

UTAH RIFLEMEN BEING TRAINED

Expect to Make a Good Showing
In National Match at Camp
Perry, Ohio.

RULES OF MATCH RECEIVED.

Nearly One Thousand Dollars in Cash
And Many Trophies Open to Utah
Guardsmen—State Rifle Match.

General E. A. Wedgwood has received official copies of the rules which will govern the national matches to be held at Camp Perry, Ohio, in August. A team of 18 men selected for proficiency in marksmanship from the National Guard of Utah will participate in this match, the selection taking place probably on Aug. 5 and 6, just prior to the annual encampment of the state troops, which will be held at some point near this city from Aug. 8 to 15, unless some change is made for some reason not now in prospect. The selection of the state team will be preceded by the regular range practice each Saturday afternoon and Sunday morning on the range near Bonneville, a few miles north of the city. The practice has proceeded to 500 yards. Firing at 600 yards, skirmish and rapid fire at 800 yards will be taken up within the next three weeks. The state matches will be participated in by teams selected by company commanders, each company being represented by five men and an alternate. Prizes aggregating \$200 have been hung up and competition will be lively. The executive officers of the state matches will be officers from the Fifteenth Infantry stationed at Fort Douglas, and the rules of the Camp Perry matches will be followed as closely as possible in the state matches. The 18 individuals showing the highest averages will be selected to form the state team to go to Camp Perry. The general government assumes the cost of sending this team back for the competition, paying the men for their services while attending the matches, paying all transportation costs, cost of meals and housing the men on the rifle range while at the shoot. This appropriation is made annually by Congress for the promotion of rifle practice. The competition is between the best teams from the regular and militia forces of all states.

RULES OF THE MATCHES.

The rules for the matches have been prepared with great care by the national board for the promotion of rifle practice, convened in Washington. The recommendations of this board have been approved by the secretary of war and have been promulgated in general orders No. 60.

The matches begin with the national team match, to be shot commencing Monday, Aug. 23. This match will be followed with the national individual match and the national pistol match. Aug. 20 and 21 have been designated for the preliminary team practice.

The national team match is open to teams of 12 men each from the following organizations: The infantry team and the cavalry team from the United States army, the navy, the Marine corps, the military academy, the naval academy, the organized militia and militia from the states and territories, including the District of Columbia. In the militia men from all arms, corps and departments are eligible to membership on the teams. The match will include firing at 200, 300, 400 and 500 yards for slow fire; 200 yards, rapid fire; skirmish run, 600 to 200 yards. In the slow fire, two sighting shots at each range and 10 shots for record at each range will be allowed. The firing position will be standing at 200 yards and at all other ranges the marksmen will be prone with his head toward the target. The United States service rifle, or new Springfield, known as the U. S. magazine rifle, model 1903, with not less than three pounds trigger pull will be the only arm used in this match. The provisions for the supply of ammunition will permit a selection from a large number of factories and the government standard as issued to troops.

FIRE IN THREE CLASSES.

The teams will be classified as A, B and C. The 12 teams first in last year's competition will fire in class A. Class B will be composed of the second 15 teams. Class C will be composed of the remaining teams participating in last year's shoot and such additional teams as may be required. For its first match, a team which has not heretofore competed will be placed in class C. In this arrangement, it is possible for teams which have not had the experience in competitions to make much better showings than under the old rules which placed them all in the same class. The prizes in each class are as follows:

Class A—First prize, the national trophy, \$500 cash, and to each member of the winning team a bronze medal; second prize, \$350 cash and to each member of the winning team a bronze medal; third prize, \$300 cash and to each member of the winning team a bronze medal; fourth prize, \$250 cash and to each member of the winning team a bronze medal.

Class B—First prize, the Hilton trophy, \$500 cash, and to each member of the winning team a bronze medal; second prize, \$350 cash and to each member of the winning team a bronze medal; third prize, \$300 cash and to each member of the winning team a bronze medal; fourth prize, \$250 cash and to each member of the winning team a bronze medal.

Medals for class B to be of different design from those for class A. Class C—First prize, the bronze soldier of Marathon, \$300 cash, and to each member of the winning team a bronze medal; second prize, \$200 cash and to each member of the winning team a bronze medal; third prize, \$175 cash and to each member of the winning team a bronze medal; fourth prize, \$150 cash and to each member of the winning team a bronze medal.

Medals for class C to be of different design from those of either class A or class B. No team shall be eligible to win a prize in a class lower than that in which it was placed for the competition; but, a team in class B or C whose score is sufficient to win any prize in a class higher than that in which it has been classified must take the place and prize in the higher class to which its score entitles it.

