There was a special session of the Council March 10, called for the purpose of disposing of a part of the large amount of the unfinished business with which the council was laden.

The councilmen present were: Kar-

rick, Hardy, Horn, Rich, Bell, Law-

son, Evans, Simonds, Kelly, Beardsley,

Wantland, Helse, Folland, Loof-

bourow. Councilman Evans acted as

chairman, and Assistant Recorder Dennis as chief clerk. The meeting was a howling farce from commencement to close. The business transacted is given below:

## The Proceedings.

Arthur P. Ferl asked to be allowed to use certain city land for the removal of gravel and sand. Committee on public grounds.

The Rio Grande Western asked permission to connect its property with the sewer system. Committee on sewerage.

L. S. Clark asked to be given permission to work out tax for extension of watermains. Committee on water-works.

## \$15,000 FOR AN OPENING.

The city engineer reported in the matter of the petition of T. G. Webber and others relative to the opening of Second street between Canyon road and State street, that while the opening of that street would be a great convenience and would no doubt be necessary at some future time, the cost, which he estimated at about \$15,000, seemed to be a sufficient reason to postpone the matter for the present and he recommended accordingly. Adopted.

## REDUCTION OF LICENSE FEE.

The committee on license recommended that the license fee be reduced from \$100 to \$60 per annum and that the city attorney be instructed to draw up an ordinance covering the same. Adopted.

## THAT SEWER LINE.

The committee on sewerage submitted a form of contract to be entered into between the city and Gladding, McBean & Company for the purchase of three thousand three hundred feet of fourteen-inch sewer pipe to be laid on Fifth South street east, and recommended that it be adopted.

Hardy—I tell you, gentlemen, that if you carry this scheme through, it will be unlawful. It will be a needless and almost useless expenditure of public funds. It is being carried out for the express benefit of one or two persons and corporations. Where general sewer extensions are made it must be through and with the consent and under the direction of the board of public works.

Lawson took issue with Mr. Hardy, saying there was nothing to be gained by standing on a little technicalities.

Wantland said that the proposed extension was according to the plan marked out years ago and should be followed. Besides, Fort Douglas should be connected with the city, and the extension of this line would bring that about.

The vote on the ratification of the contract resulted:

Ayes—Folland, Helse, Horn, Kelly, Lawson, Moran, Wantland—7.

Noes—Bell, Hardy, Karriek, Loof-

bourow—4.

Excused—Beardsley, Evans, Simonds—3.

The chair ruled that the motion was lost for lack of a requisite majority.

This decision caused a terrific uproar among the councilmen who are working for the carrying out of the scheme and Lawson appealed from the decision of the chair whose action was overruled by a vote of seven to six.
