### INTERFERED WITH OFFICER John Smith Makes a Vain Endeavor to Rescue a Prisoner.

While en route to the county jail Saturday with a prisoner named Frank Zimmerman, convicted at Murray of peddiing fake jawelry without a license and sentenced to sixty days imprisonment, Deputy Sheriff W. H. Goldman was accosted by a fellow, who afterwards gave the name of John Smith, who commanded the officer to release his man. Goldman told Smith to stand to one- side otherwise he, too, would be taken to the jail. Smith then attempted to rescue Zimmerman, but Goldman was too quick for him. Holding fast to his prisoner with one hand the deputy reached for his gan with the other. The sight of the revolver caused Smith to take to his heals but a shet fired at his feet brought him to a sudden halt his feet brought him to a sudden halt. Goldman then handcuffed the men together and told them to walk on ahead of him. When within a few rods of the county jail Smith made another attempt to down the officer and this time got a stinging blow over the head with the gun for his pains. He then behaved himself. At the jail he informed Jallor Thomas that he and Zimmerman were "pale."

## WIND STORM IN OCDEN.

Terrific Breeze Sweeps Over the Junction City.

Large Plate Glass Windows Blown in on Washington Avenue-Trees Uprooted -Gale in Davis County.

On Saturday evening a windstorm arose in Ogden, in the early part of the evening it did not blow so heavy, but continued to increase in velocity as the night rolled on, and by midnight it was realized that a real mountain wind was on, and the people commenced to prop up their barns and weak outsheds. The wind blew from the east and continued the whole night. At about five o'clock in the morning, it commenced to rain and the wind abated and by noon yesterday it was quite calm and remained so, only a little breeze blowing. There was considerable damage done by the wind. One of the large plate glass windows in Burt Bro's, store was blown out at about midnight and the wind and rain swept through the store doing much damage to the stock of goods. The show window was de-corated with fine lace curtains, fancy vases and other costly articles, and the falling glass cut the curtains and deed the breakable articles, doing

about \$2,000 damage, A large plate glass window was blown out of Richards & Allison's office in the Utah Loan & Trust company's building, and in a number of other windows were crushed in. Awnings all over the city were torn in ribbons and signs were demolished on many of the business houses, several skylights were shattered. A barn belonging to Wilson Wright, situated on Wall evenue between Twenty-second and Twenty-third streets was blown over injuring one f the horses so that it will die, several other small buildings were overturned The old Thomas dancing hall on orner of Twenty-fourth street and Grant avenue was very much damaged the whole of the north and part of the east walls were blown in. Hundreds of trees were torn up by the roots all over the city. Liberty Park looks almost dilapitated, at lease seventy-five of the trees in the park were torn up by the roots, especially along the east side, only a few trees are left standing. Les-ter Park was less damaged only a few trees were torn up, but in some parts of the city particularly upon the north side of the bench the sidewalks are impassable because of the fallen shade trees, other kinds of trees seem to have stood the wind better. The R. M. B. Telephone company and the Union Light & Power company had extensive osses. Many telephone wires were torn fown, as were also the electric wires by the falling trees, and nearly all the telephone wires that were not broken, got crossed and by midnight hardly a phone in the city could be used, and the lines both south and north were materially injured. The live electric light wires that were flying around were dangerous. The telephone company place their damage at from \$800 to \$1,000 and the electric light company think that it will cost them about \$600 to their line in order. It cannot yet e fully estimates what the entire dam age throughout the city will amount o, but it will run up into several thousand dollars,

### WM. RIDD PASSES AWAY. Prominent Contractor and Builder Sucs

cumbs to Pneumonia. William Ridd, one of the most prominent mechanics in the State, succumbed to pneumonia yesterday afternoon, at his home in this city. Several weeks ago Mr. Ridd contracted a severe cold. which soon developed into pneumonia. He was born in Linton, England, De-cember 19, 1831. He emigrated to Utah hile a young man, arriving in Salt ake in 1854. He at once began work Lake in 1854. He at once legan work at his trade, that of carpentry, and soon became a very skilful workman. In the early days he did considerable contracting, constructing several saw mills in Little and Big Cottonwood canyons. He superintended the construction of the Provo woolen mills. He had become of the construction of the Ascharge of the construction of the As-sembly Hall under General Superin-tendent Grow. Mr. Ridd also worked many years on the Salt Lake Temple where he did excellent work. The funeral services will be held from the Twenty-second ward meeting house Tuesday afternoon at 2 o'clock. Friends may view the remains from 12:15 to

1;30 p. m. on the day of the funeral.

