

NICARAGUA MUST BEHAVE

United States Probably Will
Notify Her That Henceforth
Peace Must Prevail.

MORAL SUASION A FAILURE.

Washington Authorities Convinced
That Dispatches from American
Charge Have Been Mutilated.

Washington, April 8.—Nicaraguan mutilation of official dispatches to this government and continued grave conditions in Central America are under the closest consideration by the Washington government. Investigations have convinced the officials here that cipher dispatches passing between John H. Oregan, the American charge at Managua, Nicaragua, and the state department at Washington, were purposely mutilated.

It would not be surprising, in view of the unsatisfactory conditions, if the American government should take active steps to end the existing state of affairs in Central America and notify Nicaragua that henceforth peace must prevail at all hazards. Moral suasion with Nicaragua has failed to accomplish the objects sought—that of impressing her with the danger both of the United States and Mexico that there be a cessation of the conditions which keep Central America in a constant state of anarchy. Intervention in the Central American affairs has been talked of unofficially.

American war vessels are retained in Central American waters, and only yesterday the cruiser, North Dakota, sailed from Magdalena Bay for Amapala, Honduras, in which some of the naval activity maintained by Nicaragua has manifested itself.

An interesting insight into the political situation in Central America became known today. Some time ago the dispatches indicated that Nicaragua had intentions of involving Costa Rica, which has not been engaged in any of the embroilments which have characterized the history of Central America. It now appears that an election was about to be held in Costa Rica at the time, which leads to the inference that Nicaragua's reported attitude towards her was but part of the working out of a political plan which has been associated with the reported ambition of President Zeledon to become dictator of the destinies of Central America.

The government has felt particularly annoyed over the mutilation of Minister Gregory's dispatches. Diplomatic communications are said to be impossible and any interference with them is serious.

CHILD CHARGED WITH MURDER

Union, S. C., April 8.—Though only 8 years old, Fred Bell is a prisoner in the Union county jail with the charge of murder resting against him. It is charged that the child shot Ethel Thomas, 3 years old. It is said the boy tried to hide the body of the little victim in an apparent effort to cover up the tragedy.

BIG DIAMOND DISCOVERIES.

Berlin, April 8.—The latest intelligence from German Southwest Africa says the discoveries of diamonds at Luderitz bay are more important than at first supposed. Diamonds hitherto have been picked up on the sandy desert, but attempts to bore for water led to the finding of blue earth pockets containing diamonds similar to the Kimberley and other South African stones.

COTTON STALKS PAPER.

Cordoba, Ga., April 8.—The beginning of a new industry in the south was signalled here today in the announcement of a contract by the city authorities to furnish land for the erection of a mill to make paper from cotton stalks. The mill will be the first of its kind.

DRYING OUT MICHIGAN.

Cincinnati, O., April 8.—The drying out of 29 Michigan counties in the local option election this week, will cost

ILLINOIS WOMAN MAKES REMARKABLE RECORD

Picks Eighty-Five Gallons of Berries Besides
Performing Regular Housework.

Mrs. Anna Moring, R. F. D. No. 1, Box 25, DeKalb, Ill., relates an interesting experience with the Cooper berries, which have grown largely into popular favor during the past few years and are now in season.

"For years I have suffered agony from stomach trouble, always experiencing severe pain immediately after eating. I had a very poor appetite, and often went without my meals in order to escape the distress that was sure to follow. My digestion was bad, I was troubled with gas on my stomach, and my bowels were in a wretched condition.

"I tried everything I heard of to an effort to get relief, but could find nothing that would help me. I became weak, run down and generally distressed. I could do scarcely any work and felt miserable all the time. I had no strength—everything was a drag, even my very existence. I could not sleep, and was so nervous and out of heart that I hardly seemed worth the living.

"Having read several announcements of the Cooper berries, I was finally so impressed with the claims of L. T.

Cincinnati liquor interests a large amount of business annually. I believe it will be safe to estimate the loss at about two millions a year," said a wholesale liquor dealer in a discussion of the liquor situation at the chamber of commerce here. "There are probably 20 millions of dollars invested by whiskey interests in this city. Cincinnati is the great liquor center of the country and feels the prohibition wave most keenly."

