intendent of the Dominion Coppo-company's Roundary Falls smelle company's noundary rais smeller, visited Franklin camp, in company with George A. McLeod and made an examination of the Maple Leaf group, He was so well pleased with the pro-perty that he at once took an option on it for \$125,060 on behalf of John Dern, a wealthy mining operator of Sait Lake City, Utah. "Mr. Dern arrived in the Boundary

this week, and went up to the Maple Leaf, returning to Grand Forks last hight, and thence to Greenwood. It is known that Mr. Dern expressed himself as greatly pleased with the Maple Leaf, and there seems jittle doubt but that he will take the bond and proceed at once with development under its terms, which call for \$5,000 in cash, the balance, extending over 18 months.

Less than two months ago the Maple Leaf group was bonded from Fee Brothers of Grand Forts, and H. W. Young of Vancouver for \$60,000, by George A. McLeod and H. W. Warrington of Grand Forks, an initial payment of \$5,000 having already been

## BUKSKIN MINE CLOSED.

Miners Demand More Wages and Operators Say, Nit.

A necent dispatch from the Buckskin, Necada, district says that the Kennedy and Fitt mine at that place has been imperarily closed down on account of he increase in wages established by

the miners who have recently organized a local of the Western Federation. From \$1 the scale has been increased to \$4.55 for shaft work and \$5 for contract work. The camp has always been a \$4 scale, but practically no distinction was made between various grades of labor. As poon as the scale went into effect

he Fitt and Kennedy mine was closed. deveral other operators complained, but they are proceeding with develop-ment and the leasers find it unprofitble to suspend operations. These who are opposing the scale say that it should not have been established until mines of the camp had established wir permaneney.
