

UNIVERSITY OF UTAH.

Professor Richard R. Lyman, who is studying at Cornell university, has been honored with the fellowship in engineering at that institution for next year. At the same university Prof. Ralph Chamberlain has been granted the fellowship in science. Mr. Chamberlain is a former graduate of the University of Utah. Each of these fellowships is worth \$500.

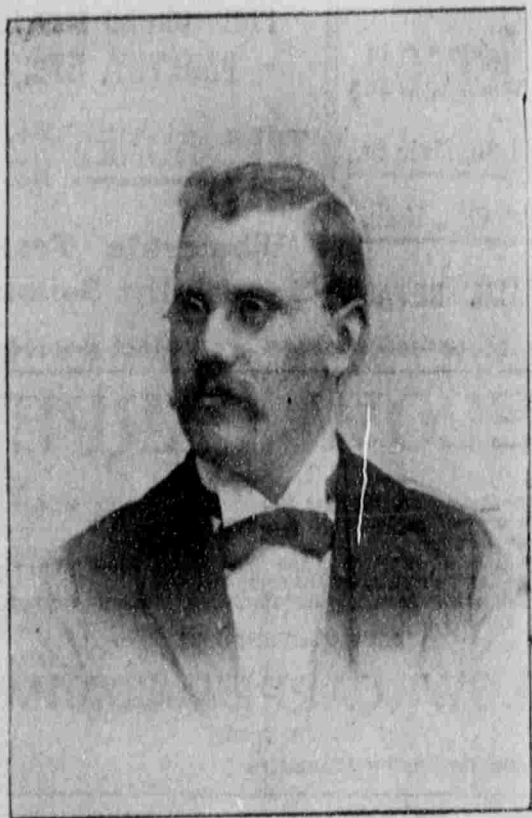

Custodian Nordvall is anxious to capture the boys that are destroying the young shade trees around the campus. Eight poplars have been broken down.

the faculty are planning to attend the summer school of the Chicago university.

Prof. Hindey spoke in the Third ward meetinghouse last Sunday evening.

Today occurs the inter-collegiate meet at the state university. A great many people from outside towns are in attendance. The teams of the B. Y. A. and L. D. S. were banqueted at 12 o'clock today in the Lion House by the Columbine society.

Last night a very well attended and highly enjoyable ball was given by the

A. J. NIELSON,
Eighth Grade Teacher of the Webster School.

If caught the boys will be vigorously prosecuted.

Next Tuesday evening the second year normals and preparatory students will go on a trolley ride.

The silver cup for the Prime Preps arrived yesterday and was presented to them by Prof. Cummings and Coach Holmes. The Preps won the cup in the recent interclass athletic meet.

Prof. Maad May Babcock conducted the chapel exercises on Wednesday. Mrs. Wm. Curtis sang "He Was a Prince."

Mr. G. M. Dougall, a Junior engineer, left school last week to join his brother John and A. F. Talamantes in taking a surveying contract for the government. The work will comprise the laying out of townships along the Lucin cut-off between Ogden and the Nevada state line. They will have 15 men in their employ.

Yesterday the "Orphans" went to City Creek canyon to celebrate their interclass victory in "Varsity athletics of one year ago. Before leaving the campus they called at each of the University buildings and gave their class yell.

Augusta Hunt, '02 N., visited the university yesterday. Miss Hunt has been teaching at Tooele.

On Thursday evening, under the management of the engineers, Clarence T. Johnston, U. S. irrigation expert, delivered an illustrated lecture in the museum building. He exhibited 125 views and maps showing the methods of irrigation in Egypt. Mr. Johnston has traveled extensively in that country for the United States government.

At 11:30 yesterday the student body held an athletic meeting. Speeches were made by President Kingsbury, Prof. Cummings, George Brown and G. W. Carlson.

Stanley Gaddie, a freshman engineer, discontinued school yesterday to go to Idaho to assist his father, who is foreman of the carpenters on the new sugar factory at Panguitch. Mr. Gaddie will resume his studies at the university next fall.

