LOCAL AND OTHER MATTERS.

FROM THURSDAY'S DAILY, JUNE 28.

STAKE CONFERENCE.

The regular semi-annual Conference of the Salt Lake Stake of Zion will be held in the Assembly Hall, on Saturday and Sunday, July 7th and 8th, at 10 a. m. and 2 p. m. of each day.

ANGUS M. CANNON,
DAVID O. CALDER,
JOSEPH E. TAYLOR
Presidency of Stake.

Arrival of Glass.—The glass for the windows of Z. C. M. I. building, arrived yesterday and was being glazed to-day. Some idea of the weight of the entire lot may be formed by the fact that the case containing six of the largest squares for the front of the ground floor weighed no less than 5,000 pounds, including the packing.

Returned Home.—President Taylor and Cannon and party returned to the city from the south this morning, accompanied by Elders Erastus Snow and John R. Murdock. Elders F. M. Lyman and Jacob Gates stopped over at Provo and will be in town to-morrow. The party left Provo yesterday morning at half past six o'clock, stopping a short time on the way at Minersville.

Painful Accident.—Last evening Willie Foster, son of Brother W. H. Foster, met with a painful accident at the wood-turning shop. His thumb was caught at the first joint, in a small circular saw, while making scroll-work, cutting it nearly through. It is not improbable that the member will have to be amputated. The surgeon, Dr. Fowler, states that that matter will be decided in a day or two.

The Olsen Invention.—The new outboard boat invented and made by Andrew Olsen, is on the lake at Provo. We have had the pleasure of testing its behavior on the water, and pronounce it, so far as development, an unqualified success. It is a kind of propulsion, and flies over the water like a duck, is perfectly safe, and ahead of any other boat of its dimensions we ever saw for comfort and convenience. The passengers are a goodly distance above the water level, their feet resting on a genuine solid, horizontal floor, seated all around as if in a sailing car. Its form is such that any kind of awning or shade can be put on or removed at pleasure. If the principle of construction proves of as great utility on a large as on a small scale—and we do not see anything to hinder—the invention is one of the most striking of its line of any that has been patented during the last quarter of a century. It will indeed be a credit to an inland spot like Utah, should the genius through which a new principle in relation to ocean travel developed be in one of her citizens.

Foot Removed.—Yesterday Dr. Benedict, assisted by Dr. Pike, amputated the foot of Mr. J. C. Ferguson, of Deep Creek, at St. Mary's Hospital. It was what is known as a "fingers" operation, involving the removal of the entire foot, leaving the leg of the leg which terminates in the socket of the ankle joint, entire. The cause of the trouble was the cutting with an axe, while Mr. Ferguson was engaged chopping wood, several months ago, of the instep. The injury was not considered very serious and his ranch being removed to a place where a regular surgeon could be had, he was attended to according to the best understanding of the injured man and his

friends. The member gradually became worse, however, and Mr. Ferguson came to town a day or two since in the hope of obtaining relief from surgical assistance, little thinking that the removal of the foot was the only safe recourse. We learn from Mr. S. P. Teasdel, an old acquaintance of Mr. Ferguson's, that in the old times he used to be telegraph operator and receiver of grain, etc., at the old Wells, Fargo & Co.'s station at Camp Floyd, and that he is an intelligent man of exemplary and industrious habits. We sympathize with him in his misfortune and hope for his speedy recovery from the effects of the operation.

MESSRS. KEARNEY AND MAYBELL.

A FEW OF THEIR VIEWS ON LOCAL QUESTIONS.

This morning we received a call from Mr. Dennis Kearney, the noted agitator, and his friend Mr. Stephen Maybell, who are on their way to Chicago, being delegates to an anti-mormon convention to be held there on July 4th.

Mr. Kearney is a compactly built, healthy, vigorous, robust man, with strong convictions and a correspondingly emphatic manner of expressing them, and the man who takes him for a fool is exceedingly wide of the mark. He is capable of telling many solid truths, and the fact of his ability to express them is evidence of his comprehension of them.

He had heard a great deal about the "Mormons," and as in his experience the more good he tried to do the more he was lied about and maligned, he thought this might be the case with them, so to satisfy himself he had come to see with his own eyes. The evidence to him was overwhelming. The agitation against the "Mormons" was incited by "a lot of hungry public 'papsuckers,' and political hucksters, who had to be provided for by their friends who had influence at headquarters. It was not the interests of morality they were after, but they wanted to keep Utah out of the Union. If she was admitted their occupation would be gone.

Growing warm he exclaimed, "I must say that what prejudice I ever entertained against the 'Mormons' has melted away before the evidences of thrift, industry, order, sobriety and morality I see on every hand. Don't let them crowd you down. They can't do it if you don't let them. The drunkard, loafer, contemptible bummer can't get away with the man of industry and sobriety, so you are bound to be on the upper side, while the crowd of hungry 'papsuckers,' mark the word—'papsuckers'—grovel in their filth. Your people have elements among them that cannot be trampled out, so don't be afraid of the hounds."

During the delivery of the remarks, of which the foregoing is the pith, Mr. Kearney waxed warm, and ejaculated several phrases more conspicuous for force than polish, but he seemed most decidedly in earnest.

