

## BUSINESS

## IMPROVEMENT.

Evidences of it Are to be Seen in Many Quarters.

LESS TRAFFIC CONGESTION.

Labor Controversies Not So Threatening—In Some Cases Wages Advanced Voluntarily.

New York, March 21.—R. G. Dun & Co's Weekly Review of Trade tomorrow will say: "Evidences of further improvement are numerous. Labor controversies are less threatening, many settlements having been effected, while others are momentarily anticipated; wages have been advanced, not only through strikes but in some cases voluntarily, traffic congestion has subsided until it is possible to deliver goods according to specifications; aside from some idle footwear shops the leading lines of manufacture are very fully engaged while jobbing trade is of exceptional magnitude. Retail dealings are also very large, the Easter stimulus being felt in all lines of wearing apparel. With domestic demands so vigorous, it is especially encouraging to notice a gain for the last week in foreign trade at the principal ports."

"Pressure for iron and steel has not diminished these perceptibly. The impression is growing that after July 1, the situation will become normal and it will be possible to secure deliveries with some degree of promptness. This is the more probable as there has been a further stiffening of demand, which would tend to increase the volume of business. It is especially encouraging to notice a gain for the last week in foreign trade at the principal ports."

"For some time to come it is probable that foreign commerce exhibits as to this industry will be less satisfactory, but it is worthy of note that imports are mainly of pig iron, billets and sheets, while the imports of many lines of expensive machinery and other finished products are fully sustained. Large contracts are constantly being awarded for structural material on domestic account, including railway bridges, viaducts, car shops and office buildings. In this respect the domestic consumption this year will far surpass all records."

"Both at the east and the west there is a little more activity in the shoe shops, yet productive capacity is not fully engaged, and new orders come forward steadily. Advances in wages at cotton mills mean a higher cost of production, and the market has hardened in consequence."

"Business under the new conditions has not yet been sufficiently large to establish quotations, yet some advances of 2 to 5 per cent are recorded. Export sales are still checked by high prices. Woollens are quiet, with only a fair movement of staple lines, though some fancy grades are fully sold and out of the market."

"Grain markets have begun to feel the effects of weather reports, and for the next few months it will be a simple matter for speculators to secure artificial fluctuations. Strength was conspicuous on Tuesday, last year's serious injury to corn making quotations particularly sensitive to indications of drought. Another helpful factor was the increase in exports of wheat and flour to 4,657,235 bushels for the week, against 2,598,472 last week and 3,255,068 a year ago. Western receipts continued to make an unfavorable comparison with the movement in 1901, wheat amounting to 2,399,200 bushels, against 4,165,354, and corn 1,460,536, compared with 2,974,011. Atlantic exports of corn increased largely over the low record of the preceding week to 238,834 bushels, and there is still a severe loss as compared with 2,353,272 bushels shipped a year ago."

"Cotton showed no response to Mr. Nell's reiteration of his early estimate placing the yield at 11,350,000 bales. Failures for the week numbered 209 in the United States, against 224 last year, and 21 in Canada against 33 last year."

# Dr. PRICE'S CREAM BAKING POWDER

Dr. Price's Baking Powder supplies a pure, wholesome leavening agent, which makes the biscuit and cake of highest healthfulness at medium cost and protects the food from alum, which is the greatest dietary danger of the day.

The foremost baking powder in all the world.

PRICE BAKING POWDER CO., CHICAGO.

NOTE.—Alum baking powders are low priced, as alum costs but two cents a pound; but alum is a corrosive poison and it renders the baking powder dangerous to use in food.

## HONEY BEES OF THE NATION.

Washington, March 21.—The census bureau today issued a complete report showing that for the country as a whole on June 1, 1900, there were 707,361 farms in the nation. These farms reported 4,109,232 swarms or colonies of bees, valued at \$10,196,513, averaging a little more than six swarms to each farm reporting. The twelfth census is the first to report the number and value of bees or the number of farms reporting them.

During the year 1899 there were produced 61,196,160 pounds of honey and 1,765,315 pounds of wax, of an aggregate value of \$6,554,504, or \$9.42 for each farm reporting. Of this value 35 per cent is from the north central, 12 per cent from the north Atlantic and 15 per cent from the south Atlantic, 23 per cent from the western states and 1 per cent from Hawaii.

