

called best and wisest men, backed by the various books and pamphlets written against the despised "Mormons," led me to think that perhaps after all, they had simply seized upon mere text of the Scriptures, and were destitute of the Spirit. Very reluctantly I dropped back into the same old channel, mechanically floating along with the popular current of "Orthodox Christianity." But during all these last ten years, I have been thoroughly convinced that there was something radically wrong, and when Elders Van Natta and Patterson came to my house last spring with a letter of introduction from Brother William, we entertained them the best we could, as long as they chose to stay. Their meekness and Christian deportment commended them to our consciences, and when they left, we felt like we were parting with very dear friends. The opposition has been manifesting itself in various ways. All sorts of absurd stories are afloat concerning us. I have been refused a school to which I was elected, and this simply because we believe what the Bible teaches! We long to get away from our country, and our kindred according to the flesh, and congregate with the people whom we believe to have the fulness of the gospel, and leave the sneers and scoffs behind us. In taking leave of the land that gave us birth, we breathe a silent prayer that God, our Heavenly Father, may open their blinded eyes and unstop their deaf ears, to see, and hear the truth before it is too late, and escape for their lives. We who have our eyes open need counsel and instruction. We read everything with interest that comes from Zion. My brother and sister send us a paper now and then, for which we feel grateful. But I must close. Please excuse the liberty thus taken. H. P. DOTSON.

**Some Curious Statistics.**

Allowing two square feet to each person, the entire population of Boston could stand on the Public Garden, with a good deal room to spare. The entire population of the United States could stand in Boston proper (not including Brighton, Dorchester and West Roxbury). The entire population of the world (now estimated at 1,440,000,000) could stand on the island of Martha's Vineyard, or in the space occupied by the towns of Boston, Brookline, Newton, Needham, Dedham, Hyde Park and Milton. The State of Massachusetts could in this way accommodate seventy times the present population of the world. The entire population of the world, placed side by side, and allowing two feet to each person would encircle the earth twenty times. The States of Maine, New Hampshire and Vermont, taken together, are as large as England. Any one of the States of Georgia, Illinois, Iowa and North Carolina is as large as England. Kansas is as large as England and Scotland together. Ireland is about the size of Maine. France is more than twice as large as England, Wales and Scotland together. Texas is thirty-five times as large as Massachusetts, or as large as Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, Ohio and Indiana combined. The entire population of the United States could be provided for in the State of Texas, allowing to each man, woman and child four acres of land. The entire population of the world could be provided for in the United States, allowing each person one and a half acres of land.—From the Boston Transcript

**A GOOD PLAN**  
Anybody can learn to make money rapidly operating in Stocks, by the "Two Unerring Rules for Success," in Messrs. Lawrence & Co.'s new circular. The combination method, which this firm has made so successful, enables people with large or small means to reap all the benefits of large capital and best skill. Thousands of orders, in various sums, are pooled into one vast amount and operated as a mighty whole, thus securing to each shareholder all the advantages of the largest operator. Immense profits are divided monthly. Any amount, from \$5 to \$5,000, or more, can be used successfully. N. Y. Baptist Weekly, Sept. 28th, 1878, says: "By the combination system, \$15 would make \$75 or 5 per cent.; \$50 pays \$250, or 5 per cent.; \$100 makes \$1,000, or 10 per cent. on the stock, during the month, according to the market." Frank Leslie's Illustrated Newspaper June 29th: "The combination method of operating in stocks is the most successful ever adopted." New York Independent, Sept. 12th: "The combination system is founded upon correct business principles, and no person need be without an income while it is kept working by Messrs. Lawrence & Co." Brooklyn Journal, April 25th: "Our editor made a net profit of \$101.26 from \$2 in one of Messrs. Lawrence & Co.'s combinations." New circular (mailed free) explains everything. **Important to Wool Growers!**  
I take pleasure in announcing that I am making a pure "TOBACCO SHEEP DIP" from the best Kentucky Leaf, which makes an article of uniform strength and purity, without the addition of poisonous substances, and should be diluted 100 parts to one (although safe to use at any degree of strength) for dipping sheep.  
This dip is convenient for use, as it only requires water to dilute it. As tobacco is so well known to wool growers who have used the same, I can only add that I have it in this convenient form for them—put up in one and five gallon tin packages, sealed tightly.  
Order either of my Sheep Dips, viz.:
