BY TELEGRAPH.

AMERICAN.

**Wired from Washington**  
Washington, 29.—The President this  
afternoon appointed Edward A.  
Stevenson, of Boise City, Idaho, to be  
Governor of the Territory of Idaho,  
and William H. H. Murray, of Billings,  
Montana, Secretary of the Territory of  
Montana.

Julio R. Santo called again at the  
State Department today in connection  
with his claim for damages against the  
government of Ecuador. He will leave  
immediately for Ecuador to get up evi-  
dence necessary to prove the extent of  
his pecuniary losses, the unjustifiable  
nature of his arrest, the hardships en-  
countered by him and his family, and  
transmitted to the State Department  
of his complaint in the revolutionary  
movement.

Horace G. Jacobs, Assistant Super-  
vising Architect of the Treasury, has  
been ordered to resign, to take effect  
October 31. This act was entirely vol-  
untary on his part, and was taken in  
order to make room for the resignation  
of a Washington man. Jacobs is a  
native of Maine and has been in the  
Treasury since 1872.

The government of South Australia  
has made overtures looking to the ne-  
gation of a postal convention with the  
United States for the delivery of  
prepaid correspondence without addi-  
tional charge and for the establishment  
of a money order system between the  
two countries. This special con-  
vention is required because of the  
difficulty of the postal convention to  
government to enter the Universal  
Postal Union.

Register Rosecrans has recommended  
that the resignation of Charles Neal  
and Nathan B. Walker, chiefs of di-  
visions of the Treasury, be accepted to  
take effect Sept. 30th. Walker was  
chief of the tonnage division, which  
was merged into the bureau of Na-  
vigation when that bureau was es-  
tablished last year. Neal was chief of  
the Bureau of Commerce, which he  
now proposes to consolidate with  
the coupon division. Neal will be re-  
placed at that division by Mr. Thos. C.  
Sweitzer, chief of the bureau of  
Statistics, in preparing a codifica-  
tion of the laws governing the bureau  
with sundry other amendments for  
submission to the Secretary of the  
Treasury, with a recommendation for  
the Bureau of Commerce, which will  
be considered by Congress. It is fur-  
ther proposed to change the name of the  
Bureau of Commerce to the Bureau of  
Navigation, and also considering the  
recommendation that the Federal cen-  
sus be placed under the control of his  
bureau.

Base Ball for the National Pennant.

Chicago, 29.—The crowd which wit-  
nessed the opening game between the  
New York and Chicago ball clubs for  
the possession of the National pennant,  
was the largest ever gathered in a  
stadium, numbered 10,000, which exemplified, in a  
remarkable way, the interest taken in  
the result of the contest. The New York  
leaders in the league race, as the skies  
were threatening rain. Rain drops  
began to fall as the umpire called the  
bat in the first inning, but it did  
not interfere in any way with the pro-  
gress of the game. The crowd was  
evenly divided as spectators and hosts  
of admirers present, many of whom  
had had a very long wait for the  
game, and very many of the lead-  
ing Eastern and Western newspapers  
had representatives present. The  
crowd cheered the New York players  
whenever they made a good play, but  
became frantic in the first and ninth  
innings when the Chicago team made  
run-getting, and when the last man  
of the opposing club went out, the New  
York club appeared on the field  
preceded by the brilliant First  
Regiment Band, and immediately  
thereafter the Chicago players ap-  
peared in similar escort, both were  
rapturously cheered. The visitors wore  
their customary gray uniforms, which  
they retained as an object of good luck.  
The New York players presented their  
strongest playing front, with  
Ewing and Kelly, while the Chicago  
presented McCormick and Kelly, who  
reserved battery. The crowd was so  
large that it stretched alongside of  
the field, and special rules were  
adopted at the request of the New  
York nine, to the effect that any  
which reached into the crowd would be  
counted as a three base hit. The  
Chicago opened the game with a  
strong fashion. Dalrymple flew out to  
first base and Gore took the first base  
on balls. Kelly's base hit, which  
advanced Gore to second, and both were  
advancing another base on passed balls.  
Anson flew out to first base, and  
made a three base hit, Kelly and Gore  
coming home in the midst of terrific  
cheering. Williams, who had been  
base hit, bringing in Effer home. Burns  
followed with another base, William  
coming home. Burns was thrown  
out in trying to steal.