Of the states reporting honey, Texas reports the largest quantity, 4,739,204 pounds. California reports the second largest quantity, 3,967,738 pounds; New York the third largest, 3,342,497 pounds. The counties showing the heaviest production are Fresno, San Diego and Tuolumne in California, and Tompkins, Cayuga and Seneca of New York.

### SHEEP AND GOATS.

Census Bulletin Gives Number in the Country.

Washington, March 21.—The census bureau has issued a report on the sheep and goats on hand June 1, 1900, and their wool and hair clip in the fall of 1899, and spring of 1900.

There were in the United States June 1, 1900, 21,912,295 ewes one year old and over, 8,013,375 rams and wethers one year old and over, and 21,668,238 lambs under one year. From the 39,587,573 ewes, rams and wethers one year old and over, there were shorn 1,389,000 pounds of wool in the fall of 1899 and spring of 1900, 44,025,928 fleeces of an aggregate weight of 278,501,813 pounds of unwashed wool.

In some sections of the country sheep are shorn both in the fall and spring, and this two fleeces are reported for the same sheep and some further apparent discrepancy arises from the fact that many farmers sell sheep for

slaughter, shearing them before the slaughter.

Over one-half of the sheep, and thus over one-half of the wool, is reported from the western states, of which Montana has the largest and Wyoming the second largest number and greatest quantity.

Of goats, the census reports a total of all ages of 1,871,252, of which Texas contains the largest number, an aggregate exceeding one-third of all in the United States. New Mexico contains the next largest number, a total of 224,184. Exclusive of the kids less than one year old, only a portion of the goats reported are kept for their mohair or goat hair, hence there are reported only 464,592 fleeces of an aggregate weight of 661,228 pounds of unwashed fiber.

The total value as reported for the wool was \$17,723,739, and of mohair and goat hair, \$267,864.

### EXTRADITION OF CHAS. G. WEBB.

International Question With Mexico May Possibly Arise.

El Paso, Tex., March 21.—An international controversy is likely to arise over the extradition of Charles Gilbert Webb, captured Wednesday morning in Mexico and wanted for eight years on a charge of robbing a mail coach in Idaho. Webb is now in jail in Paria, according to Mexican Consul Mellem of this city the man cannot be extradited unless this government makes an especial request to Mexico and agrees to deliver to the Mexican government all Mexican criminals or suspects arrested under like circumstances in this country.

The difficulty arises through the fact that the treaty existing at the time the crime was committed and at the time the extradition papers were signed has since been annulled by the government of Mexico. A new treaty is now in existence and criminals extraditable under the old one cannot be delivered over by the government under the treaty of today.

### DESPERATE SHOOTING AFFRAY.

Occurs at a Spelling Match Over a Love Affair.

Vienna, Ill., March 22.—At a spelling match given at the schoolhouse at Double Bridge, Simpson Township, this county, a desperate shooting affray occurred. Frank Rushing and John Adams, two young men of the neighborhood, had been paying their respects to the same young woman, and she had told Adams that she would have no more to do with him. This enraged him that he swore vengeance on his rival, it is said. At the close of the exercises, as Rushing came out of the schoolhouse door, young Adams

walked up behind him and with a word of warning, shot Rushing in the back. Rushing fell to the porch and Adams shot him twice after he had fallen, inflicting fatal wounds.

Adams then shot Greely Jones, the teacher of the district, inflicting a slight wound in the shoulder, after which he escaped.

### Colonial Troops at Coronation.

New York, March 22.—It is stated, says a London despatch to the Tribune, that there will be 2,000 colonial troops in London for the coronation. Practically every colony will be represented.

### CARNEGIE LIBRARIES.

List of Towns Where Latest Ones Are to be Placed.

