MORE EVIDENCE IN THOMAS HEARING

Committee Will Examine Pay Rolls—"Flogging" Testimony Corroborated.

WORK ON OGDEN CANYON LINE

Completed to Peery Place by Sunday
—District Court—Wedding Permits—Auto Tourists.

OGDEN, June 24.—By this evening it is expected that the citizens' committee which is prosecuting the charges of incompetency and unfitness to hold the position as superintendent against Heber H. Thomas, will complete the introduction of its testimony and then the attorneys for Thomas will begin the introduction of testimony refuting many of the charges.

Great interest has been taken in the various sessions by citizens owing to the stand taken by Harry Joseph, president of the board of trustees of the school and acting as chairman of the investigating committee. He has on many occasions shown his bias strongly in favor of Thomas, the attorney of the citizens' committee as well as members of the committee themselves have taken Joseph to task for such action. During yesterday's session many clashes occurred between the chairman and attorneys for the citizens' committee.

The first occurred at the close of the afternoon session when Attorney Valentine Gideon for the citizens' committee objected to C. R. Hollingsworth, reading clerk of the investigation committee and secretary of the board of trustees, framing the questions and prompting Chairman Joseph in interrogating the witnesses. After some argument the chairman stated that he would frame his own questions in the future.

At the afternoon session, W. E. Kneass, assistant superintendent, who was on the stand during the morning session, was re-called and was asked by Chairman Joseph concerning the work of the boys on the buildings of the schools. He was asked if the morality had not been improved at the institution during the past four years.

Attorney Agee said that he insisted that the chairman confine himself to his position.

"I don't need any suggestions," retorted Joseph.

Kneass declined to answer the question as to whether the punishment had been excessive or not, but stated that the percentage of punished boys returned to the school was a great deal less during the past four years. Kneass was then excused and William Wilson was called.

EMPLOYEES TESTIFY

Wilson said that he had been employed last general carpenter work at the institution at \$4 per day, also to assist in manual training department of the school. The witness said he remembered the case of the removal of Rosetta Coyle, afflicted with appendicitis, to the Ogden general hospital in a wagon with a mattress in the bottom. He spoke of the employees of the school and said that Myers and Griffin were the only ones employed at the school now who were there when he was. Speaking of Carlson, former blacksmith at the school, Wilson said that when he worked there Carlson was discharged because he heard Carlson had talked about the boys being severely whipped.

Parley Griffin testified that he worked one day during the summer of 1907, for Thomas and was paid by him. He said at the time Myers and Scott of the school with boys under their direction worked on Thomas' house raising the building and placing a foundation beneath it.

Thomas Myers, another employee of the school was called and testified that during the summer of 1907, he was released by the board five days to work for Thomas with boys and a team. He said that he usually had one day off a month and suggested to Thomas that he go and do the work of raising the Thomas house and placing a foundation under it.

On motion of the attorneys for the citizens' committee it was ordered that the payrolls for the summer of 1907 be produced and the time of the employees Scott, Griffin and Myers be offered in evidence.

The testimony at yesterday's session was a corroboration of the testimony as given by other witnesses during the week of the punishment given to inmates of the school. The most important testimony was that given by W. E. Kneass, assistant superintendent of the institution, who told of the school band playing for 40 minutes, while seven boys were given 25 lashes each with the strap. He also said that the boys' backs had "red and blue" marks and the boys were in a fainting condition when removed from the "flogging" room. The witness also testified as to the placing of an Oregon boot upon inmates Ferris and Fenstermaker, who are alleged to have attempted to escape. C. H. Chandler, a former employee of the school, testified as to the punishment given Clarence Tripp, a boy who had been paroled and was returned to the school. He said for attempting to escape Tripp was given 60 lashes with the strap at the "direction of the superintendent," and was again given 30 lashes more at the flogging of the boy begged and pleaded for mercy and was about to faint when the superintendent, Thomas, said he "guessed he had enough for this time."

WORK ON OGDEN CANYON LINE.
OGDEN, June 24.—The Ogden Rapid Transit company yesterday afternoon received two cars of ties for the canyon road and without transferring them to the company flat cars the ties were taken to the canyon in the railroad box cars in which they were received. With the receipt of these ties the company has plenty on hand that it can keep the track laying gang going until further shipment of ties can be received. Of the other material the company has plenty on hand to complete the road to the Hermitage, which is thought will be about July 15.

The "News" representative visited the canyon yesterday afternoon and found the track-laying gang within less than a half a mile from Lewis' Rockridge and were making splendid

progress. The poles for the trolley wire and cables are being set as fast as the track is laid.