Mr. Maybell, who is evidently a man of considerable thought, remarked: "Since I came down here I have been quite lonely. I don't see any ragged urchins around. I have not met with anybody who has asked me to go into a gambling hell. There are so many things of that character that I have not met with here that exist in shoals in almost every other place that I really feel in another atmosphere. I scarcely know what is the matter. As to your political position here, it's a good deal like that of the English dependencies. For instance, all the public papers are in use in the 'Old Country,' so they send their papless suckers out to Egypt. That country objects to the immigration of the hungry horde, and then there's war on Egypt. If Utah had her right of statehood, one of the pap providers would be extinguished and an open place must be kept for these political leeches who raise the anti-'Mormon' howl."

Both our visitors expressed their views on various other subjects, but

the foregoing was the gist of their remarks upon matters of a more immediately local interest.

FROM WEDNESDAY'S DAILY, JUNE 27.

Wasatch Stake.—President Abram Hatch, of Wasatch Stake, is in town. He reports crop prospects in that part of Utah such as have never been previously surpassed. Two fatal cases of diphtheria occurred at Heber City recently, but it is believed the malady will not spread, ample precautions having been taken to prevent it.

Case of Insanity.—This morning an insane woman was brought up from Payson and taken to Dr. S. B. Young's asylum. Pending her removal to that place she was at the City Hall a short time, where she cut up all kinds of capers, such as singing, dancing, and making various incoherent remarks. It is a very decided case of insanity, of the demonstrative, but not especially dangerous type.

Barn Burned.—About 3 o'clock this morning a barn belonging to Mr. J. Johnson, of the Eleventh Ward, took fire and was totally destroyed. The firemen hastened to the spot, but were too late to do more than extinguish the embers. The building was valued at \$200, besides furniture amounting to \$70 and a box of clothing, \$200; total loss \$470. Mr. Johnson was absent from town at the time the fire occurred. It is supposed to have been the result of incendiarism.

Anniversary of the Martyrdom.—To-day is the 39th anniversary of the Martyrdom of the Prophet and Patriarch, Joseph and Hyrum Smith, who were cruelly murdered by a mob, mostly composed of sectarian religionists, who disguised themselves by turning portions of their clothing and blackening their faces. One witness—President John Taylor—of the terrible scene of Carthage, Illinois, still lives, although shot on the occasion with four bullets, and supposed at the time to be mortally wounded.

New Time Table.—A change in the time of running trains on the Utah Central Railway will be made July 1st. The time table between this city and Ogden will then be as follows: Leaving Salt Lake—Pacific Express, 5.40 a. m.; Atlantic Express, 7.15 a. m.; Park City Express, 8.40 a. m.; Mail and Express, 8.25 p. m.; arriving in Ogden at 7.00 a. m., 8.40 a. m., 5.30 p. m., and 7.55 p. m. respectively. Leaving Ogden—Pacific Express, 5.50 a. m.; Atlantic Express, 8.50 a. m.; Park City Express, 10.30 a. m.; Mail and Express, 6.10 p. m.; arriving at Salt Lake at 7.10 a. m., 10.20 a. m., 12 m., and 7.40 p. m., respectively. Passenger trains south of Salt Lake City: Leaving Salt Lake at 8 a. m.; arrive at Provo at 10 a. m.; at 3.05 p. m., arrive at Juab at 7.20 p. m. and at Frisco 8.30 a. m. the following day. Leaving Provo at 4 p. m., arrive at Salt Lake at 6 p. m.; leaving Frisco at 4 p. m., Juab the following day at 4.35 a. m., arrive at Salt Lake at 9.12 a. m.

Incorporated.—To-day the necessary number of the corporators of Zion's Benefit Building Society appeared with their attorney, Chas. W. Stayner, Esq., before His Honor Judge Elias Smith, and duly executed the necessary documents of incorporation. The Judge approved the bonds of the officers, and announced that he would deposit the Articles of Incorporation with the Probate Clerk for record, and that in due time the certificate of incorporation would issue to the Society. We understand that the Directors of this institution will be ready to open books, issue shares of stock and receive applications for loans, on the second Wednesday in July—that being their first regular business meeting day, according to the by-laws.

We congratulate the society on its successful incorporation, and on the favorable auspices under which it has commenced its legal existence. We may safely predict a sphere of usefulness and profit for the society, and that it will prove to be what its name implies, a "benefit" to its members, and especially to those who belong to the working classes.

FROM THURSDAY'S DAILY, JUNE 28.

Through Pullmans.—On and after Sunday, Pullman cars will be run right through between Salt Lake and Omaha, on the U. P. and U. C. roads. At present they only reach Ogden. This change will be quite an accommodation to a large proportion of the traveling public.

Reduction of Fares.—By advertisement in another part of the paper it will be seen that the D. & R. G. Ry. Co. will, from July 1st until further notice, make a reduction of from \$4 to \$7 each on first and second class passenger tickets to Pueblo, Denver, Omaha, Council Bluffs, Pacific Junction, Kansas City, and all points East.

