DESERET EVENING NEWS ROUTE IN UTAH WEATHER REPORT.

Record at the local office of the weather bureau for the 24 hours end-ing at 6 a. m. today: Barometer reading at 6 a. m., 25.50

inches. Temperature at 6 a. m., 18 degrees; maximum, 38; minimum, 18; mean, 28, which is 2 degrees above normal

Precipitation for the 24 hours end-ing at 6 a. m., 53 inches. Precipitation since the first of the

month, 1.27 inch, which is .30 inch above the normal.

FORECASTS TILL 6 P. M. THURS-DAY.

Local forecast for Salt Lake City and vicinity: Clearing and colder tonight; Thurs-

day fair and continued cold. Utah (forecast at Denver, Colo.): Clearing and colder tonight with cold

south and east portions; wave in Thursday fair.

WEATHER CONDITIONS.

The barometer is highest over the North Pacific states, northern Rocky Mountain slope, upper Missouri val-ley and extreme northwest; and lowest over the middle plateau region and gouthwest.

Precipitation occurred over portions of Utah, Idaho, Nevada, Oregon, Mon-tana, South Dakota, Nebraska, Kansas Missouri, and Illinois. It was snowing this morning at Modena, and Salt Lake City, Utah; Rapid City, South Dakota, and Omaha, Nebraska; and raining at Kansas City, and Chicago, Illinois.

The temperature fell 10 to 22 degrees over portions of Nevada, Idaho, Montana, South Dakota, Nebraska, Minnesota, Kansas, New Mexico, Missouri and Manitoba; and rose 10 to 18 degrees over portions of western Texas, eastern Missouri and Illinois, with slight changes at other points.

R. J. HYATT,

Local Forecaster.

YESTERDAY'S RECORD

IN PRINCIPAL CITIES. Chicago, Jan. 20.—Temperatures at 7 a. m.: New York, 18: Philadelphia, 18: Boston, 16: Washington, 22: Chicago, 32: Minneapolis, 6; Cincinnati, 46; St. Louis, 54.

OF MOFFAT ROAD First Official Announcement o Plans of Promoters of Denver. Northwestern Pacific. RIGHT OF WAY AGENT TALKS.

C. C. Conkle Furinshes Some Interesting Information Regarding Operations Of Utah's Latest Road.

The Vernal Express to hand prints more solid information regarding the proposed Denver, Northwestern & Facific railway than heretofore has been published in Utah, While there have been columns of unofficial forecasts, plans for prospective operations and other matter in regard to the Moffat road printed, it is the first time that an official of the company has talked for publication in this state to the extent that there is something tangible forthcoming. The interview and story follow: C. C. Conkle, right of way agent for the Denver Northwestern & Pacific Railway company, known as the Mot-

fat line, spent Sunday in Vernal. Conkle is a very pleasant gentleman and talked quite freely, although conservatively about matters pertaining to the construction of the line which means so much to the people of Uintah county.

MET WITH OFFICIALS.

He met with a number of the county and city officials and prominent citizens around town during the day, and gathered a lot of data regarding resources, routes through the valley, etc., that is

of vital interest to the company. While Mr. Conkies duties are the securing of rights of way, he with all others holding prominent positions with the company are instructed to gather information whenever possible that will be of interest to the officials. His business on this occasion was for the pur-pose of inspecting the surveys being pose of mapecing the surveys being made by the surveying party that has been working from Strawberry this way. This camp, which consists of 18 men in charge of Engineer Rittenhouse, has now moved down to the Duchesne bridge on the Price road and will work from there this way. During the camp from there this way. During the camp moving and pending the preparation of some other work, Mr, Conkle took occasion to run over to town, and ex-pressed himself as being highly pleased

with what he saw and heard. During the day, in conversation with those he met, he was given every as-surance that the people of Vernal and Uintah county would do everything county would do everything possible to assist the company in mat-ters of rights of way, etc., across the county, and would welcome the coming of the road. Mr. Conkle stated that the company had already been im-pressed with the friendly feeling manifested by the people of this county, and

fully appreciated it. ROAD IS A SURE GO. DESERET EVENING NEWS: WEDNESDAY, JANUARY 20, 1904.

