the work, which was now complete, and submitted the programme and a volume of abstracts.
Dr. A. Y. P. Garrett, chairman of the committee on arrangements, announced the social programme for the

THE SECRETARY

congress. It includes a confersatione this evening at the pension office, an informal reception by President and Mrs. Cleveland to-morrow, a lawn party by the Hon. Josiah Dent, a reception by Secretary and Mrs. Whitney, a buffet banquet at the pension office, a visit to Mt. Vernon upon United States vessels, and an excursion to NIAGARA FALLS. He said it was a source of regret and

embarrassment that the month of September had been selected for the congress, and the committee felt it its duty to explain the absence of that boundless hospitality for which Washington was so widely known. It was, he said, due to the absence from the city of so many of those who were at other seasons wont to open their loors to visitors. President Davis next introduced Secretary of State Bayard, who welcomed the congress to Washington in an eloquent address and said in part: "We welcome this congress as the guardians of the sanitation of the nations. In your profession we recog-nize the noblest school of

HUMAN USEFULNESS and in the progress of the develop-ment of the laws of cure, mitigation of suffering, prolongation of human existence and conditions by which life can be made worth living. We have learned to appreciate our debt to those whose highest reward is the still small roice of gratitude and the consciousness of benefaction to the human race. Gentlemen, I confidently promise your convention a worthy audience, not alone by the members of your profession here assembled, nor the limited number whom this building can contain, but that vast audience Ito whom, upon the wings of electrical force, your message will be daily borne far and wide to the listening ear of more than sixty millions of AMERICAN CITIZENS.

The welcome was acknowledged and esponded to briefly by Dr. Wm. Harris Loyd, inspector-general R.N., on behalf of Great Britain; Dr. Leon Laferte, of Paris, on behalf of France; Prof. F. J. Urna, of Hamburg, on the part of Germany; Sefior M. Semmola, of Naples, for Italy and Dr. Chas. Reythe government of Russia.

Dr. Urna spoke in German and Drs. Semmola and Laforte in French. President Davis, having called one of the vice-presidents to the chair, proceeded to deliver his opening address, at the close of which the presiding officer proposed a vote of thanks to Professor Davis, which was enthusiastically accorded, and then an-nounced the congress adjourned till

10 o'CLOCK TO-MORROW. There has been but one case of friction in the proceedings so far. Some days ago the committee asked Mr. Francisco Durante, of Rome, to answer in the name of Italy to the welcoming address. Later, when Senor Sem-mola arrived, he claimed as his right that he should make the respons resenting the government of Italy. The committee felt constrained to make the change and notified Professor Durante. This gentleman is much offended and has withdrawn from the congress. He claims that he is the representative of the government. The conversazione at the pension office this evening was attended by several thousand ladies and gentlemen residents here and by nearly all the
