

such violation they shall immediately report the same to this office, giving in detail the facts, designating the location of the land, and if surveyed giving description by legal subdivisions, giving the names and residences of persons who have violated the provisions of the act above referred to, or the rules and regulations prescribed thereunder, and also the names and residences of witnesses by whom the facts of such violation can be proven.

4. All necessary expenses incurred by Registers and Receivers for traveling and other necessary expenses in making personal examinations, will be paid and allowed to such Registers and Receivers in making up their next quarterly accounts after such expenses shall have been incurred.

The section of the Revised Statutes above alluded to imposes a penalty of triple the value of the timber unlawfully cut, and imprisonment not exceeding twelve months. Violation of the Act of 1878 incurs a penalty of a fine not to exceed \$500, to which may be added imprisonment not to exceed six months.

It will be seen that there is nothing in all this that has any bearing upon "stumpage" or allusion to it, and we are therefore of the opinion that any one who attempts to collect such a tax from timber sawyers or timber cutters is trying to practice a gross imposition. It will also be seen on a critical examination that the law is aimed against the felling of the timber, and does not say anything about its manufacture into lumber. The timber cutter or feller, therefore, is the individual who needs to be careful about trespassing on non-mineral lands, and about violating the rules established by the Secretary of the Interior.

Lumber for building purposes, and timber for fencing, mining, etc., are absolute necessities of this region, and those who have authority in the premises ought, therefore, to give as liberal an interpretation of the law as is possible and consistent, and any pretended official or other person who tries to swindle the timber cutter or sawyer by the collection of unlawful fees, or by imposing upon the fears and ignorance of men not familiar with the law, should be punished with extreme rigor, as well as receive the contempt of every honorable mind.

Local and Other Matters.

FROM FRIDAY'S DAILY, FEB. 21.

A Serious Accident.—Yesterday morning a man in the employ of Hon. Geo. Q. Cannon was plowing in a field just above the 6th Ward Bridge and, though at a few yards distance from the river, he was just turning his team around, when a large part of the bank caved into the Jordan carrying with it the two horses and the plough. The driver himself narrowly escaped being drawn in as he had the reins tied together and hung over his shoulder in the usual style of ploughmen. He, however, was able to preserve himself, and saw that one of the animals had become so entangled in the harness that he could not swim and that his head was under water. They became almost immediately unhitched from the plough, which sank to the bottom. The horse whose motions were not prevented by the harness, swam about for some time, dragging his helpless mate and finally went out on the bank on the other side, where he was soon secured. The other animal was dead. The driver as may be supposed was much frightened, but no blame can be attached to him, as he was at such a distance from the river as would in all cases be considered safe. The plough will likely be recovered, and the loss, though the horse was a very fine animal, is not so great as it might have been. The preservation of the driver is almost miraculous.

FROM MONDAY'S DAILY, FEB. 24.

PRIESTHOOD MEETING.

A meeting of the Priesthood of the Salt Lake Stake of Zion will be held in the Fourteenth Ward Assembly Rooms, on Saturday, March 1st, 1879, commencing at 11 a.m.

A general attendance of the

Priesthood of the Stake is requested.

ANGUS M. CANNON,
DAVID O. CALDER,
JOSEPH E. TAYLOR,
Presidency of the Stake.

Home Mission.—The Home Missionaries of this Stake are requested to meet at the Council House, on Wednesday evening, the 28th inst., at 6.30 p. m.

Deseret Museum.—The transactions of the Wisconsin Academy of Science, Art and Letters, for 1876 and '77, published at Madison, 1879, has been received, also the *Roma Giornale del Mattino*, and six other Italian papers, from M. de Lavelege, Castellamere, Italy.

A fine specimen of cupreous silver ore, from the "Green Violet," Newfoundland district, has been presented by the owners of that claim.

Grapes.—We received a visit today from Mr. Joshua Terry, of Draper, who showed us a specimen of grapes raised in his vineyard at that place, and which he has kept in excellent condition all winter. He sold a number of boxes of the fruit in town this morning. It is of the Salem variety of fine flavor and well preserved. He has proven that grapes can be kept through the winter in Utah, a point which has been disputed.

