LONDON, 29.—The latest number of the *Nineteenth Century* contains an article by Arnold Forster which has created a sensation here. The writer recalls that Irishmen were at the bottom of the Molly Maguire conspiracy in Pennsylvania; that Irishmen plotted against the officials and the Chinese in San Francisco; that the Tammany ring was largely supported by Irish-Americans, and that the Boston police were tampered with by the Irish politicians of that city. The history of the world shows, he says, that the Irish engage in conspiracies wherever they may be, and he advises that the English government exercise firmness in its treatment of Ireland, as otherwise a conquest of that country will be necessary.

LONDON, 30.—The *Times* Athens correspondent telegraphs that the King of Greece has become tired of the politics of the Athenians and especially of their present bellicose attitude respecting the Bulgarian question and that His Majesty will likely soon abdicate and retire to Copenhagen.

A dispatch to the *Daily News* from Madeira, states that a German vessel which arrived there from St. Helena reports that a terrible mutiny took place on board the American ship *Frank N. Thayer*, Captain Clark, from Manila, Oct. 31, for New York, which was before reported as burned at sea. The mutineers are said to have murdered some of the officers and then to have set fire to the ship.

LONDON, 30.—Gladstone, who was summoned by Queen Victoria to form a cabinet, will visit Her Majesty at the Royal Palace at Osborne on Monday.

Six houses on Holloway road collapsed to-day. Five passengers were instantly killed, and a number of others were injured.

LONDON, 31.—The Press Association states on authority that Lord Hartington will not join the new cabinet.

TRAFALGAR, 31.—A party of moonlighters last night attacked a process-server named Rae, aged 70 years, cutting off one of his ears and a portion of one cheek.

PARIS, 31.—A dispatch from Tonquin says that the public telegraph line has been opened to Langson.

BRUSSELS, 31.—In the latest collective note the powers agree to prevent any warlike steps in the Balkans or territorial modification.

LONDON, 1.—Gladstone received an ovation on his arrival at Portsmouth. He made remarks thanking the people for their cordial reception and saying his future (political?) life was certain to be very short.

Gladstone left Condon this morning for Osborne in response to the command of the Queen. At the railway station he was greeted with cheers by the people gathered there and smilingly bowed his acknowledgments. He will return to London to-night.

Gladstone has arrived at Osborne, and has received the personal command of the Queen to form a Cabinet. It was officially announced this afternoon that Gladstone kissed the hands of Her Majesty on receiving her command. Both Houses of Parliament met to-day and adjourned until Thursday, pending the formation of a new Cabinet.

ROME, 1.—A panic has been caused at Massowah by the report that Osman Digna is advancing on the town with a large army.

Eight cases of cholera are reported at Battaglia near Padua.
