Mr. Hatch of Missouri, rising to a coint of order, sent to the clerk's desk and had read the instructions given to the conference committee by the House, relative to the Hennepin Canal, Star-geon Bay, Portage Lake, and other clauses of the river and harbor appro-priation bill. The point of order made was that the report of the conference committee as in direct violation of every single instruction given by the House, and therefore was not in order and should not be received. The Defense.

CHICAGO, 31 .- In the Anarchist trial to-day the prosecution continued to read editorials by Spies urging work-ingmen to buy guns and dynamite for use on May 1st. When the State had finished its readings Detective James Bonfield was placed on the stand and testified that

some of the stand and testined that some of the red flags and banners which were brought into court were those found in the Arbeiter Zeitung office. They bear such inscriptions "Every government is a conspiracy

against the people."
"Dick Oglesby, who murdered three poor workingmen at Lamont, is not in the procession. You can see him "Boys, stick together," etc. Mayor Marrison being in court the

following inscription on another ban-ner created considerable amazement, and caused the Mayor to smile. It "Carter Harrison who clubbed our citizens during the carmen's strike is not in the procession. You can see him later."

"Here the State rests," said Attor ney Grinnen and the court ordered the defense to proceed with its case. Be-fore opening its case the defense entered a motion to dismiss against Neebe on the ground that there was no evidence connecting him with the offenses charged. This was overruled, and Attorney Solomon proceeded to address the jury for the defense. At first he complimented the jury on its patience, endurance and its trying po-sition, and asked that each member stion, and assed that each member give the same close attention to the evidence produced by the defense as they had to all that had been presented by the state. He asked the jury to decide whether the State's Attorney had fulfilled his promises in the opening of the case for the State. The State's Attorney had stated he would produce in court testimony proving State's Attorney had stated he would produce in court testimony proving who threw the bomb? Had this been done? Solomon claimed it had not. Proceeding to the charges against the prisoners, Solomon said they were not charged with Adarchy or Socialism, but, as shown by the indictment, the charge was the murder of Matthias J. Degan. The law, the attorney said, did not provide any clause which declared or could be construed to declare, that the detendants had committed murder. detendants had committed murder. Solomon read from the statutes to show that the evidence brought against the defendants did not prove that they were accessories to the murder. Solomon then read from several authorities to snow what constituted offenses of conspiracy. If the State had a gase at all, it was on a charge of murder or conspiracy, and upon no other. "These defendants," se said, "are not murderers or thieves

or burglars. They are not criminals, but are possessed of the feeling of broad humanity. We expected to prove that these men assembled at the Haymarket on the night of the 4th of Haymarket on the night of the 4th of May to exercise the right of free speech; to hold a peaceable meeting, held for the purpose of discussing the interests of the laboring men. But we see in the action of the police an incredible animus; we see in them a devilish design a flendish design, an intention to destroy every life on that market. We expect to prove to you that Fielden fired no shot at the meeting, and he had not and never had a revolver. We expect to show you that witness Gilmer is a constitutional and professional liar. We expect to prove that on the night of the Haymarket meeting, Schwab did not speak to Spies, as has been testified, but that he left the meeting some time before the explosion occurred. fled, but that he left the meeting some time before the explosion occurred. We expect to show that Parsons and Fischer left the meeting early and were seated in Zeph's Hall, perhaps drinking a glass of beer when the bomb exploded. We shall prove that Neebe was at home, expect to show that he knew nothing of the meeting. You are familiar with the movements of Lingg. The evidence in no way connects him with throwing the bombs, and if he with throwing the bombs, and if he made the bombs he did no more than he had a perfect right to do. We expect to show that none of the defendants fired shots at the Haymarket meeting, and that the first shots were fired by the policemen."

At the conclusion of Solomon's address, the court adjourned.