Invitations are out announcing the annual ball of the Engineering society next Friday evening, May 15.

Yesterday the fourth year normals were addressed by President J. H. Paul of the L. D. S. university, and Supt. Nephth Anderson of Boxelder county schools.

Last night Prof. Stewart lectured before the citizens of American Fork on manual training.

SALT LAKE CITY SCHOOLS

In the city schools during the week there has been general rejoicing over the knowledge that the year did not end on Friday a week ago as was apparently inevitable at one time. It is now a foregone conclusion that all or nearly all of the schools will continue to the end of the year and that graduations will take place as originally provided for.

Miss Mary McFadden of the Webster school was married early in the week. She went to California on her wedding trip and will settle down to housekeeping at Wells, Nev.

There is much interest in knowing who the principal of the new Eighth-grade ward school will be. It is a long time ahead to Jan. 1, when the school will open, but even at this remote date there is more than one principal who looks longingly towards this building.

L. D. S. UNIVERSITY.

Of late more demands for stenographers have been received than can be filled.

Instructor Funk is away on account of illness. Mrs. Larsen is in charge of the type-writing department during his absence.

The students in Prof. Hindey's class in American History are at present studying the reconstruction period. The large class in civics is investigating public economics: state participation in industries.

The prospects for a successful session of the L. D. S. business school are very encouraging.

The baseball team has been reorganized with Freeman Bassett as manager, and Victor Stewart as captain. The manager reports that the team is ready to meet all comers.

Prof. Peterson and other members of

Columbine society in the gymnasium.

Invitations are out for an evening reception to be given the graduating class and the faculty by the '04 class. The event will occur at the home of Miss Addie Cannon in Forest Dale next Thursday evening.

Emil Maeser, who will be principal of the preparatory department next year, was a visitor at the school this week. Brother Maeser was principal of the state academy at Thatcher, Ariz., this year. Ray Irvine, a recently returned missionary from Germany was also a visitor.

WEBER STAKE ACADEMY.

Ogden—The grammar class section C will read "Marmion" next week.

The class in botany did field work last Wednesday.

The art class, during the past week, have been sketching from nature. Some very creditable work has been done.

The Sunday school class, under direction of Prof. Terry, held a model Sunday school Thursday afternoon. The exercises reflected credit, both upon teacher and students.

Dr. Tanner dropped in upon us last Thursday afternoon, on business connected immediately with the principal.

The members of the Sunday school class are completing their maps of Palestine.

Our teacher, Miss McKay, who has been suffering from an attack of quinsy for the past 10 days is recovering slowly.

BEAVER BRANCH.

Beaver—Reviews and examinations are now being held in the various classes.

The regular matinee was given last Saturday afternoon.

Mr. and Mrs. Durham and family, Miss Mette Durham and Miss D. Hatch spent Saturday and Sunday at Panguitch, the occasion being the celebration of the 75th birthday of Mr. Durham's father at that place.

Principal and Mrs. Anderson entertained at their home on Saturday evening.

The "Nazarene" will be the subject of Mr. Woodward's lecture for polytechnic next Friday evening.

The different classes have in preparation excellent programs for commencement week and we anticipate having the best time in the history of the school.

The members of the Sunday Normal Religion class gave a pleasant surprise to their instructor, Mr. Woodward, on Tuesday evening.

The school will visit Beaver ward on Sunday next for Sunday school and afternoon service.

AGRICULTURAL COLLEGE.

Logan—Prof. Hutt was at Smithfield last Thursday on business pertaining to the beet sugar experiment.

Student Life appeared last Tuesday

A COUGH

CONUNDRUM

When is a cough more than a cough?

When it's a settled cold. When it hangs on in spite of all you can do. Cough mixtures won't cure it because they are merely for a cough and this is something more.

Scott's Emulsion cures the cough because it cures the something more. It heals and repairs the inflamed tissues where the cold has taken root and prevents its coming back.

