Lord Roberts' Proclamation Regarding the Transvaal Boers.

New York, Aug. 21.-A dispatch to Lord Roberts' proclamation in regard to the Transvazi burghers who take he outh of neutrality in the future has been received with general approval has been received with general approval has collected 1,000 valunteers under the command of Bulgarian regular officers, and public opinion has been urged that more severe meas-

I ures should be taken. The effect of the commander-in-chief's proclamation will be that all those burghers who have not taken the eath of allegiance to Queen Victoria may be treated as pris-

oners of war and removed from the

ountry.
It is undoubtedly unprecedented to egard a civilian population of an in-

vaded territory, when unarmed, as if they were the enemy's troops, but it is maintained that in fact the Transvall burghers are all actual or potential combatants, and it is impossible to make distinctions between those in the field and those on their farms. The farmers, therefore, must choose. They farmers, therefore, must choose. They must either loyally become British subjects or else they must be deemed to have thrown in their lot with the queen's enemies. If they take the eath and violate it Lord Roberts threatens them with imprisonment or death, and the farms and hulldings of all persons aiding and abetting the Boer forces will be confiscated or destroyed.

Chicago, Aug. 21.—The Journeymen Plumbers' Union has ordered a general strike to take effect at once. The ac-tion was taken at a protracted meeting when it was determined to put an end to the dilatory methods now being used and begin an aggressive fight on

The divorce evil seems to grow with every year. 7,500 divorces were granted in the State of Ohio last year. We agree that there are faults on both sides, but the great problem is: Are those faults remediable? To a great extent there is no doubt the conditions which result in divorce may be remedied. Given a dyspeptic husband and a wife suffering from female trouble and we have the ready made elements of a divorce case. In view of the facts there can be very little doubt that many women look forward to divorce only because they look forward to divorce only because they seek relief from obligations they do not feel fitted to fulfill. Complaint Against British Official is Virulent, and Story is Evidently Overdrawn.

New York, Aug. 21 .- A dispatch to the Journal and Advertiser from London

The marquis of Londonderry, the new postmaster general, has brought down a veritable horner's nest about the ears of the government by the announcement of his determination to suppress the district messenger service here in the metropolis, in Liverpool, Manchester, Leeds and other big cities and

The reason given by the marquis for this extraordinary move is that the district messenger companies are en-croaching upon the preregatives on the state, which claims the monopoly of the conveyance of messages by letter and

vice has gradually become indispensa-ble to the public.

The messengers have become especial-ly indispensable since the nomination of Lord Londonderry to the postmaster generalship last spring. Appointed in order to stop his attacks upon the gov-ernment, Lord Londonderry signalized his assumption of the office by pro-claiming that he knew nothing what-

soever about nosta! matters. To the abuse lavished upon him in connection therewith the marquis has now responded by announcing his intention of suppressing the district mea-senger service. The latter employes here in London alone several thousand well trained lads all of whom will be thrown out of employment, while the five million inhabitants of the metrop-

ove million inhabitants of the metropolis will be deprived of their only means of communication on Sunday.