SPLITTING OUT PROCESSES.

Rules prescribe that certain members of teams whose scores are sufficiently high shall be eliminated from competition in subsequent competitions for stated periods, thus doing away with the winning of the same prizes

MAJOR GUY R. EDIE.

Dr. Edie is physician to President Taft. He has been a friend of Mr. Taft's for many years and accompanied him on his trip around the world.

year after year by the same men. This rule is for the purpose of encouraging men less experienced in marksmanship. A similar rule places teams in Class B and C in Classes A and B if their scores warrant.

No member of a team may compete in the matches unless he shows a certificate from the adjutant general of his state, territory or the District of Columbia, showing that during the year he has performed 75 per cent of the military duty required of him. This rule eliminates the possibility of bolstering up a team with experts who do not in reality represent the militia of the state from which they are selected, as the matches will only be open to bona fide members of the militia who are regular attendants at the drills and exercises of their organizations.

INDIVIDUAL MATCH.

There will be a match open to individual members of the organizations eligible to enter teams as above stated and in addition to members of the National Rifle association and affiliated clubs. The ranges to be fired from, positions, arms and ammunition will be the same as for the National Team match. The prizes for the individual match are as follows:

Twelve gold medals and cash prizes of \$300. (To each of the 12 competitors making the highest aggregate scores, a gold medal and a cash prize in the order of merit as follows: \$300, \$250, \$200, \$150, \$100, \$75, \$50, \$25, \$10, \$5, \$10 and \$5.)

Twelve silver medals and cash prizes of \$120. (To each of the 12 competitors making the highest aggregate scores after the gold medal scores, a silver medal and a cash prize of \$120—numbers 13 to 24 inclusive.)

Twelve bronze medals and cash prizes of \$60. (To each of the 12 competitors making the highest aggregate scores after the silver medal scores, a bronze medal and a cash prize of \$60—numbers 25 to 36 inclusive.)

One gold medal and a cash prize of \$20 to the competitor making the highest aggregate score in slow fire.

One gold medal and a cash prize of \$20 to the competitor making the highest aggregate score in rapid fire.

One gold medal and a cash prize of \$20 to the competitor making the highest aggregate score in skirmish fire.

NATIONAL PISTOL MATCH.

In addition to the rifle matches, there will be the national pistol match, open to same classes of persons as the preceding match. Slow fire, or 2 seconds allowed for each shot, will be fired at 25 yards, 10 shots at each range with no sighting shots. Rapid fire, 8 seconds allowed for each score of five shots, 10 shots at each range for each score of five shots, will be fired at 25 yards, 10 shots at each range with no sighting shots. The conditions governing this match are: Target to be that known in the army as the A1, a target having a circular bullseye 5 inches in diameter and rings concentric with the bullseye. A hit in the bullseye scores the marksmen 10 points, and in the rings from 9 to 2, according to proximity to the center, giving a possible score of 50 points in each score of five shots. The firing will be without body or artificial rest, one hand alone being in use. The pistol will be either Colt's or Smith &

Wesson, .38 caliber, military sights, barrel same length as that issued to troops, trigger pull not less than four pounds. Ammunition may be selected from a wide variety of ordered manufactured by the government. The prizes for the pistol match are as follows:

Four gold medals and cash prizes, \$50. (A gold medal to each of the four competitors making the highest aggregate scores, and cash prizes in the order of merit as follows: \$50, \$25, \$20, and \$15.)

Four silver medals and cash prizes, \$50. (A silver medal to each of the four competitors making the highest aggregate scores after the gold medal scores, and cash prizes in the order of merit as follows: \$15, \$15, \$15, and \$15.)

Twelve bronze medals and cash prizes, \$80. (A bronze medal to each of the twelve competitors making the highest aggregate scores after the silver medal scores, and cash prizes in the order of merit as follows: \$15 to the first four bronze medal winners cash prizes of \$10 each; to the other eight bronze medal winners cash prizes of \$5 each.)

One gold medal and a cash prize of \$10 to the competitor making the highest aggregate score in slow fire.

One gold medal and a cash prize of \$15 to the competitor making the highest aggregate score in rapid fire.

The match held last year at Camp Perry was the first in which Utah entered a team. The result, while far from being in the top of the column class, was far from disappointing. The men fired at distances at which they had had no previous practice because of limited facilities obtaining before the match and other adverse conditions. This year the team will suffer no handicap from any of the causes prevailing last year. The team after being selected will be practised as a team on the Fort Douglas target range and will leave Aug. 16 for Camp Perry. Two days of practice will also be afforded the team upon arrival there and General Wedgwood expects that the Utah men will certainly make a good showing in Class C, in which it will fire. There will probably be 20 teams as competitors in this class and the Utah men will go with the determination to make the "going good" for all in the match.