A Testimonial from Old England. "I consider Chamberlain's Cough Remedy the best in the world for bron-chitis," says Mr. William Savory, of Worrington, England, "It has saved my wife's life, she having been a martyr to bronchitis for over six years, being most of the time confined to her bed. She is now quite well." It is a great leasure to the manufacturers of Chamerlain's Cough Remedy to be able to ublish testimonials of this character. They show that great good is being done, pain and suffering relieved and valuable lives restored to health and happiness by this remedy.

# DISCOURSE ON ARMENIA.

Elder F. F. Hintze Talks Interestingly on Oriental Conditions.

TWO MISSIONARIES REPORT.

The Turks are a Pure and Virtuons People - Mohammedan Missionas ries Meeting with Great Success.

The Tabernacle services yesterday afternoon were presided over by President Angus M. Cannon.

Opened by the choir singing the hymn beginning: "Earth with her ten thousand flowers."

The opening prayer was offered by Elder E. D. Woolley. Continued by the choir singing the hymn beginning:

"Lord Thou wilt hear me when I pray."

Elder Ritchle Harkness, recently returned from a mission to North Carolina, was the first speaker. He was set apart on his mission in May of 1898, and on arriving at Chattanooga was assigned to labor in North Carolina. He labored mostly in the eastern counties, next to the coast, where he met many kind and honest hearted people, who are obeying the Gospel. The conference is being well organized, many branches of the Church Sunday schools being built up, in behalf of the Saints of North Carolina the speaker was pre-pared to say that they wanted to live as near to the spirit of the Gospel as is possible. They also have a spirit of gathering. They have a desire to come to Utah where they can be taught more fully in the wars of the Gospel. more fully in the ways of the Gospel. The speaker organized three Sunday schools, assisted in baptizing many souls and organized several branches. The Saints should have better teachers in their Sunday schools, although there is talent in that country. There are many height children the

In one county, just before he left the South, the speaker had the privilege of dedicating a meeting house, and the Saints in that locality are very devout. He reloiced in his mission, and is ready to respond to any call that is made upon him by the servants of God here on the earth.

many bright children there

The next speaker was Elder Ezra Robinson, also a missionary from North Carolina. He had seen the power of the Lord manifested on many oc casions. The speaker explained that Elder Harkness had been a minister in South Carolina before he espoused the cause of the Latter-day Saints, and many of the thrilling experiences he passed through were related by the speaker. Elder Robinson read from fifth chapter of third Nephi, in the Book of Mormon, wherein the men are denounced whe say that God no more works by miracles or by revelation. The speaker traveled in North Caro-lina for three years, he presided over the conference, and met with all classes of people. During those experiences he had seen the power of God manifested. He had been delivered from the hands of mobs, by dreams and visions, and an instance of that kind was related by Elder Robinson. He was im-pressed with the idea that it was necessary to follow the counsel that is given him by the Priesthood. The faithful Latter-day Saints who have the testi mony that Joseph Smith was a Prophe of God, will know that the counsel comes from God. Instead of being a priestridden people, the speaker said that the Latter-day Saints were the freest people on the earth. He had freest people on the earth. He had never felt any undue restraint in his life, and by the help of the Lord he would continue to obey the servants of God. The speaker told how his prayers had been answered in asking the Lord to bestow the gift of tongues upon one of the Elders. The prayer was answered, and the Elder arose and spoke in tongues, under the power and demonstration of the Holy Ghost .

Elder Robinson related an in-cident of healing, where a young lady was possessed of evil spirits which were cast out in answer to fasting and prayer. The speaker testified that the power of the Holy Chost attended the Gospel, that this is the Church of Jesus Christ of Latter-day Saints, that Joseph Smith and his successors were Prophets of God, and that the signs of miracles, prophecy, healing, etc., follow the be-Elder F. F. Hintze, who recently re