New York, March 22.—Andrew Carnegie recently announced at a dinner that he had just given away 38 new libraries. A list of the towns where the libraries are to be placed with the amount allotted to each has been completed. In the list 41 towns are mentioned. Among them are: Reno, Nev., \$15,000; Baraboo, Wis., \$12,000; London, O., \$10,000; Blue Island, Ill., \$10,000; Paris, Ill., \$10,000; Maquoketa, Ia., \$10,000; Redfield, S. D., \$10,000; Denver, Colo., \$10,000; Las Vegas, N. M., \$10,000; Galesburg, Mo., \$10,000; Roseman, Mont., \$10,000; San Bernardino, Cal., \$10,000; Danville, Ill., \$10,000; Kokomo, Ind., \$10,000; Santa Rosa, Cal., \$10,000; Charlotte, Mich., \$10,000; Brazil, Ind., \$10,000; Oshkosh, Ia., \$10,000; Yankton, S. D., \$10,000; Berlin, Ont., \$10,000; Benton Harbor, Mich., \$10,000; Victoria, B. C., \$10,000; Little Falls, Minn., \$10,000; Newton, Kan., \$10,000; Atlanta, Ia., \$10,000; St. Thomas, Ont., \$10,000; Iowa City, Ia., \$10,000; Beatrice, Neb., \$10,000; Cedar Falls, Ia., \$10,000; Dennison, Ia., \$10,000; Hampton, Ia., \$10,000; New Albany, Ind., \$10,000; Tipton, Mo., \$10,000; Chicago Heights, Ill., \$10,000; Waukesha, Wis., \$10,000.

### Schwab Gets Copper Mines.

New York, March 22.—It is reported, says a Toronto despatch to the Herald that C. W. Schwab of New York and several financial associates organized a company with \$3,000,000 of capital and had obtained control of the Canadian Copper company of Cleveland, the Griford Copper company of New Jersey, and the Nickel company of Paris, France.

The department of mines will not be necessarily informed officially of these deals until the new company applies for the next largest number of mines or for change in the conditions of the leases of the two first named companies, each of which possesses very rich nickel mines in the Sudbury district of Ontario.

The report of the combination has been received with great equanimity because the mining leases are held under the Ontario government, which has to dictate the terms under which the ore can be exported.

The tendency for the last few years has been to force the manufacture of ore into nickel, gradually reducing the export of ore until it is entirely stopped. The Dominion government has undertaken to frame its tariff on the same lines.

The Paris company has no mines in Canada but controls the New Canada mine, the extraction of which, if completed, will control the world's output of nickel.

### SARGENT SEES PRESIDENT.

But He Denies He Has Been "Officially" Offered a Place.

St. Louis, Mo., March 21.—Frank P. Sargent, president of the Brotherhood of Locomotive Firemen, who has been mentioned as the successor of T. V. Powderly, as commissioner of immigration, is in St. Louis. He denies the position he has been offered him "officially," but admits he has talked with the president on the general subject of immigration, and that a man "not in any way connected with the administration" has asked him if he would take the position.

### Fifteen Bonds Missing.

New York, March 22.—Fifteen \$1,000 bonds, the property of the Jennie Clarkson home for children, are missing. The securities were in the care of George W. Lessels who acted as treasurer of the home.

The Clarkson home, which is situated at Katona, in Westchester county, has its chief endowment, amounting to between \$300,000 and \$400,000, from the estate of the late Mrs. J. Clarkson. As yet received only about \$30,000 of this sum, as the income goes to Clarkson's widow and sister during their lifetime. The home was founded in 1856. Up to Thursday Treasurer Lessels had been keeping a considerable number of bonds, a part of the building funds which are to be used this summer in the erection of new buildings. Leonard White was elected treasurer on Thursday.

### In Hands of a Receiver.

Chicago, March 22.—The Chronicle's Lexington correspondent telegraphs that paper that the Mutual and Industrial Mutual Investment companies have been put into the hands of a receiver. The first of these bond investment schemes was started 12 years ago and after a severe battle with the post-office authorities, who refused it the mail, won the suit, and from that time they have spread to nearly every state in the country where the laws would permit their existence. They promise returns of three for one, making monthly redemptions, and finally they offered weekly redemptions.

It is estimated that the poor people of the vicinity of Lexington alone have invested in the 14 companies \$2,000,000. The grand jury has commenced an investigation of the conduct of the companies. It is said no assets can be found.

### To Limit Dillon's Exclusion.

New York, March 22.—Arthur Balfour promised to bring forward on Friday a motion in the house of commons limiting the term of Dillon's exclusion to one week, says the Tribune's London correspondent. This obviously was the proper course, and had been generally anticipated. But a surprising development in the situation was Redmond's instant demand for an opportunity to debate the motion. Mr. Balfour pointed out that there could be nothing to discuss because it would be out of order to refer to the circumstance in which Mr. Dillon had been suspended. There is some reason to believe that the Irish members intended to carry the incident forward to the government will not have much trouble in securing the assent of the house to the new rules of procedure.