Death of E. Gerhardt.

Jersey City, 29.—On the 28th inst. a  
young man was found senseless in his  
berth on a sleeping car, when it ar-  
rived at Jersey City. He was removed  
to this city. He was removed to the  
city hospital, where he was found  
suffering from congestion of the  
brain. He died at 10 o'clock to-day.  
The cause of death was ascribed to  
recovery of consciousness. From let-  
ters found on his person, it was ascer-  
tained that he was E. Gerhardt, of  
San Francisco. He has a large amount of  
francisco and was on his way to Ger-  
many to visit his wife and children.  
He had signed her intention of making him  
her heir. His body was removed to the  
city morgue, and will be buried to-  
morrow and held to await the action of his  
friends.

Discharging Chinamen.

Seattle, 29.—The Chinese have all  
been discharged from the mines in the  
vicinity. Many of the Chinese in  
the mines are also displacing the Chinese  
in the employ of the miners. The  
trouble at the Franklin mine, which  
promised to be a serious outbreak,  
was avoided by the Chinese taking  
to their own homes and leaving the mines  
as requested by the white miners.

Their Skills Crushed with an Ax.

Galveston, 29.—The News' Austin  
special says: A horrible tragedy was  
perpetrated in the city of Galveston, Tex.,  
and a negro woman was brutally  
murdered by having her skull  
crushed by an ax. The victim was  
the wife of a Chinese laborer, who  
was employed at the Franklin mine.  
The woman was found lying on the  
ground, with a large amount of blood  
around her head. She was taken to  
the city hospital, where she died  
yesterday. The Chinese laborer, who  
was the husband of the victim, was  
arrested and charged with the murder.  
He is now in the city jail, where he  
is being held for trial.

FOREIGN.

Dreadful Floods in India.

LONDON, 29.—Dreadful floods cov-  
ering an area of 3,500 square miles  
have caused a great loss of life and  
property in the largest and most populous  
of the twelve princely divisions of British  
India. A great amount of property has  
been lost, and the crops, including  
cattle, and portable goods of every de-  
scription have been carried away by  
the floods. The government authori-  
ties are doing all they can to  
relieve the sufferers. False panic  
has been spread in Bombay and  
safe, roomy and accessible to all  
ships, was struck by a storm wave on  
Friday night, and about six miles  
west of most of the inhabitants perished.

BRIEF TELEGRAMS.

Alderman John Staples, F. S. A.,  
was yesterday elected Lord Mayor of  
Dublin.  
President Harris, of the Northern  
Pacific, has been seriously ill for sev-  
eral days, and is expected to die to-  
morrow. He was reported yesterday  
to be a little better.  
A San Antonio, Texas, dispatch says  
a committee of the Brotherhood of Lo-  
comotive Engineers will leave for New  
Orleans to-morrow to see Manager  
Hutchinson, of the Southern Pacific,  
to demand the release of several  
members of the Brotherhood who have  
been discharged at Houston, and in  
case of refusal it is proposed to order  
a strike on the road on October 29.

COAL! COAL! COAL!

A Tucson, Arizona, dispatch says:  
Advices from Yuma, say a courier  
arrived from Major Davis's command  
with the intelligence that on the 22d he  
had a fight with the Apaches, killing  
one hostile and wounding several. It  
is believed fully sixty hostiles were  
engaged. The command lost one scout,  
and the Indians were driven back to  
the mountains. Davis followed early  
this morning and was joined by Craw-  
ford and his scouting party.

COAL! COAL! COAL!