We'll send you a sample free upon request.
SCOTT & BOWNE, 400 Pearl Street, New York.

with its columns filled with articles of interest and bits of humor. The geology class accompanied by Prof. Petersen, spent last Saturday up the canyon studying the structural and dynamical features. The senior engineers made a careful

Over 400 young people, the leading students of this school and the L. D. S. U., participated in the matinee last Saturday night, after the athletic contest. Our friends from the north were having so good a time that they expressed themselves as being loth to

the effect became wearying and sad; wearing, from the fact that the audience knew, but could not feel, that it was funny; sad, in the fact that these bright girls were spending their invention and vivacity in galvanizing such trite and oft-worked material. Mr. B.

S. Young did not come into the so-called play till after the first hour. His acting relieved the situation greatly, and the novelty of a German professor with a remodeling machine, turning out beautiful, soulful creatures from what were, a few moments before, ancient maidens,

furnished splendid situations for his remarkable power of comedy. On the whole, for a last appearance, let us pronounce the "National Woman's Husband Seekers' Debating Society" a success—but let it also be pronounced the last.

THE GREENWALD FURNITURE CO.

TEMPORARY QUARTERS.

study of the Telluride power plant last Saturday.

Prof. Upham gave a lecture on Thursday at drill hour, on Macbeth.

The English Debating club will discuss the question of capital punishment at their meeting next Monday evening. The affirmative will be presented by Messrs. J. Y. Jardine and J. C. Clark, the negative by Mr. O. W. Adams and Miss Mildred Forgiven.

Mr. J. W. Welch, a former student, visited the college during the week. He is now one of the faculty of the Thatcher academy in Arizona.

The ball given by the physical culture girls last Saturday evening was certainly one of the most enjoyable social events of the year. The wand drill by the class reflected much credit on Miss Moench. The decorations planned by Prof. Sturtevant were harmonious in color and artistic in effect. Miss Rachel Campbell presided gracefully at the punch bowl, where delicious fruit punch was served.

The class in fencing are making fine progress under the direction of Miss Moench.

The extra class in cooking are enjoying their new kitchen which is now completely fitted up.

The classes in fancy cooking are now practicing on loaves.

Each member of the graduating class of the manual training girls will serve a high tea at 5 p. m. at the college diningroom before the end of the year. They will each prepare their own menus and do their own marketing.

An elocutionary recital will be given by Miss Moench's class in May 25. Some splendid talent has been developed along that line at the college this year.

BRIGHAM YOUNG ACADEMY

Provo—"Ideals and Ambition" is the title of a lecture given by Prof. Hickman before the '08's recently.

The library of physical science has recently been enriched by six well-bound volumes on electricity.

Mrs. Dusenberry has been engaged to lecture in a number of the wards of Granite stake, in the near future.

An invitation from the principal of the Moroni schools for some member of the faculty to attend the graduating exercises next Friday evening, will be responded to by Prof. J. E. Hickman.

Messrs. Frank, Albert R. and Parley Day have recently discontinued attendance at the academy, the first named to take a position as cashier in the Heber city bank, and rumor says but then rumor is seldom reliable.

A week ago President Cliff was seriously threatened with an old infirmity, appendicitis, from which he suffered severely 15 years ago. By remaining quiet for a few days he has, however, tilted over the difficulty, and is able to attend to his work in the academy, for which the school is thankful.

At the last faculty meeting committees were appointed to get up the matter for the new catalogue, and Prof. Nelson was appointed to be editor. Eds. have been asked for from various publishing houses in Provo and Salt Lake City. It is hoped to get the annual out in time for commencement week.

The White and Blue is offering prizes for the two best short stories for its commencement number. Prof. Nelson, in view of the fact, has appointed all of the students of English D to compete, and offered to accept the rejected stories in lieu of usual examination tests in composition.

leave for the departure of the train.

