MINING, BUSINESS AND STOCKS.

M'DONALD STRONG FOR ELY COUNTRY

To Great Year for Properties There.

Among the substantial men who have stood behind the camp of Ely for many years and is now watching it come to its own, is D. C. McDonald, pioneer and at present mayor of the city of Ely. He left last night for the camp after He left last night for the camp after spending several days here looking after business affairs connected with the various companies he is connected with. Mr. McDonald is closely associated with Thomas Kearns and David Kelth in the Success mines in the Duck Creek district and with Keith, Kearns and Col. E. A. Wall in the McDonald Ely mine close to the city of Ely.

Mr. McDonaid left last night so as to be present at a meeting of the city council tonight at which a franchise will probably be granted the Tonopah & Tidewater company, better known as the proposed Ely-Goldfield company. This, it is declared, will give the camp a direct avenue through to Los Angeles. Some very desirable property in the

a direct avenue through to Los Angeles.
Some very desirable property in the
Ely district is held by Mr. McDonald
and associates. For years he has continued to keep up the work on many
of them and he probably owns in the
neighborhood of a score of claims mostly patented.
The Success mines in Duck Creek for

ly patented.

The Success mines in Duck Creek, for the amount of work done, are among the richest in the country. Something over 3,000 feet of work has been done at the property and there is enough ore in sight for steady shipments for some time to come. Development work is being pushed throughout the winter although no shipping is being carried on.

on.

Mr. McDonald declares that the next year will see greater things transpire in the camp than ever before. Development work will be pushed with greater vigor and the many who are now becoming interested will shortly begin to assist in a more rapid upbuilding of the camp. There is considerable talk of an electric line connecting the small towns along the valley from the Steptoe smelter to the Robinson district a distance of 24 miles.

TRADING IS BRISKER.

Business on Local Stock Exchange Slightly Heavier.

was no holiday lull on the local

There was no fioliday hull on the local exchange this morning and trading was somewhat heavier. Most of the stocks were stronger and there was more spirit in the buying and selling than has been seen in some days. Throughout the entire session this morning trading was lively.

Colorado moved up from 70 cents at the opening and closed strong at 73 and 74 cents. The number of shares sold was larger than usual. Columbus Consolidated was not as strong as it has been although it found a ready market. Iron Blossom was in the same class with Colorado this morning and it registered a slight gain. Lower Mammoth was another stock that started moving up this morning and it sold as high as 55 cents.

The total number of shares disposed of this morning was 36,100, while the amount represented by the transactions was \$16,661.

On the curb market there was considerable interest. Unitah Treasure Hill was disposed of in a 200 share lot, at 8 cents. Opex Consolidated was stronger today and 3,000 shares sold at 30 cents. A block of 1,000 shares of Federal Ely sold at 13 cents.

It is now certain that the leasers of the property will more than take out the money they have put in. Eight months ago Del Roberts, Ralph M. Kellogg, C. E. Huish and a number of others secured a lease on the property. They have spent considerable money in thoroughly equipping the property and in development work.

On Sec. 18, the lease had two months more to run and an extension of six months was secured, to continue at the expiration of the present lease. This gives the present leasers eight months from last Saturday in which to push the work.

The leasing company is a close corporation and none of the stock is on the market. The stock being traded in on the Salt Lake exchange is that of the company owning the property.

International Smelter Adds New Gaso

Mechanics are now fitting up a new gasoline passenger car for the benefit of the patrons of the Tooele Valley railroad, which belongs to the International Smelting & Refining company. The car passed through Salt Lake Monday night and is now at Tooele, being put in shape for service.

It is a No. 24, Fairbanks Morse gasoline motor car, capable of carrying 35 passengers. It is 30 feet, 2 inches over all and has a 50 horse power, four cylinder engine. The machine weighs 24,000 pounds and is capable of going 25 miles an hour. The car has its own heating system, water system and gas lighting. It is divided into two compartments, one for the engineer and baggage department, and the other for the passengers.

baggage department, and the other for the passengers.

This new piece of rolling stock will be used to meet the trains at the Too-ele station on the Salt Lake Route and carry them to Tooele City and the smelter.

PIPES AND TANKS FREEZE. Mercur Properties Have Trouble With

Cold Weather.

Cold Weather.