### THE CONSPIRACY BILL.

Samuel Gompers Sends a Protest Against it to the Senate.

Washington, March 21.—Samuel Gompers, president of the American Federation of Labor, has sent to the senate a protest against the "conspiracy" or anti-injunction bill reported to the senate on the 17th instant by the committee on judiciary. He says that when the bill was first reported, Feb. 22, "it was received by all parties in interest as a measure calculated to right a wrong too long endured."

This feeling, however, was rudely changed, he says, by the latest report. He quoted the opinion of an attorney that the effect of the bill as presently framed "is completely subversive of all principles of liberty," and added: "Organized labor seeks no immunity from the law applicable to all other citizens and people of our country, but must insist that those things which are legal

when performed by other citizens ought not to be illegal when performed by members of organized labor, and was to offer these rights to the members of organized labor that the original bill was drafted."

He concludes by saying that the labor interests would prefer the defeat of the bill as amended to its passage. He, however, asks that the original bill be favorably acted upon.

### Catholic Laymen's Association.

Chicago, March 22.—The Catholic Laymen's Association of Chicago is to develop into a national organization, according to acting members. The first step toward this end has already been taken. At a secret session of the executive committee resolutions were adopted requesting all Catholics in this diocese to join the ranks if they were interested in the promotion of purity and good government in the church. Many replies have been received, and communications have also come from persons outside of the Chicago district especially from Washington, D. C., and this has prompted the national movement. The organization in this city is said to have a membership of 10,000.

### Bituminous Coal Pool Perfected.

Terre Haute, Ind., March 22.—The bituminous coal operators of the field in Indiana north of the National road, and having an output of one-third the bituminous coal produced in the state have perfected a pooling arrangement for the sale of the product, about 2,000,000 tons annually. It is believed this particular pool will be followed by others covering the southern field of the state. The selling agency is to be in Chicago.

### Prince Henry is Very Grateful.

Berlin, March 21.—Admiral Prince Henry of Prussia has sent a telegram to Secy. John B. Jackson, as charge d'affaires here in the absence of Andrew D. White, the American ambassador, in which the prince says: "I pray you to accept for yourself and the members of the embassy my very best thanks for my welcome on my return from the United States. I shall never forget the cordial and splendid hospitality I met with in your country, or the kindness shown me by the American people."

Emperor William returned from Kiel this morning to be present at the annual riding contest here.

Gen. von Plessen, who was with the emperor, took occasion to tell Mr. Jackson of the great pleasure Prince Henry and all the members of the Royal family experienced in the United States. Gen. von Plessen accompanied Prince Henry on his American trip.

### Paderewski Causes a Commotion.

Davenport, Iowa, March 22.—Paderewski caused a lot of commotion among the yardmen of the Rock Island road here when he came from Chicago to Davenport to give a concert, traveling in his private car. Here he insisted that the car be turned around for the return trip, but the conductor not obeying, he slept except with his head toward the engine. It was soon found that there was no turn table in this vicinity high enough for his 75-foot Pullman. After every scheme available in the railway yards had been tried the railway men had determined to run the car to Colona, Ill., and around the formed with the Burlington tracks there, where the conductor had agreed that the car be turned on the draw of the government bridge that crosses the Mississippi here. This draw swings both ways, and is the biggest turntable in America, and was used for that purpose before. With the car centered over it the draw was swung around a half circle, and the car was ready for the pianist.

### NEW LIBRARY BOOKS.

Fifty Additional Volumes to be Placed on Shelves Monday.

The following fifty volumes will be added to the public library Monday morning, March 24, 1902:

### MISCELLANEOUS.

Berlin—Madame de Lamblae, Renard—Eccentric Christianity, Call—Power Through Repose, Constant—Memoirs of Napoleon, 4 vols. Fleming—Shakespeare's Plots, Fowler—Y-Yar Survey Engineering, Frizell—Water-power, Goodell—Chapters of Greek Metric, Grey—Australia, Henderson—American Diplomatic Questions, Hume—Spanish People, King—American Mural Painting, Lounsbury—Shakespeare as a Dramatic Artist, Mason, A. C.—Woman in the Golden Age, Mason, R. O.—Telepathy, Matthews—Pen and Ink, Morris—Principles and Methods in Latin Syntax, Napoleon—Letters to Josephine, Palgrave—Golden Treasury, Phillips—Dyces, Porter—Shakespeare Studies (Macbeth), Sanderson—Insects Injurious to Staple Crops, Stead—Americanization of the World, Swinburne—Selections from Poetical Works, Trine—Character Building: Every Living Creature.

