

Although bldding was lively among the unlisted stocks at the open session of the stock exchange this morning, it was a noticeable fact that but one lonesome sale marked the curb trad-ing. Generally speaking the prices were better maintained among the un-listed stocks than among those called at the resultar session Oble Conner being Tetro, 1,700 at 13½. Tintle Cent., 2,500 at .08; 3,000 at .08¼, buyer, 60; 3,000 at .08, buyer the regular session, Ohlo Copper being i notable instance of strength of price without demand, the stock being held ut 35.25 against a bid of 35.10. Federal Ely was offered at 31_2 and a bid of 16 marked the call of Phutus. Bingham Central Standard was offered at 3260. Uncle Sam, 500 at 10; 400 at 68; 3,100 at 67. Utah Con., 2,000 at 22. lames Ezra Thompson and J. C. Lynch spent a part of last week visiting Ploche, and returned very much en-thused over the prospects at present on the horizon of the old camp. more active officers of the company be-came large and important people in the community. The company prospered, and several rather large local inves-tors took over considerable blocks of the Selby Con. Among those who were taken in was Capt. J. B. Menardl, a well known business man of Reno, and it was through his investigations, recently that exposure of the methods persued by the promoters was brought to light. Capt. Menardi now makes the as-sertion that the mine was salted and claims to have a confession from the sertion that the mine was salted and claims to have a confession from the foreman, which implicates Gee, the superintendent, and Engineer Werner, in the picing of high grde ore from other mines, in the workings of the Selby Con., for display purposes, by means of which the unsuspecting public, which was graclously allowed to view the wonders of the great mine, was mulct-ed of many thousands of dollars. Considerable surprise is felt at the implication of Emerson Gee in this mess, as his standing in Reno and oth-er Nevada towns has always been of er Nevada towns has always been of the best. He is especially well known in Mazuma, in the Seven Troughs dis-In Mazuma, in the Seven Troughs dis-trict where he recently completed the erection of the Mazuma mill. Reno has two daily newspapers, the Nevada State Journal, and the Reno Evening Gazette, both of which run mining pages, and while the Selby Con-solidated is but a few miles distant, and easy of access, neither paper seems ever to have examined the prop-erty, wet the columns of both have criv, yet the columns of both have constantly contained glowing accounts of the riches being discovered in the Selby Consolidated.

The bid for Ely Witch was 23 cents, against the offering of 25, and 15 cents was offered for Standard Copper with-put a return quotation. It seemed that the bid of 13 cents for Mineral Flat was close enough to the offering at a half a point higher to have induced irading, but there was nothing doing trading, but there was nothing doing and the offer of McDonald Ely at 25% cents received no answering bid.

A DULL MARKET.

Sales were unusually light on the stock exchange this morning, and the market showed a weakness not noticed for some time past. There was no evilence of strength, either in price or de fence of strength, either in price or de-mand, and the general belief is held that the coming holiday season has tast its shadow before, as it always foes. Should this, after a few days prove to be the correct supposition there will be no revival till after the time of fostivity is passed

time of festivity is passed. Only a few sales marked the boards this morning, and none of these noted the transfer of more than small lots of stock. Prices, while showing a corresponding tendency to sag, were unmarked by any severe losses.