This city supplied the larger part of the liquor consumed in the Michigan counties.

CRUEL FATHER SENTENCED.

Atlanta, Ga., April 8.—James Strube was yesterday sentenced to the city workhouse for two weeks on a charge of hitting and pinching his 16 months' old boy. The child was brought into court by its mother with its left cheek badly bruised.

Strube admitted that he hit the baby and said he did it to torture his wife, who, he said, had become indifferent to repeated beatings at his hands.

SIMPLIFIED SPELLING.

New York, April 8.—Simplified spellers are on their way home today, that is, those who live outside New York and it will be another year before they gather in convention. The simplified spelling board adjourned at the Waldorf-Astoria yesterday after discussing ways and means of further impressing the public.

Among the suggestions are a sufficiently simplified spelling book, monthly magazines for simple spellers and a horde of spellbinders whose duty it shall be to carry on the work like unto temperance crusaders. The board went on record as approving the suggestions.

BOY KILLED BY PLAYMATE NOT BY PRAIRIE WOLVES

Harper, Kan., April 8.—Willie Hotchkiss, 10 years old, who was reported killed by wolves near here yesterday, was really slain by his playmate, George Nichols, 16 years old, according to a confession made by the latter tonight. Young Nichols said he accidentally shot the Hotchkiss boy and invented the wolf story because he feared to tell the truth. Coyotes were found around the body and this helped make Nichols' story plausible.

DEPENDABLE PROPRIETARY MEDICINES.

It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for thirty years, and today hold a record for thousands upon thousands of actual cures, as has Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.

REWARD FOR MURDERERS.

Helena, Mont., April 8.—Gov. Norris today issued a proclamation in which he offers a reward of \$500 for the apprehension and conviction of the person or persons who murdered Mrs. J. A. Crisp and P. A. Teas of Madison county, Montana. The crime for which the reward is offered was committed on or about Feb. 28, 1908, since which time all efforts of the state authorities to capture the perpetrators have failed. The governor's action in offering a reward is in response to a petition signed by a large number of people residing in Madison, Jefferson and Gallatin counties. The proclamation states that the offer is to be in full force and effect for a period of six months from this date.

CONDITIONS UNSATISFACTORY.

London, April 8.—A special dispatch from Messina to London newspapers declares that notwithstanding reports to the contrary, the king and queen, who recently visited the earthquake districts, are greatly displeased with the small amount of work so far accomplished.

No attempt has been made to clear away the ruins and there is no water supply, proper sanitation or the means of transit.

Hundreds of wretched survivors, the dispatch says, are still dwelling in misery in huts which they themselves have erected, or in broken down railway carriages.

ELPHANT KILLS KEEPER.

Des Moines, April 8.—"Tom," an elephant in a circus here, tonight, ran amuck, and seizing his keeper, Charles Butler, hurled him high in the air, and when he fell, trampled him to death. The beast then ran through the animal park, uprooted small trees, destroyed three circus wagons and demolished a bridge across a lagoon. Forty bullets were fired into the elephant before it was subdued.

NEVADA DIVORCE WILL MAY STOP

Decision Handed Down That
Spreads Consternation in Di-
vorce Colony in Reno.

ONE CASE SHOWS COLLUSION

To Secure Benefit of State Statute
Parties Must Be Bona Fide
Residents.

Reno, Nev., April 8.—Consternation reigns supreme in the divorce colony in this city. An opinion was handed down this afternoon by Judge Orr of this judicial district so far-reaching in its effect that it has created a general opinion in this city that the divorce mill will stop grinding.

It was held in the case of Minar against Minar that an attempt to perpetrate a fraud on the court was committed by the plaintiff and defendant entering into collusion for the purpose of giving the court jurisdiction. The Minars are residents of Los Angeles. Mrs. Minar came here a few days before the trial of the case. Minar followed her by only a few days, and remained but one day, and while here was served with the papers. It appearing on the trial of the case that he came solely for that purpose, the court held that such action and collusion removed the cause from the jurisdiction and it was dismissed.

