Every Precaution Being Taken to

Stamp Out the Disease-Talk

of Board of Health.

Washington, Feb. 6.-Surgeon General

Sternberg has received a report from

Major Blair D. Taylor, surgeon U. S. A.,

"The situation is very serious," says Surgeon Taylor, "as the disease has broken out in several isolated places outside of the originally infected district. One soldier of the Hawaiian national guard is dead of the disease and a white woman from one of the stores in the principal business streets is now very ill. In view of the fact that the

detachment of nineteen men of the Sixth artillery in town were necessarily living with and intimately asso-ciated with the national guard. I have recommended verbally to the command-ing officer that these troops be removed ing officer that these troops be removed to Camp McKinley and placed in an isolated camp for seven days and not returned to the town until the plague to comp This has been done. The is over. This has been done. The board of health seems to be doing ev-erything in its power and is burning Chinatown and all other infected localitics, and keeping the inhabitants in isolated camps. The board has a tre-mendous task before it, however, as the accumulation of filth of many years is enormous. We are lucky at the hospital in being on high ground two miles from

infected points and in a thinly settled neighborhood. Camp McKinley is also well protected, being five miles from town and completely isolated." Major Taylor Incloses copies of the ing the post, for the islation and quar-antine of the detachment of men re-cently on guard in the city of Honolulu,

London, Feb. 6 .- Military opinion in

vance would necessarily be slow. No authentic word is at hand, save that the war office reaffirmed orally to newspaper inquiries at a late hour that it could not confirm the reported advance. There the Natal situation rests. It is from the western field that more definite statements come. Large operations are apparently about to begin. Gen. French, who has now returned to Rensberg from the conference with Lord Roberts, has sent what is described as an overwhelming force of in-fantry to seize Norvalspont. That is where the railway, before it was de-stroyed, crossed the Orange river and connected with the Free State trunk line to Bloemfontein.

Norvalspont is nineteen miles north of Colesberg and twenty-five miles from Gen. French's headquarters at Rensberg. The Boers at Colesberg have been in danger of being surrounded by the largely reinforced and extending lines of the British. An occupation of Norvalspont in force would presuma-bly render Colesberg untenable.

The Boers are showing great activity in the Nauwpoort and Colesberg districts. Many of the guns hitherto facing Lord Methuen are believed to have gone to Norvalspont. The British, thereto Norvalspont. fore, may find formidable bodies of

Boers there. Spencer Wilkinson, in the Morning Post, says: "The tide is beginning to turn. In the western theater of war it looks as though Gen. French had been reinforced, perhaps by Gen. Chermside's brigade. This would be the beginning of a systematic direction of the cam-paign. When Gen. French has disposed of the enemy forming his present objective, his force will be available for other operations."

Detailing possible operations of Gens. French, Kelly-Kenny and Gatacre, Mr. Wilkinson says: "There is now a pros-pect that in two or three weeks the British forces will be holding the passes of the Orange river, repairing the bridges and collecting all the requisites for the advance northward, to begin as soon as Lord Roberts sees his way to order the movement.

"There are now more than enough troops between the coast and Orange river to form three infantry divisions and a cavalry division, without counting either the colonial mounted troops or five militia battalions which can be or live militia battalions which can be used to relieve regular battalions on the lines of communication. Lord Methu-en's three brigades make a further ad-dition that might ultimately be util-ized."

ized." Mr. Wilkinson then proceeds to urge the government to make every prep-aration against emergencies at home, and particularly to put the volunteers and all available forces in the most complete condition for service if need-ed. He recommends rearming volunteer batteries of position with the best modern guns, and, in short, the organ-ization and equipment of the available forces, rather than hasty endeavors to

recruit untrained men. The war office announces that fifteen transports will be disnatched between today and Monday with 13,000 troops. Sir Alfred Milner, in a letter written three weeks ago to the former lord mayor of Belfast, said the war would last three or four months longer. The censorship seems to have com-

pletely shut-down the correspondents at Spearman's Camp. No dispatch from that point appears in this morning's papers, and nothing has been allowed to issue since Sunday evening.

A dispatch to the Times from Queens-town, Cape Colony, dated Monday, says: "Gen, Brabant, while addressing one of the regiments of the colonial division on parade yesterday, said they were leaving the next morning for the front, not to return, he hoved, until the task intrusted to him by Lord Roberts had been successfully accomplished. He could not disclose the plan of operations, but if his intentions were carried out the greatest glutton of fighting among them would have his fill."

The Capetown correspondent of the Daily Chronicle says: "The South African league has passed a resolution de-claring that it regards with regret, and far the blame is to be apportioned be-tween the system and those adminisogan, Company F. London, Feb. 5 .- In the House of

Commons today, replying to a question, the secretary of state for the colonies, Joseph Chamberlain, admitted that a

critical stage of the war had been reached and that the situation was un-

did not believe the country was in dan-ger. If the preparation for war had

been insufficient, he said, it was wholly

due to the fact that the government was determined to do everything to se-

There is no sacrifice we are unwilling to ask of the colonies, if we think it necessary to success. I must go further than this and admit that this war, under new conditions, in a new country, with new arms, against a people whose tenacity and courage are as admirable as the courage and tenacity of our own soldiers, has required a larger scheme than any the government has yet been called upon to meet.

'It would be premature," continued the colonial secretary, "to trik of terms of settlement. Speaking for the government, there will be no second Majuba. Never again shall the Boers erect in the heart of South Africa a ltadel whence to proceed to disaffec tion and race animosity. Never again shall they be able to endanger the paramountcy of Great Britain. Never again shall they be able to treat an Englishman as though he belonged to an inferior race."

DENY THE BRIBERY.

Evidence of Prosecution's Witness in Clark Case Contradicted.

Washington, Feb. 5.-The two most important witnesses before the Clark investigating commission of the Senate today were Representative Jaqueth of the Montana legislature, and A. B. Cook, ex-State auditor. Mr. Jaqueth is one of the members in whose name Mr. Whiteside claimed to have received \$5,000 for voting for Mr. Clark for the Senate, and Mr. Cook had been represented by Speaker Stiff of the Mon-tant house as having tried to induce him to vote for a money consideration. Both denied these charges. Mr. Jaqueth said he never before saw
