of Jesus. In the eyes of the average burns in the evaugelical breast, and it It will be interesting and useful for "Christian" of the back woods sixty years ago, all this was "blasphemy" and should be wiped out, even by the hand of violence. The mobs that drove and robbed and murdered the Mormons were "Christians" of the same general type-rough, brutal, ig-norant' and fauatical-as those who murdered Hypatia, tore her body in pieces, scraped her bones and carried them as tokens of the triumph of "Christianity" over 'paganism." Added to the dreadful "heresies" of

the Mormous was the fact that they were industrious and frugal and whereever they settled they became prosper-ous. But prosperity, in a land where a raz r-back hog, three dogs, a pound of uigger-head tobacco and corndodgers for a week were cousidered about all that a "good Christian" ought to possess in "this vale of tears," was also an unpard, nable sin. Houce the Mormons were scowled upon, then talked about, then prayed against, then preached against and finally mobbed, murdered, robbed and driven, not because anyboly thought of their relation to the government, but be-cause they were "infidels" to the so-called Christians around them.

The only thing in addition to this that gave them trouble was their own apostates, nien who, because they could not get all they auticipated, set about destroying the church. In Kirtland the trouble came largely from apos-tates. Iu Missouri and Illinois apos-tates aided the "Christian" mobs. In Utah disappointed apostates are the eager supporters still of the anti-Mor-

mon priests. When the Mormons came to Utah they brought "civilization" with them, and though from 1851 on they were ntore or less harassed by officials who brought the old prejudice against them as heretics, they made so much pro gress that even such men as Colfax and Bowles, in 1855, fairly gushed in their praises of what the Mormous had done. Yet all the country knew that polygamy had been for many years a tenet of the Mormon faith. Congress knew it when it created the territory, and Fillmore knew it when he made Brigham Young governor. Plerce knew it when he reappointed him. All knew what the Mormon Priest-hood was, or all thought they knew. Yet powerful as it was, the nation gave the Mormons rights and privi-leges that the anti-Mormon Tribune ring of placean l-spolls-hunters have becu striving for twenty years to get away from them. If it was safe to let the Mormous vote from 1850 to 1870, when there were very few voters iu Utah who were not Mormone; if there the nation danger WAS ПО to their In Priesthood, then how comes it that today when the Tribune claims 75,000 "Gentiles" in Ulah, the danger of this Mormon Priesthood towards the government is so threatening that nothing but the disfranchisement of all Mormon voters of Utah will save the nation?

When the whole matter is thus carefully examined it becomes as clear as a May morning on the Wasatch crags, that the fight against the Mormons is is not because of any real or supposed danger that they will ever even be a seeks to do now by political intrigue what fifty years ago it was able to do by inciting mobs to riot, theft and 1 Brigham You murder.

The Salt Lake *Tribune* is the organ of that evangelical hate, backed by poli-ticians who see fat positions, and by adventurers who see possible spoils, in Utah.

Such is the real status of the case as Such is the real status of the case as seen by oue pair of unprejudiced aud unbought eyes. The anti-Mormon papers seek to break down the force of my work in behalf of truth and justice by charging me with being "hired," with being "paid" to write as I do. I think it is about time to settle that question, and as the NEWS and Herald do not seem discussed to say anything do not seem disposed to say anything concerning the matter, I will take the initiative myself.

So far from being hired by any person, or corporation, or church, or party; son, or corporation, or church, or party; so far from being paid by any person, or corporation, or church, or party for my letters in Salt Lake papers in be-half of American principles, fair play and the rights of the Mormons, the truth is that for the mouths and the labor I gave to the investigation of the whole subject. for the articles 1 have whole subject, for the articles 1 have furnished to home papers, 1 have never recoive a dollar or any other sum. Why do I do it? I do not know that I understand why. For years I fought for the rights of the Isabella Chippewas, paying money out, getting uothing and knowing that I should get nothing. People would tell me I was "a d—d fool" to spend my time "for a lot of lousy Injuns." In Salt Lake the gutter-snipe of the Tribune and others of his ilk call me still worse names and will now probably designate me as 'a d-d idiot," because I tell the truth for nothing when they can get good salarles for lying. The anti-Mormon papers here charge

me with being "poor" and in "want." That is a much blacker mark against them than me. Why must I do this work for nothing? Because such men are these soulless editors have been for years creating a wrong against an honest, innocent people. If there had honest, innoceut people. If there had been no scouudrels in Utah all these years there would have been up ueed of my work. But is it a crime to be poor? The greatest, noblest, best men and women of this world have been poor. At the same time, many of the dregs and precipitates of humanity bave been poor. The editorial curs that bark at my beels are poor. I will even venture to assert that there is not a man of them all who is not in debt to tailors, sboemakers and boarding houses. Neither poverty nor riches makes meu great. It is what men do with their riches, it is what men do to prevent the accumulation of riches, that counts them up or down. Judged thus, the possession of millions would not raise my defamers above the gutter of their own base natures.

CHARLES ELLIS.

## THANKS.

"A LIAR ought to have a good memory. This is for the information of the per-tiferous morning musance whose daily ontput is a libel on decency and morals."

That is from the Salt Lake Times It refers to the Salt Lake Tribune. Thanks. It saves us from saying anything further in reference to columns of contradictions, falsehoods, stupid questions and rash assertions, by which the Tribune seeks to dodge the issue of the subject which we have coudes. cended to discuss with it. In that, little paragraph is all that need be said.
