He says the Independent companies are not troubling the Bell peo ple as much as they are troubling the public, in that two competing systems double the cost without increasing the

PRESIDENT EXPRESSED SYMPATHY FOR NO PARTY

Washington, Jan. 2.—A statement in a cable dispatch from London that President Rooseveit has expressed his hearty sympathy with the Liberal party in Great Britain, induces no direct statement from the president. While the president probably received D. N. Mason, the candidate for the British Mason, the candidate for the British parliament, who referred to his "friendparliament, who referred to his "friend-ly interview" with the president, no recollection of Mr. Mason's call is en-tertained by either the president or of-ficials at the White House. The pres-ident makes it plain, however, that he gave to nobody an expression of sym-pathy with any political party of Great Britain or with the candidates of any party. party.
