OGDEN, UTAH, - NOV. 7, 1902. INJURED IN A RUNAWAY. Albert Mortensen Thrown Under Horse's Feet

And Severely Kicked.

Funeral of George Mole-Greeswell-Garr Nuptials-October Baggage Business.

Albert Mortensen, deliveryman for the George L. Stone meat market, met with a very serious accident in a runaway yesterday, near the corner of Lincoln avenue and Twenty-second street when one of the front wheels came off, and the wagon tipped forward horse's heels. The animal bacame throwing him to the ground under the frightened and began kicking, Mr. Mortensen having only one arm with which to help himself, was unable to get away from the horse's feet and re-ceived several kicks in the body, knocking him unconscious. The horse then dashed down the street, entirely demol-ishing the vehicle. Mr. Mortensen was picked up and carried to a house near and Dr. Rich was summoned, who found the young man's injuries to be very serious. He was sent home, but will be unable to resume his work for some time

FUNERAL OF GEORGE MOLE.

All that was mortal of the late Geo. Mole, one of Ogden's prominent businessmen, was laid to rest in the family burial ground yesterday afternoor The in the Mountain View cemetery. funeral services were held at the family residence on Lincoln avenue, Rev. Goshen of the Congregational church officiating. A quartet furnished the music. Rev. Goshen preached a very impressive and consoling sermon, eulogizing the life of the deceased.

Many beautiful fioral offerings were laid on the bier and a large funeral cortege followed the remains to the cemetery. The order of Eagles accom-panied by Foster's military band, atended the funeral in a body.

A PROBLEM SOLVED. Another Gordian Knot Cut.

A Discovery Invaluable to the

Seience of Medicine. An Invention That Will Be of Benefit to Thousands of People.

There is no doubt about the value of Vinol, this new form of cod liver oil, concerning which so much has been said lately. It is just another one of those great inventions that is bound to revolutionize a certain branch of science. This time the science is that of saving lives. Hence the greater good that will be derived from this discov-

ery, Mr. Druchl of the Smith Drug Co of this city, who so fortunately succeeded in associating himself with ninent Boston nade his name one that will never be forgotien in our city. His foresight and shrewdness enable him to take advantage of what has proved to be a most wonderful blessing to all who are in need of medicine for the cure of throat, lung and bronchial troubles, as well as wasting diseases of every des.

This Vinol is simply cod liver oil in new form, cod liver oil without any oil, paradoxical as the statement may sound. In other words, as Mr. Druhe explains it himself, Vincl is the concentrated essence containing all the acive medicinal principles found in the liver of the live cod, without any of the objectionable features that were ormerly extracted at the same time such as faity matter. The extract which is the basis of Vinoi becomes fusteless, administered as it is in a

delicate table wine. The efficient man-ner in which it acts is really wonderful. Physicians are now able to p scribe for patients Vinol where would have been impossible a short time ago to have recommended cod liver oil on account of the depleted condition of the patient's digestive or-

gans. This has always been a drawback that has prevented more cures being effected where cod liver oil has been indicated. Patients are now able to take this medicine without the slight. inconvenience. In fact, to take clous Vinol is a pleasure. Its bene-

Icial effect is most gratifying. It is not often we believe it our duty NEARLY QUARTER OF A MILLION to expatiate so fully on a subject, but this is one that will admit of careful

investigation by all, for it is indeed of the gravest importance that every

one should become conversant with a remedy that is so often needed in our bleak climate four and a half miles distant from Toosle Center. The station on the new line will be within two miles of

Center, and a much lighter grade There can be no question but the train will be much better than it has ervice been, which Tooele people will greatly appreciate. ELECTRIC POWER PLANT.

# VALUE OF ORCHARD GRASS.

During the past summer it was emonstrated on a farm west of Dener that orchard grass, dactylis glom rates, is one of the best drouth-resist ng perennials and has other desirable ualities as well. It has faults, such as growing in bunches with rather coarse traw and not of the highest palatabil ty Its early and vigorous growth in spring, the rapidity of growth after being mowed or grazed and its remark-able ability to withstand drouth are strong points in its favor. During the past summer it kept pace with alfalfa n growth, when timothy and bluestem were apparently dead. If the grass is cut fairly early the hay is of creditable quality. This grass seeds abundantly and never fails to grow. It is a better grass to sow with others or with alfalfa than sown alone, but is an infernal nuisance when it becomes firmly estabished in a blue-grass lawn although n the course of several years the latwill crowd it out. Orchard grass omes to haturity rather early in cason and if not cut before the seed leads form the seed is likely to be blown all over the country.

# A MILLION DOLLAR ORCHARD.

An Iowa syndicate to be known as he Frisco Orchard company has pur chased 7,000 acres of orchard land in aclede county, Missouri, in the heart of the Ozark region. The proposition s a million dollar stock company which ntends to plant the largest apple or chard in the world. Contracts have al-ready been awarded for clearing and planting and the entire tract will be set o fruit within four years. During the rst two years peaches will be planted o provide earlier crops, and with the xpectation of putting the property on paying or at least self-supporting basis the first two years, small fruits will be grown between the rows and ough of the orchard devoted to annul crops to provide for its own live ck, etc. M. J. Wrasg will superinend the planting operations. The pres dent of the syndicate is William Bay-ard Craig, formerly pastor of the Unity church in Denver, but now of the Drake university of Des Moines, Iowa.

WIRE FENCES AND LIGHTNING.

Forty-eight head of cattle that were leaning against a barb wire fence in a pasture near Plainfield, Illinois, were all electrocuted recently by a powerful curse cent of electricity that coursed along the wires. Lightning struck a tree to which the wires of the fence were attached, nearly a mile distant and the current was conveyed along the fence o where the cattle were standing. There it left the wires and the cattle colved the entire force of the thunderholt, which had fourneyed all the way from the tree. Every one of the aui-mals went down in an instant and fell n a row alongside the fence just as it derced by a single bullet fired while they stood in line. Wires are apt ecome charged at any time when the air is thus burdened with electricity, so be dangerous to life and property as to be dangerous to life and property and should be grounded as a means of

# **BELGIAN SCHOOLS FOR FARMERS**

No other European country is devot ing an much attention to training young men as farmers and the young women as farmers' wives as Belgium is at present. Schools of agriculture are being built in every part of the country and the Belgian government is of fering uncommon inducements to en-courage young people to enter them. The province of Brabant, for example, offers to boys every year ten scholar-ships of \$50 each and Antwerp, Hainault, Luxembourg and Liege sums varying from \$20 to \$600. extend The course of study in nearly all the schools is two years, at Carlsbourg it is three. The government has also founded a number of analytical laboratories in connection with the schools at which analysis of milk, wool, earth and different food products, such as corn and cheese can be made, at a small fee.