Contemplated Improvements.—A number of improvements are about to be made in connection with the Thirteenth Ward Assembly Rooms. The vestry at the rear, which is now but one story, will have an upper one added for the purpose of providing a suitable hall for the use of the Relief Society.

It is also contemplated to put an iron railing in front of the grounds, make a nice lawn and plant out a number of trees, and altogether to render the surroundings more inviting and attractive than at present.

The Cache Excursion.—Bishop F. Kesler and Counselors, of the Sixteenth Ward, accompanied the excursion party from this city to Cache on Tuesday. The Bishop says it was a fine company, and the journey was very pleasant, plenty of accommodations being afforded by the officials of the U. C. and U. & N. Railroads.

The Bishop visited the Temple at Logan, going over it all, and was delighted with its appearance and all connected with it. Several people of his ward learning that he was going north, handed him various sums to take as offerings, aggregating \$85.05, which he handed over to the superintendent of the noble structure.

A Diversity of Charges.—The young man who was arrested the other day for creating a disturbance on the Utah and Nevada Railway train running between here and Black Rock, was before Justice Spiers to-day. For assaulting Mr. Jacobs he was fined \$20; creating a disturbance of the peace \$10, and for assaulting U. S. Deputy Marshal Greenman he was sentenced to imprisonment for five days. He was also bound over in \$200 to keep the peace toward the people of Utah generally and Mr. Charlton Jacobs specially, besides having to pay all costs of proceedings. This runs up a very heavy bill, but doubtless the Court in its decision took into consideration that a disturbance upon a train is a much more aggravated character than the same kind of conduct under ordinary circumstances.

Wants Them Wiped Out.—The editor of the Salida, Colorado, Mail is evidently a man of parts. No half way measures about him. He says:

"The growth of Mormon colonies in Colorado should receive the attention of the next General Assembly of the State of Colorado and some method should be adopted to wipe them out."

This mild-mannered man gives no proper reason for the necessity of the wiping method, and offers no suggestion as to what kind of a wiper should be used. People who exhibit the trusty, thrifty, solid, substantial traits of the "Mormon" people are not easily wiped out, and if the Mail editor thinks otherwise let him wet his rag and try to do it. It takes a large extinguisher to cover a lot of thriving colonies. The Mail editor may be a tolerably good fellow, but he should learn to think before he scribbles and save himself from appearing in a foolish light in the eyes of the sensible.

DESERT LAND PATENTS.

UNITED STATES LAND OFFICE,
Salt Lake City, Utah,
June 28, 1883.

The following Desert Land Patents have been received at the U.

S. Land Office, and are now ready for delivery to the proper parties:

67 Byron W. Brown,	68 Thos. H. Nott,
69 Paul Bens,	69 Sam'l Jenkins,
72 James Goats,	100 Thos. Wallace,
76 Wm. P. Nebeker,	101 David Moore,
78 Harrison Severe,	102 D. W. Grant,
81 Thos. P. Page,	106 Elias Smith,
82 Oscar Wilkins,	109 Wm. Bond,
83 Abel W. Garr,	112 W. K. Walton,
86 Hopkins Mathews,	120 Wm. H. Schock,
89 Thos. Read,	125 Wm. F. Darley,
93 Jacob Gierisch,	129 R. Richus,
96 J. E. C. M. Rob-130	137 Geo. Eastman,
wer,	

A GOOD GIFT.

A RICH MAN DOES A COMMENDABLE DEED.

We have accidentally stumbled upon something that Brother Ferramor Little has been doing. Seeing that it is connected with a matter of a more or less public character, we take the liberty of telling it without asking his permission.

Some time since, he called upon Bishop Atwood, and Counselors Empey and Platt, of the Thirteenth Ward, of which he is a resident, and informed them he wanted to put up some houses for the worthy poor in that locality. Accordingly the site was selected, being at the rear of the Assembly Rooms, and the building is now in an advanced stage of progress. It is in the form of a neat, substantial block, the ground measurement of which is 56 by 25 feet, and two stories high, the material used being brick, with stone foundation. The structure will contain sixteen rooms, divided into several tenement residences with independent entrances. The ceilings are lofty and everything about the building will be substantial and good.

Brother Little hands over the building to the custody of the Bishopric of the Ward, as a free donation for the benefit of the worthy poor to be used in that connection by them in whatever way they may see proper. The gift does honor to his head and heart, and will stand as a lasting monument of his benevolence. This is one of the many proper uses to which means can be put, and of a character to cause the donor to survive in the hearts of the people long after he has been gathered with the unnumbered dead.

A boy with a top tried to spin it, but his hand got a thorn right in it, the sport didn't spoil, for St. Jacobs Oil, cured his hurt in less than a minute.

A red-haired clerk in Savannah, slipped on a piece of bananas, great pain he endured but St. Jacobs Oil cured, he now goes dancing with Hannah.

ROYAL
FULL WEIGH
ROYAL BAKING POWDER
ABSOLUTELY PURE

ROYAL
BAKING POWDER
Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight, alum or phosphate powders.
Sold only in cans. ROYAL BAKING POWDER CO., 106 Wall Street, New York.