### FICTION.

Boothby—Bid for Fortune, Brown—Knights in Rustian, Cupples—Green Hand, Dixon—Leonard's Spots, Donnelly—The Delaney, Findlater—Rachel, Scollard—Cloistering of Ursula, Hichens—Prophet of Berkeley Square, Holland—Marcelle of the Quarter, Horton—Fair Brigand, Long—Naughty Man, Mason—Miranda of the Balcony, Morrison—To London Town, Norris—Dancer in Yellow.

### JUVENILE.

Baldwin—Conquest of the Old North-west.

### NEW THEORY ON Cause of Hay Fever.

Hay fever is not so much a result of climatic conditions as it is a showing of the "weak spot" in the general condition of the body. A hay fever sufferer can be fed up to a prime condition of health by the use of well selected food, the chances are the hay fever will not present itself.

As an illustration, a lady in Cave Spring, Ga., explains how the change of food affected her. "This past summer I found myself in a very low state of health and much emaciated. I got down to 95 pounds and was worried, especially as I had to look forward to my annual tussle with hay fever in September and felt it would push me even further down."

One day a friend told me she had been using Grape-Nuts Breakfast Food and that she felt like a new person with greatly increased strength and vigor. I grasped at the straw and began the use of Grape-Nuts. The effect was really magical. In a week I felt toned up and in a month began to gain flesh and strength. By September my weight had increased to 119 pounds and much to my amazement I discovered that when the hay fever sufferers began to complain I had not one symptom and escaped it altogether. Inasmuch as I had suffered for years from this miserable ailment and had made no change except in my food, I naturally concluded that my improved condition was caused by the daily use of Grape-Nuts and by observing the usual rules of health. Name city be given by Postum Co., Battle Creek, Mich.

## PRESIDENT ATHLETIC CLUB

Says: "I Owe My Health to Pe-ru-na."

Herbert Lundberg, 235 East 123rd street, New York City, President Harlem Athletic Club, writes:

The Peruna Medicine Company, Columbus, Ohio:

Gentlemen—It will probably interest you to know that I thank Peruna for the magnificent health I enjoy. If I am ever under the weather, get over-worked or suffer from a cold, the use of Peruna for a day or two quickly restores me. Several members of our athletic club have had the most gratifying results through its use, especially so during the late epidemic of la grippe. Several of them were completely cured and restored to perfect health. —HERBERT LUNDBERG.

Hon. Chas. H. Turner, 501 G street, Washington, D. C., is Ex-member of Congress from New York City, two terms; was doerkeeper of the National House of Representatives for four years. Is a member of Tammany Hall and is very influential in New York City. He writes:

"I have used your remedy, Peruna, as a general tonic with satisfactory results. I have many friends who have testified to its virtues, and I fully believe you have a valuable remedy." —C. H. Turner.

Mr. Patrick Devlin, Conductor of Macabean and Unique Lodge No. 99, writes from 42 Delaware Place, Chicago, Ill., as follows:

"Last fall, when I was outside daily in the rain and cold, I caught a heavy cold, to which I paid no attention until it spread over my entire body and every bone and muscle ached. A most disagreeable catarrh of the mucous membranes was the result."

"Several of the members of my lodge, who had been cured through Peruna, insisted that I try it, and rather reluctantly I bought a bottle. I noticed, with great joy, that it afforded me almost instant relief, and during the following week I kept getting better. Within

the first symptom of catching cold it becomes established and makes impossible a spread of the disease. Should the cold be neglected and result in catarrh, Peruna will cure, but it will take much longer and will result in much unnecessary suffering."

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, O.

