DRUMMERS IN LIVELY RUNAWAY

J. W. Ure and J. R. Robins Have Thrilling Experience in Box-elder County.

DEATH OF MRS. JOS. PINGREE.

E. P. Brakeman Seriously Hurt—John Quinn Missing Since April 21—Tabernacle Musical Service.

Ogden, May 11.—J. W. Ure of Ogden, salesman for John Scowcroft & Sons company, and J. R. Robins of the Hardesty Extract company of Denver, had an exciting experience yesterday morning with a runaway team, resulting in a broken leg for Mr. Robins.

The gentlemen had been to Tremont, Boxelder county, on business, and had started for Dovesville, a distance of about six miles, with a team. After they had traveled a short distance, the doubletree came loose and struck the horses on the heels, causing them to run away. Mr. Ure jumped and escaped with slight bruises, but his companion, Mr. Robins, was thrown from the buggy and was struck on the head of the lower left leg in two places. Mr. Ure helped him to one side of the road, then walked back to the nearest farm house, where help was obtained, and Mr. Robins was carried to the place, where Dr. Pitt of Tremont reduced the fracture and placed the leg in a plaster paris cast. He was brought to Ogden yesterday afternoon and taken to the hospital for treatment.

HOW MANY MONTHS DOES IT TAKE TO CURE?

Drs. Shores have been frequently asked this question, by patients who foolishly imagined that it was to Drs. Shores interest to keep a patient under treatment as long as possible in order to obtain the small monthly charge made for treatment.

Drs. Shores welcome the chance to answer this question frankly and plainly.

WE CURE IN THE SHORTEST TIME POSSIBLE—ONE MONTH IF IT CAN BE DONE.

For the simple reason that it is more money in Drs. Shores pockets to cure QUICKLY than to have a case long drawn out.

CURED PATIENTS MAKE A DOCTOR'S REPUTATION.

And the sooner Drs. Shores can cure each patient, the sooner that patient sends his friends and neighbors to be cured. Every cure CURED means four or five NEW PATIENTS FOR DR. SHORES; hence it does not take a mathematician to figure out that it pays Drs. Shores better to cure a case in one month, and then treat four or five of that patient's friends a month than it would to treat a single patient five or six months for the few dollars that patient would pay each month.

SCORES OF PATIENTS AND SMALL PROFITS.

Makes a better business, and is better for all concerned, than a few patients at big prices, especially when such patients would soon become dissatisfied and skeptical.

If you treat with Drs. Shores you can rest assured you will be cured as soon as a cure can be made—no more, no less. If your case can be cured in one month, Drs. Shores will guarantee to cure you in one month.

THE HEAD OF UTAH'S SCHOOLS.

Ten Are Graduated From High School, 25 From District School.

Special Correspondence.

Nephi, Juno Co., May 2.—Thursday, May 16, will witness the closing of the most successful school year in the history of the Nephi schools.

Ten pupils will graduate from a fourth year high school course and 25 will have completed the work of the eighth grade and will be admitted into the high school.

The schools are in a most flourishing condition, and it can be said without hesitating that there are no public schools in the state better equipped in as many departments. Nephi is leading the schools of the state on the question of high school education. She was among the first to establish a high school. The first to extend the course to four years. The first to introduce courses in agriculture, domestic science, manual art, carpentry, art and music. The carpenter shop, sewing room, domestic science department, music room and chemical laboratory are fully equipped, and the work done is credited by the higher institutions of the state.

It means much to the community to say that the boys and girls can attend school at home and receive training along industrial lines.

The teachers of our high school are college graduates, and are well equipped for the work given.

Fred W. Merrill, who has done much to establish this industrial work, has resigned his position as principal, to accept a position in the agricultural department of the Brigham Young university. Roy F. Homer has been engaged as principal and will continue the work and keep the schools up to the high standard to which they have attained during the past three years. He has gathered around him an able corps of teachers, who are in sympathy with his idea of industrial education and it is expected that Nephi will continue to be in the lead. In school matters.

Prof. Osborne Widmar has been engaged to address the high school graduates.

Dr. Joseph T. Kingsbury spoke to a crowded house Tuesday evening on the question of higher education.

The school grounds are beginning to look attractive, a lawn is being planted, plants for flower beds are being prepared and in a short time the school grounds will be the most inviting spot in the city.

It continues cold and not only have the fruits been destroyed, but the cotton seed and small seed are being affected by the cold.

Shearing is nearly over and the Nephi sheepmen have sold and shipped their wool crop, some bringing 20 1/2 cents per pound.