Miss Emma Ramsey sang a number of songs before an informal gathering of friends at the residence of Mr. Howe last Sunday afternoon. Among the number present was Mark Robinson, a graduate of our school of music, who is now stake chorister of the Alpine stake, and teacher of music in American Fork. Needless to say that all were charmed with Miss Ramsey's magnificent voice.

Wilford Booth, a graduate in the '06 class, spoke to the students on Monday morning on his experiences in the orient, where he labored as a missionary for nearly four years. He kept the students in a roar of laughter, and at the same time conveyed much useful information respecting that benighted region. Last Sunday evening he delivered an excellent lecture on the missionary travels of Paul.

Prof. Brimhall spent several days in Spanish Fork last week, and returned to Provo Saturday night, where he is now quietly resting. Considering the strain under which he has passed recently, his health is as good as could be expected. He declares that he feels 100 per cent better than he did when he left the sanitarium in California 10 days ago. Our bracing mountain air seems to have been just what his system needed.

Miss Aretta Young has given two talks to all the girls of the school on the harmony of colors, especially as adapted to dress and personal adornment. She illustrated her ideas by a great many samples from the drygoods stores of the city. From the frequent expressions of surprise and delight, when certain colors were matched, and of disgust when others were placed by side, it is evident that the girls have had no little training already in this branch of domestic art. The subject was not completed and will probably occupy a third lecture.

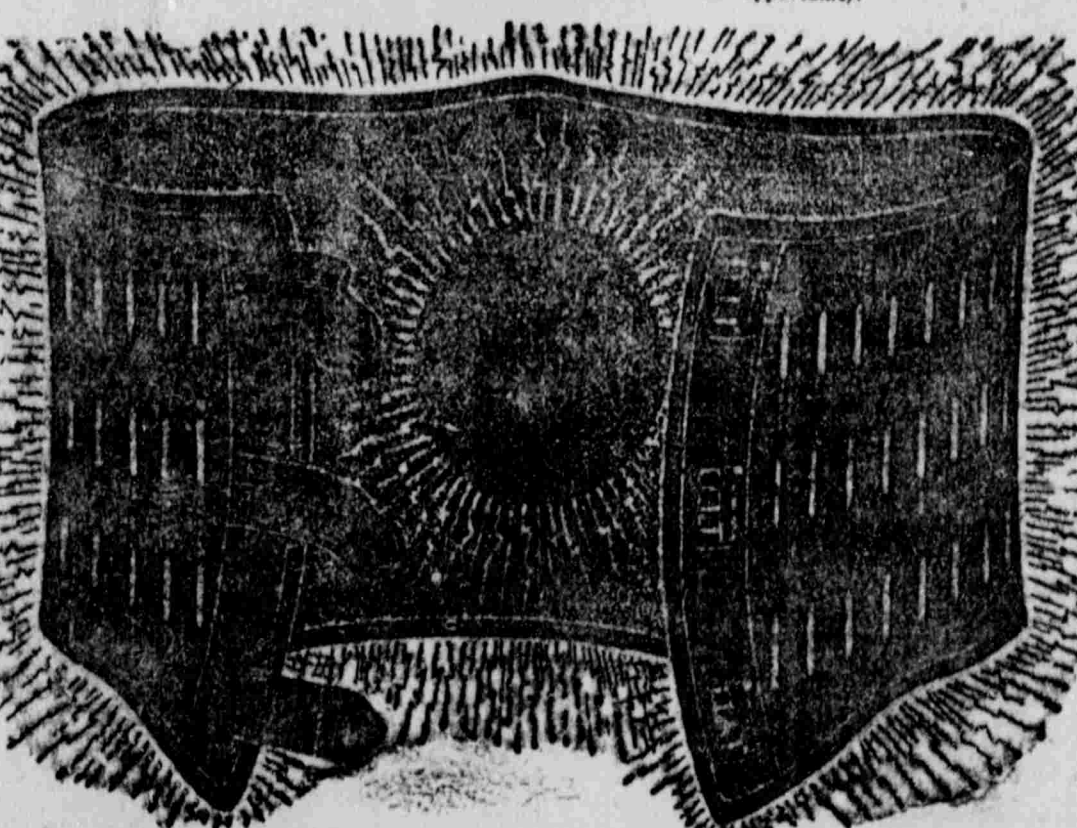

By odds the best lecture listened to in the academy this year was that given by Capt. Holston. Such is the verdict of all who listened to it.