A dispatch from Mozambique re-  
ceived in London yesterday gives the  
details of a battle between the French  
and the Adamiirs, who are now at  
Tarafal, Madagascar, on Sept. 19th  
last, and claims the French forces were  
defeated. Howes occupied a strongly  
defended position, and the Adamiirs  
attempted to capture. After two hours  
of fighting, lasting fully two hours,  
the French were compelled to fall back  
to Tamatave, which they held in an or-  
derly manner with the loss of 30 men  
killed and wounded.

COAL! COAL! COAL!

Bains continue throughout the  
southern part of the republic of Mexi-  
co. On the Central Railway there are  
reports of 100,000 soldiers as they  
men in all, engaged in making repairs  
as fast as the rains will permit. It  
is estimated the cost between \$40,000  
and \$75,000 to repair the washouts. An  
iron bridge was washed away, the tor-  
rent sea of the river, and the bridge  
was destroyed, and the bridge on Thur-  
sday.

COAL! COAL! COAL!

A Prescott, Arizona, dispatch says:  
The information received from Clifton  
and Jerome, Arizona, is that the  
Tritle has issued a general order to-  
day calling out the militia for active  
service. Clifton is in command. General  
Clifton has sent out notices, warning  
the militia to be ready to start at a  
moment's notice, and to protect them-  
selves. A large body of hostiles  
are reported to be in Grant county,  
Arizona. Governor Tritle has tele-  
graphed Governor Ross of New Mexi-  
co to meet him at Albuquerque, where  
he will be to-morrow, and thence to  
Clifton.

CITY COUNCIL.

The City Council met in regular ses-  
sion last evening, Mayor Sharp pre-  
siding.  
M. Chadd, a cripple, was granted a  
license to do business for one year, free  
of charge.  
The report of Surveyor Jessie W.  
Boyer, Jr., showing a profile of the  
grades on Second Street, was  
submitted and referred to the com-  
mittee on streets and alleys.  
The report of the Police Justice  
for August was submitted; it gives the  
total number of cases tried as 108;  
disposed, 15 cases were referred to  
juries, 247. Referred to committee  
on police.  
The committee on finance to whom  
had been referred the petition of D.  
C. Dunbar, and R. E. Douglas, asking  
the City Council to purchase the  
respective discharges, reported in  
favor of purchasing two copies of  
the discharge for the Mayor's and police  
justice's offices; adopted.  
The committee on finance, to whom  
had been referred the petition of Mary  
Boyer, asking for a license to keep a  
watchdog without a license, re-  
ported in favor of referring the matter  
to the dog-tax collector, recommending  
that the license be granted, and the  
Mayor, regarding a subject of great  
interest to the people, was read as fol-  
lows:

COAL! COAL! COAL!

SALT LAKE CITY,  
September 29th, 1885.  
To the Hon. the City Council of Salt  
Lake City:  
GENTLEMEN: I respectfully call your  
attention to the report, July 27th, 1885,  
of the least committee on the water  
works and public grounds, relative to  
the purchase of the water works, which  
is made a part hereof, as fol-  
lows:

COAL! COAL! COAL!

SALT LAKE CITY, July 17th, 1885.  
To the Hon. the Mayor and City Coun-  
cil:  
GENTLEMEN: Your committee on  
waterworks and public grounds, to whom  
was referred the petition of Z. Snow and

COAL! COAL! COAL!