Accidents.—Last week a little five year old son of Mr. Joseph Toronto of the 18th Ward was kicked by a horse and so badly injured that his death was considered almost inevitable. The accident occurred at the Point of the West Mountain, and the little sufferer was immediately brought to this city, everything being done that medical skill could suggest to relieve him. The child died, however, on Saturday.

The funeral services took place this morning at the residence of the parents. A large congregation of sympathizing friends were present; and words of consolation and instruction were spoken by Elders John T. Caine and Robert Patrick and Bishop F. Kesler of the 16th Ward.

A serious accident occurred in one of the Bingham mines on Saturday, which may result fatally. A man named Daltwater was working in the mine when by some means a piece of timber fell, striking him just above the right hip. He was brought to this city and removed to the hospital.

"Star Light."—The following are from the *Millennial Star* of February 3d:

Elder Orson Pratt, having completed arrangements with printing and electrotyping establishments in London, for procuring plates of the proposed new edition of the Book of Mormon, with references, is now in that city attending to that important business. Elder Joseph Bull, sen., who has lately been engaged in the printing department of this office, in which he rendered most valuable service, has also gone to London, to assist Elder Pratt in his labors.

On Saturday, February 1st, Elder Joseph Hyrum Parry, having been released, left Liverpool on the Guion S. S. *Wyoming*, en route for the Southern States of America, where he will spend a few months before returning to his home in Utah.

Elder Parry arrived in this country on the 9th of August, 1877, and from that time until the appointment recently of his successor, he presided over the Welsh Conference, in which position he labored with much diligence and ability. He was lately appointed to labor in the printing department of this office, but owing to the publication of the new edition of the Book of Mormon being conducted in London, instead of in this office, as at first anticipated, his services in that capacity were not required.

In addition to the mission that Elder Parry has just filled in this country, he spent two years, from Sep. 1874 to June 25th, 1876, preaching the gospel in England. For a young man his experience as a minister of the gospel has been quite extensive.

We wish him a pleasant journey, and an agreeable sojourn in the States.

In consequence of the publication of the new edition of the Book of Mormon being conducted in London, instead of at this office, as formerly expected, Elder Joseph Bull, jun., will continue his labors in the Sheffield Conference.

Accidents in Ogden.—Our correspondent "Semper" writes us the

following particulars of two more accidents which occurred at Ogden on the evening of the 21st inst.:

Ralph Pidecock, while coupling some cars, had his right hand caught and jammed between them, crushing his thumb and two forefingers. The thumb can be saved, and no means will be left untried to save the fingers, although the young man fears they will have to be amputated.

Marshal Allen, who was also coupling cars, had one of his hands caught and some of his fingers tightly pressed, but I am informed he was not seriously injured.

Attempted Suicide.—This morning about 9 o'clock a man named Thomas B. Oney, who was working on a vacant lot in the 21st Ward, attempted to kill himself. The particulars of the affair are about as follows:

He came into the city a few weeks ago, having no money and no work. He went to the Valley House, a man from Parley's Park being responsible for the payment of his board for one week. At the expiration of this time, Mr. Sorenson, the proprietor of the hotel, told him he might still stay there, and he has done so until the present time. A young man in the employment of Mr. Sorenson was sent this morning to dig some holes to plant trees in a lot owned by the latter gentleman in the 21st Ward, and Oney accompanied him. While at work Oney asked the young man for his knife, which was handed to him, after which he went over to where the coats were lying on the ground. The young man thought he had gone for some tobacco, but when he looked around a few moments later he was horrified to see the man's throat all covered with blood. Assistance was immediately procured, and some cloth tied around the wounded part. In a short time Dr. Newton was in attendance and Dr. Fowler, by whom the man was conveyed to the hospital, where the wound was sewed up, upwards of thirty stitches being necessary. The gash is a frightful one, and seems to have been made with a dull knife, as the jugular vein and the windpipe are not severed. He will doubtless recover, though his condition is very low. The only reason known for the rash attempt is the feeling of despondency under which he has been laboring. His age is about thirty-three, and he is pretty well known, having worked in the mining camps in this vicinity for some years.

A Sick Senator.

