o'clock each day, and on Saturdays at 11 o'clock, giving

all clerks and employes a half day holiday, every week. In reference to the black natives, Ela . Island said they were fast becoming extinct. They were a race so in-ferior in intellect that they could not appreciate or apply themselves to im-provements,- or intellectual advance

In closing his very interesting ment. discourse the speaker bore an earnes eloquent testimony to the truth of the Gospal restored through the Prophet Joseph Smith. He regretted that ill health compelled him to return home before he had completed his mission. The singing of the Fifth ward choir under the leadership of Elder W. J. Barnes was quite a feature of this ser-vices. Mrs. Mary Farley sang a sweet devotional solo, and the closing anthem, led by Miss Fowler, was beautifully rendered

BRIEFS AND PERSONALS.

Prof. Kerr and Dr. Karl Moench, of the Agricultural college, Logan, are spending a few days in Ogden in the interest of the college. They expect to go from Ogden the latter part of the week to make a tour of the southern part of the state. Heber and Albert Mortensen, who

for several years past have been residing in Colorado, have come back to Ogden to make their home. The funeral services over the remains

of Peter D. Raat, the ten year old son of Mr. and Mrs. Dirk Raat, were held at the Fourth Ward meeting house yesterday afternoon. The Hollanders of the state have

completed arrangements for a grand outing at the Lagoon August 20th. Ralph A. Beghtol, of Holdrege, Neb. has arrived in Ogden, to accept a position in his brother's jewelry store. Born to the wife of Charles Cunningham, a fine daughter, Sunday. Mother and child doing well.

George Mills has gone to the coast on a pleasure trip. He expects to be ababout two weeks. William Blood and wife of Salt Lake are visiting with friends in Ogden for

a few days Miss Ethel Oakley has returned from pleasant visit with friends in Salt Lake Clty.

Maria Y. Dougall and her Mrs. daughters. Catherine and Claire, of Salt Lake, are visiting with friends in

Mrs. George M. Hanson has gone to Provo to spend a short time visiting with Mrs. S. A. King. Miss Josle Chambers, one of Sait

Lake's popular school teachers, is spending a month in Ogden with rela-

At 8 p. m. Eider Joseph M. Tanner gave a lecture on Church education. The conference was an interesting one throughout and brought out the largest gathering of Saints from all parts of the valley since the dedication of the Stake house in May, 1889. The building could not contain the vast throng.

A WEEK OF SHOWERS.

We have had about a whole week of splendid showers, over three-fourths of an inch of rain falling, improving the condition of the second secon ondition of pastures and range.

The Provo choir came up on Saturday evening and gave a grand concert in the Heber Stake house, under the leadership of Professors Boshard and Lewis. The musical was very much ap-preciated by the people.

GROVER.

Grain Crop Above the Average-Bounteous Rains.

Special Correspondence.

Grover, Wayne Co., Aug. 9 .- It has Grover, Wayne Co., Aug. 9.—It has rained almost every day and some hights since the last new moon, it was much needed in this part of the country and already the feed in the foot hills and mountains is getting very good and it looks like there would be plenty for both sheep and cattle, as there has been a shortage in the past. John Allen has just gone to the Henry Mountains, where he is running cattle for the Brinkerhoff Bros.; he also has a nice bunch of his own, which he will dispose of the coming fall if the

market is good. Joseph Cook from Fruita was here yesterday with peaches, but did not supply the demand, as there is no fruit to come to Provo yesterday and visit raised here.

The Mansfield sawmill will resume relatives and came over on the R. G. W. without the formality of buying a work in a short time. Grandma Adams is here spending the rest of the summer with her daughter, ticket. With the aid of the police he found members of the Carter family

Ellen Stewart. A grand welcome party was given at Teasdale, eight miles from here, on the 7th inst, in honor of Elder Andrew

Adams, who recently returned from a D. N. Hickman has a fine new binder, which will be in steady use during the rest of the harvesting season, both here and at Teasdale.

The grain crops are more than aver-age, while the hay crop is very limited this year. A little bug destroyed a great deal of the first crop of lucern, but the second crop will be much bet-

RIGBY, IDAHO.

Severe Thunder Storms - Horse Killed-Cordon Family Reunion.

Rigby, Fremont County, Idaho, Aug. 10.-Some pretty severe thunderstorms have recently crossed this valley. A few days ago a fine horse belonging to Mr. Eph. Matthias was struck and killed by lightning. A washout in the mountains rendered the water of Snake river very turbid and thick for two or three days. A heavy rain visited us on the night of the 7th inst.

The county commissioners concluded Sheriff H. H. Cordon and family, of their investigation into the charges against Game Warden Crookston today. Boxelder county, have been visiting here recently. On the evening of the State Warden Sharp was communicat-9th, the four chilren of the late Alfred and Emily Cordon, with their consorts ed with, and after explanations were made, Sharp stated he had no objecand children, met at the home Mr tions to Crookston's remaining in of-Jas. T. Chandler and had a very plea-sant social reunion. The number of Mr the family present was thirty-four. Crookston tendered his resignation, Supper, ice cream, and other refresh-ments, games and social chat caused

physician, a woman had been growing thin and weak for three years, with all signs of dyspepsia, and had had sixteen successive attacks of erysipelas. It was at last decided that hair dye must be the cause. Examination showed that this dye contained resorcin, and on stopping its use health has gradually returned.

A remarkable influence of iron sulphate upon plant growth has been re-ported by a French experimenter, M. E. Henriot. A partial failure of a crop of kidney beans in 1899 was found to be due to ravages of worms, snails, etc., and last year the seeds were soaked in a one per cent solution of iron sulphate as a protective measure, the treated seeds being planted in the first and being planted in the first and third of a plot of six rows. The plants in the treated rows showed striking increase in size and productiveness, while those in the second row were much bet. ter than in the rows entirely unprotected. On repeating the experiment, it was found that the treated seeds gave plants nearly twice as tall as s ppds soaked in water and more than four times as large as seeds planted dry, and the crop was always larger. Treated peas showed an increase of ten per cost in yield. Similar results have been had with turnips, cabbages, carrots, and other plants, the seeds being soaked for a quarter of an hour in the solution, and only in the case of salsify was the effect undavorable. A marked increase in the size and number of knots on the roots suggests that plants from the treated seeds assimilate nitrogen from the air much more readily than others.

Hitherto the largest concave vessel that could be blown from glass has had a capacity of about 25 gallons, but Paul Sievert, of Dresden, claims to be able to make bath-tubs and large kettles of glass by his new method. The liquid glass is poured upon a cast-iron plate, to which the quickly-cooling outer edge is made to adhere, while most of the mass sinks as an elongated sack to a table beneath. Compressed air is conveyed through a cylinder into this sack. the table on which the bottom rests be ing gradually lowered, and when the desired size is reached the upper edge is released by removal of a retaining strip from the iron plate.

Children with measles are wrapped in red cloth by French peasant women. Noticing this, Chatinier pasted red paper on the windows where patients hav. ing measles lived, and the results, in all without medicine, have been favorable. He finds that other colors, es pecially strong shades of violet, excite the skin, while subdued red light rests 1t.
