

of the Treasury, in refusing to pay the salary of Gov. Ballard of Idaho. The pension appropriation bill passed after a lengthy debate; and the Senate proceeded to consider the diplomatic appropriation bill, the question being on agreeing to the House amendments. The debate upon the amendment, striking out the appropriation for the salary of the Minister to Portugal, lasted till adjournment.

Richmond.—In the convention to-day the case of Williams, the conservative member who refused to vote yesterday on the disfranchising clause, was taken up and referred to committee. During the consideration, Leggett, a conservative, refused to vote on the ground of complete disgust for the proposition. He afterwards added, "I have a contempt for the whole establishment." He was expelled by a vote of 45 to 16. A Republican member moved to reconsider the vote by which the disfranchising clause was adopted yesterday. Two colored members opposed it, saying they had heard a telegram had been received to-day from Washington stating the vote must be reconsidered. The whole question was postponed till next Thursday.

Chicago, 8.—Reports of damage to railroad tracks, bridges and telegraph lines come from all quarters. The storm has now ceased, and all the damages will be soon repaired. The train on the Missouri Pacific road, near Jefferson City, ran into a large boulder which had been washed from the bluff on Saturday night. The locomotive was thrown from the track and rolled into the Missouri river, bottom side up, carrying with it the engineer and fireman. The body of the former has not yet been recovered, though his feet are sticking out of the water.

The Tribune's special says Hancock has asked to be relieved from the command of the 5th military district. He does this because Grant has revoked his orders removing certain members of the City Council, also the order removing the street commissioner. The request is made in the usual formal manner through the army headquarters.

San Francisco, 8.—The British iron ship *Viscata*, hence yesterday for Liverpool, with a cargo of wheat, valued at over \$90,000, went ashore just outside the Golden Gate last night. A portion of the cargo was thrown overboard. The vessel has become imbedded in the sand, and it is impossible, so far, to move her. She has made no water yet.

A snow slide five or six miles in length, near Cisco, on the Central Pacific railroad, killed six Chinamen, buried seven locomotives and destroyed considerable other property.

We clip the following correspondence from the Omaha *Daily Herald* of the 20th ult. Some of our readers may have some recollection of the incident referred to:

Salt Lake, Feb. 18, 1868.

We have sulphur springs a short distance above this city. The city authorities have built fine bathing houses, the water is conducted to them in pipes, and when we feel inclined we can enjoy a splendid bath at small expense. About two miles above those warm springs a beautiful spring of sulphur water, boiling hot, emerges from the bottom of the mountain. The spring itself is quite large and deep, and the creek which flows from it runs a little distance and forms a nice lake of about a mile in length, half a mile in width. This lake is our principal skating park, and where it does not freeze, great numbers of wild ducks congregate.

Years ago, when we were in our semi-primitive condition, there were no houses near the springs, and the people could bathe in styles and attitudes to suit their convenience. A stranger appeared in our midst. The aforesaid was tall and commanding in form, a fierce moustache adorned his chin and beautiful side whiskers hung gracefully from his compressed upper lip. His eye was dark as midnight, and shone with an unearthly brilliancy when the slumbering passions were aroused. Mr. Merriman (for that was his name—he once kept a circus,) was a learned man, had spent years studying Latin, consequently his language was often interlined with his Latinian achievements.

Being of a determined mind, of course was a member of that ancient and highly respectable portion of society known as know alls. After visiting the Great Lake, Ensign Peak, the slaughter-houses and other places of renown, Mr. M. returned to the hotel weary and dusty. I wish I was in Omaha, quoth he, so that I could impregnate my corporeal body with some of those magnificently clear

crystal Missouri river aqua pura. The landlord being present meekly replied, we have warm springs where we Mormons bathe; whither lie those excrescences demanded Merriman. North of the city, a little distance, said the landlord, and I'll send a boy to show them to you. Thank you, sir, I can find them myself, and besides, sir, I pick my company, exclaimed Mr. M., whereupon he seized his new Paris hat made in New York, and started. Arriving at spring No. 1. It was not deep enough, and passed it by. No. 2 no better. A small boy reminded him of big spring just ahead. With head erect he marched on. Reaching the spring at last, he proceeded to disrobe his gigantic dimensions. A countryman passing, gently suggested he would find it rather hot. I can stand what any damned Mormon can, indignantly replied Mr. Merriman, and immediately jumped in. An hundred thousand stars of great size shown before his eyes. Scorpions and rattlesnakes were nothing compared to the happiness he enjoyed. The countryman rushed to the rescue, and with the tail rod of his wagon pulled out what was left of the hero, and with a wheelbarrow gently conveyed the wreck home. Those brilliant black eyes turned green. That hair all came out, but was quickly restored by using Perry Davis' Pain Killer, one drop of which will grow hair on a hundred miles of telegraph line in three seconds. His skin all peeled off, but a new skin was put right on. In a short time a solitary traveler might have been seen in the coach going east. He wrote a book but never returned. J.