The matter was also taken up with James E. Jennings, president of the Salt Lake Automobile club, who promised to send the committee all the names of the members of the club, and to publish a letter asking all the members of the club to assist in the laudable object.

The committee on tables and benches between 5,000 and 4,000 old folks to sit down to lunch in the tabernacle grounds also reported success.

Badges as decided on at the meeting will be in the nature of tags, so that they may be easily pinned on the coat or dress. They will be in two colors to designate those coming from the country from those living in the city. The visitors from the country will be given a blue badge, while the old folks of the city will have a red one. On each of the badges will be printed the words "Old Folks Day, June 23, 1909, Salt Lake City." The badges of the old folks from the country will be given to them on the train. Hyrum Grosbeck, of the central committee, will go to Payson to meet the old folks train, and Joshua B. Dean, also of the central committee, will meet the train from the north at Brigham City. Visitors will also be given table tickets.

The flag committee has been instructed to procure 4,000 American flags to be distributed to the visitors at the Salt Lake depot.

The committee regrets its inability to take all the old folks of the city as well as those from the country for the automobile ride. Only those from the country can be included. The old folks of the city will use street cars, through the courtesy of the Utah Light and Railway company free of charge. Luncheon will take place at 11:30.

PLANS ALL READY FOR THE REUNION

Old Folks Committees Meet to Report Successful Results.

EARLY REPORTS REQUESTED.

Bishops and Ministers Asked to Notify Central Committee of Number Who Will Attend.

The old folks' central committee met last night, at the home of Joshua B. Dean in Eighth East, at which all arrangements for the great gathering on June 23, were practically completed, those remaining being but minor details.

The committee reported success in their work. The committee on automobiles for the ride through the city for the benefit of the visitors from the country reported a generous response to their appeal, owners of cars being in hearty accord with the object.

Major Bransford, Samuel Newhouse, Judge Powers, C. W. Nibley, W. S. McCormick, O. J. Salisbury, Jake Morris, L. S. Little, Mrs. McCrystal, P. J. Moran and many others will furnish autos.

The matter was also taken up with James E. Jennings, president of the Salt Lake Automobile club, who promised to send the committee all the names of the members of the club, and to publish a letter asking all the members of the club to assist in the laudable object.

A-Y-P EXPOSITION RATES.

Via Oregon Short Line R. R. \$39.00 from Salt Lake to Seattle and return; on sale daily commencing June 1st. Ask agents for further particulars.

EXCURSIONS EAST.

Via Denver & Rio Grande R. R., June 1, 5, 11, 12, 16, 26, July 2, 8, 14, 15, 21, 22, 28, 29, 30, 31. Chicago and return \$45.00. St. Louis and return \$40.00. St. Paul, Minneapolis & return \$22.00. Omaha, Kansas City and return \$22.00. Denver, Colo., Springs Pueblo, 22.50. Other points in proportion. Tickets good returning October 31st. Ticket Office 301 Main St.

EXCURSION NORTH.

June 10th. Via O. S. L. Usual special low rates to northern Utah and Idaho points, with long limits. See agents for rates and further particulars. City Ticket office, 261 Main Street.

USUAL SUNDAY EXCURSION TO OGDEN.

June 20th, via Oregon Short Line. Round trip \$1.00. Excursions every Sunday during summer.

A FINE HOTEL FOR \$300.00

Prospectus and Outline of Plan for Disposition and Sale of the Property of the Burley Townsite Company, Ltd., Burley, Ida.

DESCRIPTION OF PROPERTY

Burley is situated in the lower part of Goose Creek valley, in Cassia county, Idaho, and on the line of the branch of the Oregon Short Line railway extending from Minidoka to Buhl. It is the natural depot of supplies for Oakley, Marion, Basin, Albion, Elba, Malta and Almo, and is the trading center for the people occupying 150,000 acres of the choicest land in Idaho. An electric railway is already projected to Albion, which will probably be built during the present year. The Oregon Short Line is considering the advisability of building a railway line to Oakley, with a fair chance of its being extended southward from that point. There is a strong probability of a sugar plant being erected in the immediate vicinity of Burley in the near future. The land in the vicinity of Burley is unequalled even in Idaho for its fertility. The South Side Minidoka government irrigation project is now practically completed, and the water has been turned into the canals during this present year. A project, promoted by Kuhn Bros. and associates, to conserve the waters of Goose creek, which will be used under the Carey act upon about 50,000 acres of additional land tributary also to Burley is now before the State Land Board, and will undoubtedly be favorably acted upon during the next sixty days. The mining and marble interests in the vicinity of Burley, and of which it is the outlet, promise a new source of wealth and prosperity in the near future. The higher lands in this section of Cassia county, that cannot be irrigated, have been shown to be fitted for dry farming and many people are settling thereon. The sheep and cattle interests of Cassia county continue to grow, and Burley is the natural shipping point for these industries.