turned from a mission to Turkey and Palestine, was the concluding speaker. He said that the Church of Jesus Christ of Latter-day Saints was the leaven that God had placed in the earth and that it would leaven the whole lump. The speaker stated that the moving off Port Gamble, a mill town thirty-five of some of the Saints in Zion to iwell and work among people in a scattered condition, is yet an unsolved problem. While in Turkey the speaker which had never been permitted before. They were printed in Armenian and Greek characters. There are only four five Elders in that country, so cannot cover much territory. While there is religious liberty in that country it is almost impossible to preach to the people. The Elders have not yet succeeded in preaching to the Mohammedans. The speaker, however, had met with and conversed with some of them, but, if generally voxed them. them, but it generally vexed them. Among them, however, are many noble people. The speaker said the Turkish Mohammedans were the best people he had ever traveled among. Their sense honor and purity was of the highes der. The Turks are a very diplomatic people, but their diplomacy consists in checking progress as enlightenment means the overthrow of their govern-ment, and with the destruction of the government, their church would fail.

The social evil that is prevalent among the Christians, said the speaker, could not be found among the Turkish people a few years ago, but the vices of the world are creeping is among them. The speaker went to much further length in describing the religion and character of the Arme-nians and the Turks. The Mohamme-dan missionary is meeting with greater the Christian missionaries combined.
The speaker said there was no question in his mind that Mohammed was an inspired man. That he was called of God to perform a mighty work, be-cause he had raised millions of people cause he had failed millions of people from a low form of worship to n very high form of worship. The Protestant missionaries also were doing much good as their teachings prepared the minds of the people to receive the Gospel. There are bundreds of Armenians who leave to the teaching of their respectively. who look to "Mormonism" for their re-temption, but under present condition they cannot join the Church. The speaker had gone over the country

where the Armenian massacres oc-curred, which were more horrible than he had conceived of. He had been in cities where thousands of men had been killed and the city completely sacked. In one city 10,000 men were killed. In

Ottoman bank, 5,000 people were killed. It was estimated that 120,000 lives were

lost during the massacre. the Gospel have received the gifts of the Holy Ghost. They have been given the testimony of knowledg and bear their testimonies as intelligently and fervently as any other people in the world. Not one native Saint was killed during the massacres. One man only lost his property, but all the others saved their lives and their property. In one city the Saints fasted a week and one city the Saints fasted a week and the trouble passed over them and none were injured.

The speaker closed his very interesting discourse by bearing a strong testi-

### AN OBJECT LESSON.

In a Restaurant.

A physician puts the query: Mave you never noticed in any large restaur-ant at lunch or dinner time the large number of hearty, vigorous old men at the tables; men whose ages run from 60 so years; many of them bald and all perhaps gray, but none of them feeble

Perhaps the spectacle is so common as to have escaped your observation or comment, but nevertheless it is an If you will notice what these heart; old fellows are eating you will observe that they are not munching bran crackers nor gingerly picking their way through a menu card of new fangled ealth foods; on the contrary they seem to prefer a jucy roast of beef, a proper-ly turned join of muiton, and even the deadly broiled lobster is not altogether

The point of all this is that a vigorous old age depends upon good digestion and plenty of wholesome food and not upon dieting and an endeavor to live ipon bran crackers.

There is a certain class of food cranks who seem to believe that meat, coffee and many other good things are rank dead. His wonderful vitality was not poisons, but these cadaverous sickly exhausted until vesterday, when he fell looking individuals are a walking con-

demnation of their own theories.

The matter in a nutshell is that if the stomach secretes the natural di-gestive juices in sufficient quantity any wholesome food will be promptly di-gested; if the stomach does not do so and certain foods cause distress one or two of Stuart's Dyspepsia Tablets af ter each meal will remove all difficulty because they supply just what every week stomach tacks, pepsin, hydro-chloric acid, distastes and nux.

Stuart's Dyspepsia Tablets do not act upon the bowels and in fact are not strictly a medicine, as they act almost entirely upon-the food caten, digesting it thoroughly and thus gives a much heeded rest and giving an appetite for

Of people who travel nine out of ten use Stuart's Dyspepsia Tablets knowing them to be perfectly safe to use at any time and also having found out by experience that they are a safeguard against indigestion in any form, and eating as they have to, at all hours and all kinds of food, the traveling public for years have pinned their faith to Stuart's Tablets,

All druggists sell them at 50 cents for full sized backages and any druggist from Maine to California, if his opin-ion were asked, would say that Stuart's Dyspepsia Tablets is the most popular and successful remedy for any stomach and successful remedy for any stomach trouble.