twenty three others, in relation to the  
establishment of water works in City Creek  
Canyon, and asking the Council to prevent  
the erection of any works at that point,  
and the diversion of water from City Creek,  
leave to report. That we have visited the  
locality and investigated the matter com-  
pletely, and for any purpose that will be  
land has been constructed on the east side  
of said creek a race about a half mile in  
length for the purpose of using water to  
furnish motive power, at a point immedi-  
ately above the old Empire Mill. Said  
parties claim that the diversion of said water  
is not for the purpose of running marble  
works, but for any purpose that will be  
destructive to the water in said creek.  
The committee, we understand, and  
that the increased demand for water  
from the mills has materially reduced the  
pressure in the pipes, and we think it nec-  
essary that a greater force should be ob-  
tained, so that water can be furnished to the  
inhabitants of this city, living on the higher  
lands, and that better means might be fur-  
nished for the purpose of extinguishing fires,  
etc. We recommend that the tanks, heretofore  
erected on the east side of said creek, be  
placed at a point high enough up the  
canyon to give, at least, double the force now  
in the pipes.  
To accomplish this purpose, we recom-  
mend that the Council be authorized to ac-  
quire for the purchase of the acquired water  
right of the parties owning the old Empire  
Creek, situated immediately above our pres-  
ent water tanks, before the erection of any  
other works at that point, and to take such  
other steps as may be in his judgment,  
it being necessary to preserve, intact,  
the old Empire Mill, and the old Empire  
unimpaired use of the waters of City Creek.  
W. W. SPIES,  
Committee on Waterworks and Public Grounds.  
ADAM SPIES,  
OSBO BROWN,  
HUGH WATSON,  
JAMES H. WELLS,  
Committee on Public Grounds.

COAL! COAL! COAL!

Upon investigating this matter it  
has been ascertained that the creek "Old  
Empire Mill property" and the "New  
Marble Works property" mentioned in  
the report are obstructions in the way  
of carrying out the designs of the  
Council in making the contemplated  
improvements in our water works. The  
lands occupied by the creek bed and  
adjacent thereto, beginning at a  
point immediately east of First Street  
Street opposite what is known as the  
"Old Blacksmith Shop," running  
easterly and northerly along  
said creek for a distance of one mile  
more, is now owned by Mr. J. C.  
Kingsbury of this city. Kingsbury's  
claim covers an area of about 25  
acres, and includes the "Old Saw  
Mill Water Power," the "Old Empire  
Mill Water Power," the "New Marble  
Works Water Power," and the large  
gravel beds formerly worked by the  
city for street grading purposes.  
The ground immediately above and  
adjoining this tract of land is owned  
by the city, and is used for street  
grading purposes, and is practically  
controlled by the city from that  
point to the north boundary line, a  
distance of about six miles. The  
water powers now established on  
the creek are a standing obstruction  
to the further development of our wa-  
ter works, and it appears to be nec-  
essary that the corporation should  
become possessed of the absolute  
control of City Creek in the inter-  
ests of the citizens.

COAL! COAL! COAL!

I therefore recommend to the careful  
consideration of the Council the prop-  
riety of negotiating for the whole tract  
of land owned by Mr. Kingsbury, that  
the corporation may be secured in the  
control of City Creek, and the large  
gravel deposits for the use and benefit  
of the city.

COAL! COAL! COAL!

I cannot too strongly urge upon you  
the necessity of early action in this  
matter, as I consider it to be of great  
importance to the future of our grow-  
ing city.  
Respectfully submitted,  
JAMES SHARP, Mayor.

COAL! COAL! COAL!

The communication was referred to the  
joint committee on waterworks  
and public grounds.  
A petition from the Dry Bench com-  
mittee stated that on March 31st, 1885,  
a committee representing the inhabi-  
tants of the Dry Bench, City of Salt  
Lake, petitioned the City Council,  
Twentieth and Twenty-first  
Wards filed a petition and a communi-  
cation in reference to obtaining a  
water supply, together with a report  
of C. L. Stevenson, civil engineer. The  
matter was referred to a special com-  
mittee, who have held several  
conferences, removing as they thought  
every objection urged against the plan.  
The committee stated that the inhabi-  
tants thought it was full time for them  
to receive an answer favorably or unfavor-  
ably, as it was unfavorable they  
might decide on what steps should be  
next taken. Referred to the special  
committee, with instructions to report  
at an early date.

COAL! COAL! COAL!

The Council appropriated \$1,000 to  
the contingent fund of the street sur-  
veyor.  
T. E. Taylor was granted permission  
to use the sidewalk in front of his  
premises for piling building material  
for ninety days, under the usual res-  
trictions.  
Council adjourned for one week.