By next Sunday Supr. Bailey states that the canyon cars will run as far as the Peery property and by the following Sunday they will have cars running as far as the Lewis grove. The grade and bridges for the canyon Hermitage are now ready for the track.

Surveys for the line east of the Hermitage are being made and it is the intention of the company to rush the work in the canyon during the summer months. The residents of Ogden valley are anticipating seeing the line completed as far as the western part of the valley by Nov. 1.

Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound and perfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation be taken out and this tube restored to its normal condition, hearing will be destroyed forever. It is not a case of Deafness, but a case of Deafness (caused by catarrh) that cannot be cured by local applications. HANDICRAFT VETERAN OF 80 HONORED AT FARMINGTON

(Special Correspondence.)
FARMINGTON, Davis Co., June 22.—The eightieth birthday anniversary of

Mrs. Alice Walsh Strong, of Salt Lake City, was fittingly celebrated at the pleasant country home of her son, John Walsh, Esq., at Farmington, on Monday, June 21, 1909, where her four living children, and 24 grandchildren, with one great-grandchild, and other near friends, gathered to do her honor.

Mrs. Strong crossed the plains in 1856 as a member of Martin's famous hand-cart company, and suffered all the hardships incident to that trying and hazardous journey, during which her husband, William Walsh, and eldest son died, and were buried on the plains. Later she married Jacob Strong, and though she has gone through the trials and experiences of pioneer life, she is still hale and hearty at the ripe age which she has reached. She has ever been true to the faith of her youth.

MRS. ALICE WALSH STRONG.

Everyone would be benefited by taking Foley's Kidney Remedy for constipation, an old resident and merchant of this place, was run down and severely injured by a work train on the Salt Lake & Ogden railroad, at its depot here. Mr. Cleveland had left his team, hitched to a wagon, and was on the opposite side of the track when the train was passing through at a good rate of speed and was near to the station before Mr. Cleveland saw it approaching. He at once crossed the track to go to his team to prevent a runaway. The engine struck him on the hip, just as he was clearing the track, and knocked him down, with the result that his right shoulder was badly dislocated, one foot was painfully out and his body very much bruised. He has also internal injuries, but the physicians cannot yet determine the extent of his injuries, except that the kidneys are injured.

FARM TEAM KILLED BY LIGHTNING AT CLEARFIELD

(Special Correspondence.)
CLEARFIELD, Davis Co., June 21.—During a brief thunder shower Saturday about 7 o'clock a bolt of lightning struck the barn of Richard Hamilton, killing three mares and a colt. His son had a close call as he had just put the horses in for the night and fed them and had just gone to the house when the lightning found each had a mouthful of hay.

CROP CONDITIONS.

CLEARFIELD, June 21.—Haying is in full blast. Dry land wheat is turning. Barley also is maturing fast. A good yield of farm stuff is promised on every hand. The strawberry harvest is on and a good yield is reported. Instead of the early frost killing all the cherries, as was feared at first, there will be a few of the former and a pretty good crop of the cherries. It is thought the apple crop will be light.

To avoid serious results take Foley's Kidney Remedy at the first sign of kidney or bladder disorder such as backache, urinary irregularities, ex-cessive urination, and so on. You will soon be well. Commence taking Foley's Kidney Remedy today.—F. J. Hill Drug Co., (The never substitutes) Salt Lake City.

MEXICO SUFFERS FROM SERIOUS DROUGHT

(Special Correspondence.)
COLONIA DIAZ, Chihuahua, Mexico, June 15.—Now that the winds have ceased, the weather is very warm and vegetation is making rapid growth where conditions are favorable. At present the country is suffering from the worst drought in the history of the colonies. Drought of this nature has in great numbers, and the people will gladly welcome the rainy season. Despite the dry weather the crops look promising, for which the people are grateful. Harvesting will commence in about a week or ten days.

Stake conference convened here Saturday morning, June 12, and closed Sunday, June 13. All the stake presidency and a majority of the high council were present, and many visitors from the other colonies. Elders Cowley and Le Roi C. Snow, the latter is touring the stake in the interest of the Mutual Improvement associations.

DIAZ BRIEFS.

The health of the people is good.

A party of engineers passed through here some days ago. They are surveying a line for a railroad to connect Canaan in Sonora and Guzman, 40 miles east of this place. The line will intersect the Sierra Madre line at Guzman, this week. The line as surveyed now runs about four miles north of the colony. All are anxious for this to materialize, as the nearest railroad is 40 miles distant.

With good transportation facilities it is felt that this can be made a very desirable place to dwell, as the resources of this valley are many if they were developed.
