ST. They immediately got up a petition against the change and two hundred and forty-seven signed it. The firm declined to grant the petition and the men went home last night without their money. They are talking strongly of striking and assert that if the firm persists in its course they will at once make the matter an assembly question.

CHICAGO, May 15 .- The following is the weekly crop report printed by Farmer's Review:

Farmer's Review:

Our reports for the last week show that while some localities were favored with seasonable rains others, and the creater number, are needing rain, and that in its continued absence crops will suffer seriously. Reports on the condition of winter wheat continue fairly favorable, while the showing on the whole is fairly good for the time these reports were forwarded. It remains a fact that the continued dry weather will materially reduce these percentages of condition. Throughout almost the entire territory covered by our reports, meadows and pastures are reported as needing rain.

At the conclusion, resolutions were adopted severely denouncing the action of Parliament toward the Irish people as well as their attempts to make the coercion act a law. A resolution was adopted extending heartfelt thanks to Wm. E. Gladstone and Hon. Chas. S. Parnell for their great labors in behalf of the Irish people.