## GARDNER DAILY STORE NEWS.

Nature seems to slip a cog every day or so. But spring will sure be here soon. It not tomorrow, then maybe day after. But that's no reason why you should put off getting your spring clothes. Hats any way. 'Cause tomorrow week will be Easter and spring or no spring, you must have your new headgear. Your fancy runs to what? Stiff or soft. They're here—swell soft shapes in the Floradors and Queens. Patterned after the good old Fedoras. But different crowns and brims. Fedoras of course are here. Stiff hats too with slight changes in Crowns and Brims. Must be a half hundred or more styles and shapes. \$1.50, \$2.50 \$3.75 \$5.00.

ONE PRICE. J. P. Gardner, MAIN ST.

135-133

Bignell—Mr. Chupes and Miss Jenny. Brooks—Master of the Strong Hearts. Carpenter—North America. Otis—Life Savers.

### BIDS OPENED.

Board of Public Works Accepts P. J. Moran's Estimate on Mains.

The bid of P. J. Moran for the construction of water mains for the city during this season was accepted by the board of public works at its meeting yesterday afternoon. The bid is the only one received by the board and it was decided to forward the same to the council without recommendation. The amount of the bid is not known but it is understood to be much below that of last year.

The following sealed bids for the construction of the crematory were opened: Bridgeport Boiler Works of Bridgeport, Conn., \$7,400. Engle-Thompson Cremation company of Newton, Iowa. (This company submitted a number of propositions, the lowest being \$5,500, with a \$1,000 royalty. No approaches.) Municipal Engineering company of New York, (approaches complete), \$13,500.

Dickson Garbage company of Toledo, O. This company also submitted a number of propositions, one most favor-

able being (approaches complete), \$13,224.42. Approaches are small gangways that lead to the oven which burns the garbage. Into these gangways the garbage is dumped directly from the wagons and taken direct to the oven.

The board instructed Clerk Whitaker to refer the bids to City Engineer Kelsey for a report. The fifth partial estimate of the city engineer in favor of P. J. Moran for the construction of the City creek pipe-line, amounting to \$1,843, was approved, as were a number of smaller bids.

NOW IS THE TIME TO BUY

Suitable presents for birthdays, weddings, etc. Our large assortment of Medallions, Picture Frames and Mirrors at 25 per cent reduction prior to removing into our new store. CANNON BOOK STORE, Deseret News, Props., 11 and 13 Main St.

Diphthy of Choice Millinery Now on at Z. C. M. L.

Are you sick? If so, investigate the merits of HERBINE. It is a concentrated medicine, the dose is small, yet it quickly produces the most gratifying results. Digestion improves, the lips and cheeks lose their pallor, the eye becomes bright and the step elastic. Price 50 cents. Z. C. M. L. Drug Dept.

## HEALTH (AND ALL ITS BLESSINGS)

Health will come with all its blessings to those who know the way, and it is mainly a question of right-living, with all the term implies, but the efforts which strengthen the system, the games which refresh and the foods which nourish are important, each in a way, while it is also advantageous to have knowledge of the best methods of promoting freedom from unsanitary conditions. To assist nature, when nature needs assistance, it is all important that the medicinal agents used should be of the best quality and of known value, and the one remedy which acts most beneficially and pleasantly, as a laxative, is—Syrup of Figs—manufactured by the California Fig Syrup Co.

With a proper understanding of the fact that many physical ills are of a transient character and yield promptly to the gentle action of Syrup of Figs, gladness and comfort come to the heart, and if one would remove the torpor and strain and congestion attendant upon a constipated condition of the system, take Syrup of Figs and enjoy freedom from the aches and pains, the colds and headaches and the depression due to inactivity of the bowels. In case of any organic trouble it is well to consult a competent physician, but when a laxative is required remember that the most permanently gratifying results will follow personal cooperation with the beneficial effects of Syrup of Figs. It is for sale by all reliable druggists. Price fifty cents per bottle.

The excellence of Syrup of Figs comes from the beneficial effects of the plants used in the combination and also from the method of manufacture which ensures that perfect purity and uniformity of product essential in a perfect family laxative. All the members of the family from the youngest to the most advanced in years may use it whenever a laxative is needed and share alike in its beneficial effects. We do not claim that Syrup of Figs is the only remedy of known value, but it possesses this great advantage over all other laxatives that it acts gently and pleasantly without disturbing natural functions, in any way, as it is free from every objectionable quality or substance. To get its beneficial effects it is always necessary to buy the genuine and the full name of the Co.—California Fig Syrup Co.—is printed on the front of every package.