On account of the extreme cold weather of the past week the mines at Mercur have been having a great deal of trouble in keeping their pipes, ore and tanks from freezing. For a while it was almost impossible to keep the plant moving. In spite of the efforts of the force at the Consolidated Mercur several of the pipes froze, but were loosened up before any damage to speak of could be done. The tanks were another object of trouble and it took a great deal of effort to keep them from freezing.

At the Boston Sunshine there was also considerable trouble. In some places fires had to be kindled to keep things moving and much of the work was closed down.

General Manager George H. Dern of the Consolidated Mercur declares that the weather has been the coldest ever witnessed at Mercur.

AUSTRIAN SHOOTS WIFE.

Sheriff's Deputy Pursuing Man, Who Is Fleeing in Mountains,

(Special to The News.) Bingham, Dec. 22.—Fleeing through the nountains above this camp, John Merich, an Austrian, is trying to escape from Deputy Sheriff Forbes. Merich shot from Deputy Sheriff Forbes. Merich shot his wife for an undiscovered cause at their home in the camp this afternoon, leaving at once in great haste, making his route over the hills. Mrs. Merich is not dead, but the chances are said to be slight for her recovery. At 3 o'clock Deputy Forbes had sighted his man in an open stretch of country. The officer is mounted and will likely overtake the man before he reaches the hills. If Merich reaches the hills his chances for escape are good, though it is expected that he will be overtaken before he reaches a hiding place. The man is known to be armed and Forbes is traveling with drawn weapons, anticipating a struggle before the man is taken. It is not known what motive Merich had for his act, as his wife is in too precarious a condition to talk.

the stock market today did not vary much from yesterday's closing figures. the widest change in the active stocks reaching a gain of ½ point in Read-ing. Other changes were about evenly divided between gains and losses. Rock Island preferred rose P¼ and Interna-tional Harvester I.

Island preferred rose 1½ and International Harvester I.

Business increased largely in volume but the purchasing orders were mostly in stocks which have shown recent decided strength, such as Rock Island preferred and Consolidated Gas. A handful of other specialties also became strong but the general run of stocks was neglected. This condition encouraged bear selling of the railroad stocks later. Union Pacific going down nearly a point and the whole list failing back. Consolidated Gas lost most of its 2-point rise and Rock Island preferred receded 1½ after going up 2½. Pittsburg Coal preferred rose 1½, American Smelting 1½ and Amalgamated Copper and Virginia-Carolina Chemical 1. American Can preferred lost 1½.

Prices suffered from inantition, the market being practically lifeless. General Electric declined 1 and Pacific Mail 1½. Pittsburg Coal rose 1.

CHICAGO.

CHICAGO.

Chicago, Dec. 22—Weak cables and prospects of a liberal increase of receipts in this country within the next week or two caused weakness in the wheat market today. Commission houses were free sellers and the market lacked any good support.

At the start prices were ¼ to % @% lower, with December at 1.15½ and May at 1.11½ to 1.11½. After touching 1.15%. December sold off to 1.15¼. May for a time held within the opening range.

Corn prices continued their downward course owing to general selling based on continued cold weather in the corn belt. Initial quotations showed losses of ½ to % compared with the previous close, May being at 65% to 66. Later May sold at 65%.

Weakness of wheat and corn had a depressing effect on the oats market, sentiment in the pit being bearish early in the day. May opened ½ lower at 45½ and later touched 45½. Liberal receipts of live hogs and a slackened demand for the cash products prompted considerable selling of provisions early in the session which resulted in decided weakness. Prices at the opening were 5 to 7½ lower.

trainer, was a passenger today on the Mauretania, salling for England. He expects to reach Newmarket in ample time to take up the training of Harry Payne Whitney's horses before the closing of the Lincoln handicap stakes and other Important stakes in January. When in this country, the trainer made a trip to the Whitney training quarters in the south and inspected the thoroughbreds there.

TRICK SKATERS HERE

Green and Kimball, the team of trick and fancy roller skaters, who have been engaged by the Auditorium management for three evening performances and a Saturday mattinee at the Richards street rink, have arrived from the coast where they filled an engagement of several weeks. It is said they perform more than half a hundred tricks. During holiday week there will be a matinee every day and the usual evening sessions. Sunday excepted. The race between Joe Forest of Idaho and Willie Schatz, Utah's champion, will probably take place next week.