THE TOWNSITE

The townsite of Burley consists of 600 acres of land, to which the Townsite company has the government title (tested by patents already issued). There is no encumbrance of any kind upon the company's holdings. The town is well laid out; a schoolhouse costing \$15,000.00 has already been constructed and is in actual use; the best of water is obtainable in unlimited quantity, not only in the town but everywhere in the vicinity from easily constructed wells; and the farm lands tributary to the town are being rapidly developed by an industrious and enterprising class of citizens.

The townsite is divided into lots, some of 50 and some of 25 feet in width and 125 feet in depth. Many of the lots in the different parts of town have already been sold and the proceeds of the sales have been mainly devoted to improvements of various kinds. A block in the southwestern part of town has been reserved by the town company as a public park.

THE HOTEL BURLEY

During the past year the Townsite company has erected a hotel upon lots 17 to 21 inclusive, in block 104 of the townsite, which is called the Hotel Burley. The hotel is constructed of Utah pressed brick, a part of it is three stories in height, the main building being two stories, and its dimensions being 10x12 feet; having a modern heating system and being wired for electric lights. Each of the bedrooms is provided with stationary wash stands and hot

and cold water, eight of the rooms having private baths attached. There are also three public baths. On the ground floor, besides the space reserved for office, dining room, kitchen, etc., are six store rooms, all of which are now occupied by tenants who have leased the same for one year. The occupants of these rooms are the Bank of Commerce, Burley Realty & Abstract Co., Burley Pharmacy, Conant & Dunsmuir, gentlemen's furnishings, and barber shop and billiard hall. The monthly rentals of the building, including the hotel proper, is \$470, and these rentals will be greatly increased in amount at the end of the year.

OTHER PROPERTY

Besides the town lots owned by the company and the Hotel Burley, the Townsite company also owns lots 15 and 16, in block 122, upon which is erected a substantial building and in which the Burley Bulletin, a weekly newspaper, is published. The company likewise owns the entire printing plant and machinery of the Bulletin, which originally cost about \$10,000. This newspaper has a well established business, and is a paying proposition. Like the Hotel Burley and all other property of the Townsite company, it is entirely free and clear of debts or encumbrances of any kind.

The Townsite company also owns lots 13 and 14, in block 157, upon which a dwelling house is erected. We value the hotel at \$75,000, the Bulletin printing plant at \$10,000 and the dwelling house and lots at \$2,500, and believe these values are rather under than over the true value.

PROPOSED PLAN OF DISPOSITION

The Townsite company believes it will subserve the best interests of the entire community as well as of the company to close out its entire holdings, although by doing so a much less amount will be realized than the appraised valuation calls for. The company still owns 2,334 lots, the remainder of the original number of lots having been sold or being under contract for sale. The average appraised value of these lots is about \$375.00, and a large number of them are valued at from \$600.00 to \$2,000.00, at which rates adjacent lots have already been sold. The company proposes to enter into contracts for the sale of these lots at \$300.00 each, \$150.00 of which will be paid in cash when the contract is made, and the remaining \$150.00 to be paid or before the day preceding the day of the drawing hereafter mentioned. On Sept. 15, 1909, a drawing will be had at Burley, provided by that time 1,500 or more contracts have been entered into. This drawing will be under the control of a committee of five appointed one each by the president or board of directors of the Boise City National Bank, the First National Bank of Idaho of Boise, Ida., the Deseret National Bank and McCormick & Co. of Salt Lake, Utah, and the First National Bank of Twin Falls, Ida. None of the committee's members will in anywise be interested in the drawing, and the Townsite company will not have any control in any way thereof. Should there not be a majority of said committee present when the drawing is had, enough persons shall be selected by holders of contracts present at the drawing to make up the full number of said committee. At this drawing the several contracts entered into and the remaining chances taken by the Townsite company, as hereinafter provided for, shall be numbered, consecutively and slips containing said num-

