

RATES TO THE BIG EXPOSITION

Railroads Are Not Making Any Announcements Until All Legislatures Adjourn.

ARE UNDER CONSIDERATION.

However the Cheap Fare of \$62.50 May Prevail From Salt Lake to Jamestown and Return.

The ter-centennial of the founding of the first permanent English speaking settlement in the United States at Jamestown, Virginia, is to be celebrated by the opening of a great exposition at Norfolk on April 26.

The question of a rate for this exposition has been under consideration by the railroads leading into the Virginia territory and connecting lines for some time; but owing to peculiar conditions existing no rate has as yet been announced.

The question of a rate for this exposition has been under consideration by the railroads leading into the Virginia territory and connecting lines for some time; but owing to peculiar conditions existing no rate has as yet been announced.

GET THEIR WAGES RAISED. Engineers on D. & R. G. Given 7 1/2 Per Cent Increase.

The result of negotiations pending between the Brotherhood of Locomotive Engineers and Firemen and the Denver & Rio Grande railroad, which have been under consideration at Salt Lake City and Denver for several weeks, was announced from the latter city last evening in a dispatch saying that a new scale of wages had been agreed upon.

TO FINISH WESTERN PACIFIC. Utah Construction Company Gets \$6,000,000 Contract.

An Ogden dispatch says that the Utah Construction company has received a contract for finishing the Western Pacific railroad grade covering the dis-

SAID TO RELIEVE ALL RHEUMATISM.

This simple prescription is said to perform remarkable cures—in many cases of years' standing. Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking well in a bottle and take in teaspoonful doses after each meal and at bedtime.

It has a peculiar effect upon the kidneys, assisting these most important organs to filter and strain from the blood the uric acid, uric, etc., which cause the pain and misery of Rheumatism. As a blood cleansing agent and system tonic it is of unusual merit.

INTERVIEWED W. H. BANCROFT

Grievance Committee of Streetcar Union Calls on the President.

The grievance committee of the streetcar operatives held a conference with President Bancroft yesterday afternoon, over the situation, presenting a request for 25 cents an hour for the first year of service and 30 cents an hour thereafter for carmen, and a 10 per cent increase for the barn and repair shop workmen.

MORE IMPROVEMENTS. Electrical Engineer of Harriman Lines Figures on Power Plant.

J. H. Babcock, supervising electrical engineer of the Harriman lines, is in conference with President W. H. Bancroft of the Utah Light & Railway company with reference to the proposed steam plant to be erected at the Jordan river with 15,000 horse power.

CHIEF CLERK RESIGNS. H. J. Cryst Leaves Ogden for Position on Nevada Northern.

Ogden, April 5.—Supt. E. C. Manson, of the Salt Lake division of the Southern Pacific, has received the resignation of his chief clerk, H. J. Cryst, which is to take effect just as soon as his successor can be named. Mr. Cryst will leave Ogden for Ely, Nevada, where he goes to accept the position of chief clerk to Supt. T. J. Duddleson of the Nevada Northern. He is a most competent man in the railroad office, and has been with Mr. Manson for a number of years, having served with him at Pocatello before coming to Ogden. He hopes to better himself in every respect by the change. Since coming to Ogden he has made

many friends, who will wish him every success in his new position.

PULLMAN INTO ELY. "All the Comforts of Home" Now Enjoyed by Central Nevada Tourists.

Within another week one may get aboard a Pullman coach at the local passenger station of the Nevada Northern railroad and remain in his berth until the coach rolls into the depot yards at Salt Lake.

This is an announcement that has been made at the local offices of the Nevada Northern and which will delight the many men and women who travel between Ely and Ogden and Salt Lake.

The increase in traffic on the road and the general demand for Pullman accommodations which has been made for months has tempted the management of the road to inaugurate at the service and to inaugurate the luxuries of travel may be enjoyed by the public traveling between Ely and the rest of the country.

WHITTEMORE IN GOLDFIELD. General Counsel for Clark Road Tells of Progress in Sagebrush State.

Charles O. Whittemore, general counsel of the Clark road and vice president of the Las Vegas & Tonopah railroad, arrived in Goldfield last evening, after looking after the interests of the latter company, which is preparing to build a line from Bullfrog to Goldfield, says the Goldfield Review.

Mr. Whittemore has been in Carson for the past six weeks, where he has been successful in getting the legislature passed a bill which will be of vital importance to his company. Mr. Whittemore says that in addition to confirming the franchises for rights of way through the chisos for rights of way through the chisos of Beatty, Rhyolite and Gold Center, the legislature passed a special act granting the same privileges through the streets of Goldfield.

When asked regarding the building of the line from the southern camp to Tonopah, Mr. Whittemore said that work was in progress. It has been somewhat retarded owing to the fact that the grading crew had to be taken that the main line of the Clark road to repair the damages done by the storms and floods during the past winter. Now that spring is coming on and the weather is promised it is intended to employ all the labor possible and rush the road to completion just as soon as possible.

When quizzed about the rumor that the Las Vegas & Tonopah and the Brock line were to be operated in conjunction with each other, Mr. Whittemore denied very emphatically that such was the case. The Las Vegas & Tonopah road will be operated independently of any other line.

In speaking of the labor troubles that exist in Goldfield, Mr. Whittemore said he regarded it as a serious matter, but added that he believed it would be only temporary, as the country is too progressive and the citizens too conservative to allow a few radicals to rule. In his opinion he thought the laboring element would be the sufferers and he believes that if they are not satisfied they can level-headed miners will take the matter in their own hands and settle the difficulty once and for all.

FIGHT FOR TERMINAL LINE. Baltimore & Ohio to Contest for Control of Chicago Road.

Chicago, April 5.—The fight for the properties of the Chicago Terminal Railway company is now on. The property has been in the hands of a receiver for some time and measures were adopted recently to foreclose the mortgage of \$15,000,000, which is the bonded indebtedness of the company. The property is advertised to be sold May 3, 1907.

March 30, the Baltimore & Ohio & Chicago Railroad company and the

Baltimore & Ohio Railroad company filed a petition in the United States circuit court asking leave to assume the bonded indebtedness of the company of \$15,000,000 and accrued interest for two years. This would give the Baltimore & Ohio interests complete possession of the property and it would be in a position to control all other tenants except the Chicago Great Western, which is operating under a contract made prior to the mortgage and cannot be disturbed.

The Baltimore & Ohio interests claim their action is simply one of self protection, as under their contract, the new owners of the property will have the option of taking over or rejecting the lease under which the terminals are being used.

CRUICKSHANK'S PATENT. How Chief Clerk Ate a Rabbit and Invited a Punch.

John Cruickshank, chief clerk of the passenger accounts of the Oregon Short Line, has just invented a new riding punch which he is going to patent under the title of The Rabbit. A rough sample has been turned out of the machine shop and it works like a charm. Mr. Cruickshank will send the sample on to Chicago, where it will be improved upon. At present it consists of an ordinary passenger conductor's ticket punch with a metal attachment whereby all papers are uniformly punched so that the files when made up no longer bear the ragged appearance that is an eyesore to all medical offices.

The story of this invention and its proposed name as told by Mr. Cruickshank is a novel one. It appears that the inventor took his entire family to church on Easter Sunday and by way of celebrating the event dined downtown afterwards. Mr. Cruickshank ordered a rabbit and ate heartily, and he quoted him subsequently and several days. "It was during one of these spasms," he said, "that the idea came to me, and that is the reason I am going to patent it under the title of The Rabbit."

SPIKE AND RAIL. The locomotive engineers of the D. & R. G. and the Western Pacific met last evening in Old Fellows hall and organized the D. L. E. division, No. 715, of the D. & R. G. with 50 members.

A spread followed that was served by the women's auxiliary.

SHE LOST \$320. Mrs. Charles Abner Taylor Drops Card Case in Car.

The police are trying to recover a card case containing \$320, which was lost yesterday afternoon in a street car. Mrs. Charles Abner Taylor of 304 North East street, lost the card case after doing some shopping in the afternoon, and she thinks that she dropped it on the floor of the car, thinking she was placing it in her handbag. The money was sent her from relatives in Butte to assist her in the estate of her husband, recently deceased, is adjusted and the funds made available. At present she has no source of income and this money was all that she possessed.