Special Notices.

President Heber C. Kimball understands that there are many in this city and in other places adjacent, who have wool to card. He has put up a stove and has the place where his two double carding machines work, in the 10th Ward, near Pugsley's mill and the Ward Meeting House, fitted up so that carding can be done occasionally when the weather moderates. He also has David Le Baron to work them—a man whom the people know to be honest, for he has been well known among them for many years. He can cheerfully recommend Br. Le Baron as an honorable man, who has always given satisfaction to his customers when running machines for him. People bringing wool can have it done when they bring it, if there is enough at the machines to run a day. Bring grease as usual, say one pound to seven.

If the people will not bring wool along to be carded, the place will be closed.

Mrs. White has arranged to prolong her stay in the city for a little time longer, and those who desire to rapidly obtain an acquaintance with music should see her, for she communicates a knowledge of the science, by "Robbins American Method," so quickly as to astonish those unacquainted with it. We think our musicians who wish to fully understand Harmony or Thorough Bass, applied to the piano, organ, &c., ought to make themselves acquainted with the system soon, as she will remain here but a short time. She can be found at the Townsend House.

C. CLIVE,

FASHIONABLE TAILOR,

SECOND SOUTH STREET.

IS ALWAYS ON HAND to fill, with PUNCTUALITY and at MODERATE CHARGES, all Orders intrusted to him.

COMPETITION DEPIED.

JOY TO THE AFFLICTED!

LAUGHING GAS!

FOR the Million! I take pleasure in informing my numerous friends and the Public, that I have been to great expense and trouble in buying the Patent Right for Salt Lake City for the best Nitrous Oxide Gas Apparatus that is in existence, as is proved by its being used by the Royal Families of England, France and Belgium, also by Dr. Colton, in the Dental Institute, New York.

The Gas made by this Apparatus only is absolutely pure, and no unpleasant choking or strangling sensation is experienced, or any disgusting bag used in taking it, but you can breathe perfectly natural every way, and you would not suspect that you were breathing anything but the purest air. It is, in fact, the ne plus ultra of all methods for the painless extraction of Teeth.

I have a large supply of the same Teeth which took the First Premium in Paris last summer. Also five different kinds of Rubber for inserting Teeth, including the kinds used in England and France.

Particular attention given to preserving the natural Teeth. Terms moderate. Call and see. Dr. Wm. H. GROVES, 2d South St., Snow's corner.

PUBLIC NOTICE.

YEAR 1868.

C
R
B
G

WE return our sincere thanks to this People for the liberal Patronage we have received, and in view of the great scarcity of money and the decline in the value of some kinds of Goods east, we have determined to offer our Stock at a heavy Discount for

CASH!

WE will allow a Discount of TEN PER CENT. on all Groceries, except Tea, Sugar, Coffee, Candles and Soap.

A Discount of TEN PER CENT. on all Dry Goods, Clothing and Hardware, except Nails, Horse and Mule Shoes.

A Discount of TWENTY PER CENT. on Hoods, Nubias, and all Goods of this description, including Hats and Caps.

A Discount of from TEN to TWENTY PER CENT. on all kinds of Dishes, Plates, Cups and Saucers, Glassware, Castors, &c., &c.

ARGUMENT:

THIS we think better for the Customer than Enterprises on the Lottery Plan, these having been tried elsewhere and not found profitable to the investors.

The People know quite well already who sells the Cheapest and Best Goods, and when they get them, knowing them to be cheap, and then get a Discount of from Ten to Twenty per Cent, we think they will come to the conclusion that it is better to have the full benefit of what they spend at once and on the spot, than take ONE Chance in FIFTY of drawing something, some time in the future.

You are not required to purchase "Ten Dollars" worth to entitle you to the Discount, but we will allow it in all cases, whether the purchase be large or small.

This is to give the poor man or poor woman, who cannot get hold of "Ten Dollars," a chance to buy Goods Cheap.

COME AND TRY IT.

WHY DO WE OFFER THESE TERMS? Because we are like most of our neighbors wanting money badly.

Ross & Barratt.