bers placed in a wheel, box or such other receptacles as the committee in charge may devise and the number of the lot and block of the different lots will likewise be put on slips and placed in another similar receptacle. There will be placed in the latter receptacle a slip containing the words, "The Hotel Burley," another slip containing the words, "The Bulletin," and another slip containing the words, "The Dwelling House," and the number of slips containing the several lots and the hotel and the Bulletin newspaper and the dwelling house shall equal in number the contracts and the chances drawn by the Townsite company, and being 2,337 in number. The drawing will proceed under the direction of the committee in charge by having some person provided by said committee for the purpose and selected at the time of the drawing, taking a slip, without being able to distinguish the number thereof, from the first receptacle mentioned, and at the same time another person, selected in like manner, shall draw a slip from the second receptacle mentioned, and the person holding the contract represented by such number drawn from said first receptacle shall become the owner of the lot, hotel, Bulletin newspaper plant or dwelling house drawn contemporaneously from said second receptacle.

Should the number of the contracts entered into be 1,500 or over and less than the entire number of chances, to-wit, 2,337, then and in such event the said Townsite company shall take the remaining chances and draw the same and be entitled to the lots or other property drawn thereby, in the same manner as individual contract holders.

WHEN PAYMENTS ARE TO BE MADE

Every person entering a contract shall sign said contract in duplicate and each thereof shall be signed by the secretary of the Townsite company and sealed with its seal, such person taking one of said duplicate contracts and the other being retained by said company. The person so entering into said contract may designate either of the banks heretofore named or any bank in Cassia county Idaho, as the bank in which said money so paid by him shall be deposited, and said bank shall retain said money until the day of the said drawing, on Sept. 15, 1909, and if said drawing takes place then said money shall be paid over by said bank to the Burley Townsite company, and if said drawing does not take place said money without cost or charge shall be paid over to said person so entering into said contract. The second payment shall be made to the secretary of the Townsite company in cash or by postal or express order or by certified or cashier's checks on or before Sept. 14, 1909, and any person defaulting in checks on or before Sept. 14, 1909, shall forfeit the first payment said 14th day of September, 1909, shall forfeit the first payment made and said contract shall be cancelled and the Townsite company shall draw the number of said contract in a similar manner as it will draw for the unsold contracts hereinafter provided for and said Townsite company shall be the owner of any lot or other prize so drawn.

It is understood by the Townsite company that all contracts are assignable if such assignment is made thereon or attached thereto in writing.

Agents will be appointed from time to time by the Townsite

company to sell contracts, but all of the contracts so sold shall be signed by the secretary of the Townsite company, and under its seal. The agents will not be permitted to receive the first payment herein provided, but said payment must be made to one of the designated banks.

DISPOSITION OF PROCEEDS

The moneys received from the sale of contracts if such drawing is had, shall be paid over after said drawing to the president or treasurer of the Burley Townsite company, Limited, and out of said moneys there shall be placed \$10,000 in each of the following banks, to-wit: The Bank of Commerce at Burley, the State Bank of Burley, the Oakley State Bank at Burley, the Albion and the First National Bank of Twin Falls and shall be retained in said banks as the property of the Town of Burley, and upon the incorporation of said town shall be turned over to the proper town authorities for the following uses and purposes, to-wit: For sewer purposes, \$10,000; for construction of a bridge across Snake river at the point where Overland avenue, if extended, would touch said river, \$10,000; for street purposes, \$10,000; for town buildings, \$10,000; for purposes of water supply, \$10,000; to be expended for said purposes only under the direction of the town authorities of said town of Burley after said town is incorporated under the laws of Idaho; but if such incorporation is not made prior to Jan. 1, 1911, said amounts shall be withdrawn by the Townsite company and become its property.

FUTURE SALE OF LOTS

There will be no town lots sold after this 15th day of June, 1909, by the Townsite company until after the drawing; Sept. 15, 1909. The contracts heretofore made by the company in regard to the sale of lots will be carried out as in said contracts provided, but no additional contracts will be made within the time above stated.

The property herein specified as subject to said drawing comprises all of the real property of the Townsite company except that heretofore contracted for and the lot upon which the company's office is situated. We will guarantee the title of all the property disposed of, and will make warranty deeds to the parties entitled thereto immediately after the drawing.

The undersigned, constituting the board of directors of the Burley Townsite company Limited, pledge themselves, both as officers of said corporation and as individuals, to carry out to the best of their ability the plan herein outlined in such manner as will honestly and fairly keep every promise herein made and do equal and exact justice to all concerned.