The excessive corpulency of a certain United States senator has long been the butt of editorial wit and spicy *bon mots* from the pens of Washington correspondents. Few persons have suspected that his obesity was a disease, and liable to prove fatal. Yet this is the sad fact. Excessive fatness is not only a disease in itself, but one liable to generate other and more serious ones. Chemistry has at last revealed a safe, sure and reliable remedy for this abnormal condition of the system in Allan's Anti-Fat. Distinguished chemists have pronounced it not only harmless but very beneficial to the system while remedying the diseased condition. Sold by druggists.

Oliver Chilled and Moline Plows.

MOST POPULAR PLOWS IN USE. IF YOUR STORES DON'T KEEP THEM, ADDRESS—

Howard Sebree,
BAIN WAGON DEPOT, SALT LAKE.

EVERYBODY knows that so long as there is proud flesh in a sore or wound, it will not heal. The obstacle is speedily removed, and the flesh reunited by HENRY'S CARBOLIC SALVE, the finest embodiment in existence of that supreme purifier, carbolic acid. Its emollient ingredients modify its pungent acid basis, so that it never cauterizes, stings or scarifies the diseased part. Sores and eruptions of all kinds are cured by it. All Druggists sell it.

CHIEF (Jackson's Best Sweet Navy Tobacco. d&w

MULBERRY TREES!

DIPHTHERIA.

MARSHALL'S HUMBUG OIL, when used freely internally and externally, will positively cure Diphtheria, even in its worst form. Thousands can vouch for the truth of this assertion. The raw Oil may be used freely on the tenderest infant, leaving the parts exposed to the air to dry in blistering. For internal use, the Oil must be diluted with water. Four table-spoonfuls of water to one teaspoonful of the Oil—sweeten to taste; bathing the throat and chest freely and often. Dose, one teaspoonful, repeating frequently. The Humbug Oil may be found prepared for internal use, under the name of Marshall's Canker Cure.
Z. C. M. L. General Agent, and for sale by all druggists and dealers in medicines.
DR. S. MARSHALL.

SWEET CHewing JACKSON'S BEST NAVY Tobacco

PURIFY THE LIFE CURRENT.

SCOVILL'S Blood and Liver Syrup

A PEERLESS REMEDY FOR

Scrofula, White Swellings, Cancer Erysipelas, Chronic Sores, Gout, Syphilis, Tumors, Carbuncles, Salt Rheum,

And all Diseases indicating an IMPURE CONDITION OF THE BLOOD. Cutaneous eruptions upon the face or body do not necessarily indicate the taint of Scrofula, but whether the insidious poison of that dire malady is present in the system or not, certain it is that

Scovill's Blood & Liver Syrup completely cures such disorders. If venis, virus of Scrofula does exist in the every this matchless purifier will root out be it vestige of it. No eruptive malady, pus-sorolous or otherwise, can resist the purifying action of this safe and potent remedy, which renders the skin

CLEAR, SOFT AND BEAUTIFUL.

when ordinary medicines utterly fail to arrest the progress of scrofulous and other eruptive disorders, the persistent use of this incomparable depurative secures the desired result. From

THE ARRAY OF PROOF

of its reliability in our possession, we make the two following condensed extracts:
Mr. Samuel H. Matthews, Molestown, Accomac Co., Va., states that his child, when a month old, was attacked with an eruption which covered its head, face, arms, feet and legs, converting them into "nearly one solid sore," but that two and a-half bottles of Scovill's Blood and Liver Syrup effected a complete cure, without a scar.

Martin Robbins, Jr., writes that he suffered from Scrofulous White Swelling with twelve running ulcers on his legs, from which more than 100 pounds of bone sloughed away, but by the time he had finished the twenty-fourth bottle of the Syrup he was completely cured.

THIS GRAND REMEDY

is a compound of vegetable extracts, the chief of which are

Sarsaparilla and Stillingia

The cures effected by Scovill's Blood and Liver Syrup are absolute, and their record is undisputed by failure. For sale by all Druggists.

Price, \$1.00 per bottle.
JOHN F. HENRY, CURRAN & CO.,
8 College Place, New York
Gode, Pitts & Co., Agents.