Route gave out the following interesting interview on Saturday in Los An-

"Since Senator Clark's recent order that the Salt Lake Road be finished within 12 months, we have doubled the rate of construction and are now

laying two miles of track a day. "Every man and team that we can find a place for is at work on the road. We hope to have the line completed by the first of next January, and are bending every nergy to that purpose. "If it were not for an annoying con demnation suit that the company has been forced to bring, trains would now be operated into Riverside. It may now take 60 days before this suit can be determined; as soon as it is settled trains will be operated to Magnolia avenue, and very shortly after that to San Bernardino via Colton, via South-ern Pacific tracks for local traffic. When overland trains are put on they

will go into San Bernardino via the Santa Fe and thence to Daggett over that line. "We calculate that the time between

this city and Salt Lake by the new route will be 22 hours, as against 43 by the present Southern Pacific line. This will bring almost all of the important north and eastern points that much nearer to this city."

RIO GRANDE SURVEYORS.

Party Working Near Cedar City on Extension to Iron Deposits.

mysterious party of surveyors is at A mysterious party of an the Paro-the present time working in the Paro-wan valley near Cedar City. A gentle-man from that town today states that the advent of the engineers is making the citizens feel exceedingly joyful. He affirms that the men are in the employ of th Rio Grande and are engaged in striking a line from Marysvale to the big iron properties recently acquired by the Colorado Fuel & Iron company in that section.

Mr. Edson Here.

Manager J. A. Edson of the Denver-& Rio Grande returned to Salt Lake this morning from a visit to Ogden. He spent the day in looking over the shops and situation here. Tomorrow he will inspect the Park City branch, after which he will return on his way back to Denver.

SPIKE AND RAIL.

It is now promised that trains will be running into Tonopah by May 15.

G. W. Martin, general agent of the Frisco at Denver, came in from the east this morning on No. 5. The Oregon Short Line has torn down the old ice house west of Sho-

shone depot and has erected another which is both larger and up-to-date. The Northern Pacific directors yes-terday declared a 1½ per cent quar-terly dividend, compared with the 1½ per cent and extra half per cent divi-

dend for the preceding quarter. The block signal system between

Ham's Fork tunnel and Opal on the eastern end of the Oregon Short Line in Wyoming has been installed and is now ready for use. The extension of the system will minimize the danger of accident to the numerous trains used in the transportation of coal from Kemmerer and Diamondville.

L. E. Myers, secretary and general manager of the Peoria & Pekin Terminal railway, yesterday secured an in junction restraining the annual meeting of the company. He asserted that the company removed the books from

Congratulations. Mr. John H. Cullom, Editor of the Gar-land, Texas, News, has written a letter of congratulations to the manufact-urers of Chamberlain's Cough Remedy as follows: "Sixteen years ago when our first child was a baby he was sub-ject to croup spells and he would be very uneasy about him. We began using Chamberlain's Cough Remedy in using chamberlain's cough Remedy in 1887, and finding it such a reliable remedy for colds and croup, we have never been without it in the house since that time. We have five children and have given it to all of them with good results. One good feature of this remedy is that it is not disagreeable to take and our bables really like it. Another is that it is not dangerous, and there is no risk from giving an over-dose. I congratulate you upon the success of your remedy." For sale by all Druggists.

doubt whatever concerning the con-struction, and the people of the county can rest assured that they will have the road in due time. The company is spending a great deal of time and money on preliminary surveys, as it is the intention to get the line just where they want it regardless of expense, and this necessitates some little delay. As fast as located, however, construction work will be pushed on the line. It is now the intention to locate the crossing of the Wasatch range in time to com-

mence work this spring, so that work can be progressing on both ends at the sama time When asked concerning the route through this section Mr. Conkle stated there were two routes under considera-The one by way of Vernal and tion. the Bear river canyon, which is one most favorably considered 114 1.116 now, and the other by way of Leland and Jensen and around the foot of