In view of the ill feeling engendered during the visit of this school to the L.D.S. university on the occasion of the recent debate, every student of the academy resolved to do nothing that might in any way mar the pleasure of our visitors last Saturday, and in fact do everything to make their sojourn among us pleasant. Accordingly, whenever any difference of opinion arose in the athletic field, we gave in to wishes of the visiting team. When the day closed, we believed we had entirely succeeded in cementing a feeling of goodwill between the two institutions. What was our surprise then, to read Monday morning, a slanderous report in one of the Salt Lake papers, charging that the L. D. S. lost the day through our having thrown a small boy on the track during the relay race. We are not willing to credit the rank and file of our sister school with this piece of ingratitude; but on the other hand cannot shut our eyes to the fact that they did not disavow it, as courtesy would seem to have demanded.

"Cackling ridiculousity"—were such a phrase in the language—would best describe the old maid extravaganza presented by the kindergarten girls last Friday night. It was the excruciatingly funny—for fully 10 minutes. After that the ominous silence of the audience was broken only by an occasional sputtering in response to the more or less witty local allusions. The girls did well—none could have done better; but they miscalculated the power of their audience to respond to the baroque of a somewhat conventional and hackneyed theme. After the first few variations of the old maid's longing for a husband,

FREE MAGNO APPLIANCE FOR WEAK MEN

Nature's Remedy—A New and Successful Treatment For Weak Men—Young Men, Middle-Aged Men, Old Men. If you Really Want to Be Cured Now Is Your Opportunity.

Stored Electricity. Always Charged, Ready for Use.

No burning—no blistering—no skin poisoning—no charging the batteries with dangerous acids. A dry, soothing current applied direct to the nerve centers controlling the nervous system. Even the very worst cases find a cure under our wonderful MAGNO-MEDICAL TREATMENT. All diseases that affect the nervous system or caused by impurity of the blood are speedily and permanently cured.

For the purpose of popularizing my wonderful MAGNO-ELECTRO treatment, I am going to send to each sufferer who writes to me at once my NEW MAGNO APPLIANCE absolutely without any cost. FREE AS THE AIR YOU BREATHE. All I ask in return is that you recommend my appliance to your friends and neighbors when you are cured.

Are you a strong, vigorous, manly man? If not, write for my ELECTRO-MAGNO APPLIANCE today. Send your name and full particulars of your case. It matters not what you have tried, how many belts you have worn without relief, my new method will cure you.

Why suffer from WASTED VITALITY or any form of NERVOUS ORGANO DISEASES when my MAGNO-ELECTRO APPLIANCE will restore the declining forces to the strength and vigor of robust manhood?

Cures permanently all NERVOUS DISEASES—LIVER, KIDNEY and STOMACH TROUBLES, RHEUMATISM, VARICOCELE, CATARRH of the BLADDER, Nervous Debility, Weak Back, Skin Diseases, Blood Poison, Rheumatism, Pain in Back, Spinal Disease, Constipation, Asthma, Lack of Nerve Force and Vigor, General Debility, Insomnia (sleeplessness), Throat Troubles, Paralysis, Epileptic Fits, Neuralgia, Lumbago, Dropsy, Piles, Bright's Disease, Catarrh, Indigestion, Lung Difficulties, Weakness, Sciatica, Gout, Varicocele and Headache.

My wonderful MAGNO-ELECTRO APPLIANCE has astonished the world. Thousands of sufferers have already been cured, why not you? No tedious waiting for renewed health and strength. My appliance cures quickly, and, what is more, you stay cured. Remember,

Write today and I will send the appliance absolutely free of cost. DON'T SEND ANY MONEY.