Blue Mountain. From the statements made by Mr. Conkle it is quite clear that the com-pany is very partial to the route by way of Bear river canyon and Vernal, and the key to the whole situation is the big gorge down Bear river. The feat the convertions that not how on this the big gorge down Bear river. The fact that everything just now on this part of the line depends upon the repart of the his depends upon the re-port of the surveying party working down the canyon, goes to show that no other route will be considered if a grade can be secured that way. Is-land Park, Mr. Conkle stated, had been made the initial point to which the en-glacers from both ways are to make gineers from both ways are to make their objective point, and they will be under instruction to exhaust every means of locating the route that way if possible. The reasons for preferring the canyon route are that it is directly on the line, it follows the water, affording a good grade. It will bring the line directly to Vernal and thereby maintain the elevation, and will furnish one of the most attractive stretches along the line.

Mr. Conkle's attention was called to the published maps which have shown the line by way of White river and Ouray, and was asked if there was any probability of that route being chosen. His answer was that if it was found necessary to go around Blue mountain, it would be no farther south than was absolutely necessary which would mean a crossing at Jensen.

a crossing at sense. The fact that the company shows an inclination to keep its line as far north as possible, augurs well for Vernal, and since the visit of Mr. Conkle there is a very optimistic feeling regarding the future of the town.

WILL MEET AT ISLAND PARK.

When asked when it would be definitely known which route would be chos-en. Mr. Conkle stated that the suren. Mr. Conkle stated that the sur-veying parties would probably meet at Island Park in 60 days and then after running a survey to the south of Blue mountain, the reports would be forwarded to headquarters and passed up-

It is the intention that Engineer Rittenhouse shall come to Vernal shortly, when he will be taken in charge by lo-

when he will be taken in charge by lo-cal parties and a trip made along the proposed route from Vernal west via the Uintah sup. In speaking of the work of construc-tion Mr. Conkle stated that the points of attack would be where the work was the heaviest at first, as the lighter grades could be constructed in a short time after the heavier parts were well on toward completion. Mr. Moffat has said that the policy of the road will be on toward completion. Mr. Moffat has said that the policy of the road will be said that the policy of the road will be to build up and not tear down the towns along the route, and the com-pany will not build rival towns for the purpose of injuring those already established. If the northern route is chosen and Vernal is on the main line, it will be up to the people of the town to decide where they want the depot, and the company will follow their wishes in the matter as far as possible. No, bonuses will be asked, however, and the company stands ready to pay

possession, refused to furnish him When questioned directly concerning a list of the stockholders and would the progress and prospects of the line Mr. Conkle stated that there is no not let him into the meeting. Myers built the road.

The people of Heber were startled by the scream of the engine last Monday evening. It aroused sweet recol-lections of former days. We began to wonder if the railroad company had been stricken with a pang of remorse and had concluded to give us a respectable railroad service once again. But, alas! it was the forerunner of no such good luck. The trip was made merely to clear away the snow, the banks of which were crowding the track too closely in places. The return trip was made Tuesday morning .- Wasatch Wave.

Little Girl Picked Up by Officer Under Distressing Circumstances.

A sad case of youthful misfortune came under the notice of the sheriff's office last night, when Marshal Michael Mauss of Murray found a girl about 14 years of age, standing on the Cottonwood bridge, stamping her feet and swinging her arms in an evident endeavor to ward off freezing. Her hair was gray and her eyes of a pinkish color-almost a type of albino. When found, she was chattering and laughing to herself, and gave other signs of weak-mindedness. The officer took her to a fire and gave her warm food, of which she ate as though half starved. She then told her story, saying her name was Josephine Taylor and that she had come with her parents from Nebraska to Provo. In the latter city both of her parents had died and being an orphan, she started to walk to Ogden, where her brother is employed on the Lucin cut-

The girl's attire was scanty, consist ing of a shawl, a boy's overcoat and thin underwear. Her shoes were badly worn and she would have undoubtedly perished had she not met the friendly

"Miss Taylor" was brought to the city and comfortably placed in the county jail. Sheriff Emery is investigating her story and if it is true he will ask the county to provide a home for her.