In the case of Howard against Howard it appeared that Mrs. Howard had been in Reno three months before she started her case. Her husband came here on business and was surprised by a summons on him.

The plaintiff urged that she was entitled to a decree under the provision of the statute, which says, "Whenever the defendant resides or may be found in the state." This clause for jurisdiction by the court, and the court held that while it might be that a person could acquire a residence in one day, evidence strong as to overcome any doubt must be presented in support of that contention.

Touching on the language of the statute, Judge Orr said that he did not construe it to mean that this throw the courts of Nevada open to the world so that people might come here, stay a day or so, the plaintiff start the action, the defendant come in and be served and thus confer jurisdiction on the court. He added:

"If such were the intention, then I must say that Dakota, by her failure days could not approach the mark that Nevada will make in her divorce courts."

His conclusion is that this interpretation of the statute applies only in the case of bona fide residents who have served in whatever jurisdiction he may be found in the state.

This, lawyers say, would seem to settle the Northern case, which is almost identical. Judge Pake is one of the justices who heard arguments in that case only recently, and he has reserved decision.

At the present time there are at least 50 men and women in Reno who have already applied or are preparing to apply for divorce here.

A FAITHFUL DOG.

Traveler Afoot from Louisiana Back
To Illinois to Old Master.

Champaign, Ill., April 9.—From Louisiana to Sudors, a village in Champaign county, was the long distance traveled on foot by a bird dog, which was sent by the master of the house, William Horn, to find his master, William Horn, who had been with bleeding feet. Last February Horn gave the animal to Henry Good, who took him south. The animal evidently missed his old master and home, and ran away. The Louisiana man has been written to for full particulars, as the dog was transported south in a box car.

DETECTIVE BEATEN BY TARPIS

Chicago, April 8.—After having been beaten into insensibility and shipped in a box car to Elkhart, Ind., by a party whom he had been employed to arrest, James Dalton, a special detective of the Lake Shore railroad, has telegraphed his whereabouts, saying he will return as soon as his bruises permit. His curiosity aroused their suspicions and the whole gang attacked him. He was hauled into the freight car bound for Elkhart, where he was found unconscious.

TO PROTECT BABY CHICKS.

Chicago, April 8.—The anti-cruelty society has entered a protest against the sale of baby chickens as Easter gifts by the large department stores and florist firms. In New York the Humane society recently suppressed the practice.

"The boy victims invariably fall in to the hands of children, who thoughtlessly abuse and neglect them so that the fledglings die a miserable and lingering death," said George L. Warner, president. "There can be no true education in such a result and the gift itself is debased and abused."

A BATH FOR EVERY PUPIL.

Chicago, April 8.—"A bath for every pupil in the elementary schools once a week—if he needs it," is the motto under which the board of education is proceeding in an unprecedented movement for personal cleanliness in the schools.

The work of installing new bath-rooms will begin immediately.

LIVED 104 YEARS.

Chicago, April 8.—Mrs. Margaret Doyle, 104 years old, is dead here of a general decline due to advanced age. Mrs. Doyle declared that the secret recipe for a long life was "not to think about death" and often predicted that by this method she herself would live to be more than 100 years old.

MOVEMENT IN INTEREST OF DESTITUTE MOTHERS

Los Angeles, Cal., April 8.—Her sympathies moved by what she witnessed as the wife of an epileptic man, Mrs. Baker P. Lee has determined to start a movement in the interest of destitute mothers which is destined to become national.

Mrs. Lee has collected under her banner Mrs. Chalmers Smith, president of the mothers' congress, which has some 200,000 members, and has been successful in the collection of cases have been collected, but the board of charities beyond the ability to adequately supply, and the "mothers' fund," as an annual part of the "mothers' day" celebration undoubtedly will prove, says Mrs. Lee.

one of the most sacred charities to which the people have contributed.

Mayor Alexander, in the interest of the new movement, has issued a proclamation setting aside the second Sunday in May to be known as mothers' day.

Gov. Gillett has been requested to issue a proclamation to that effect, calling on the people of every city in the state to take up the "mothers' fund." On Sunday afternoon, May 9, mothers' day, a grand mass-meeting will be held in the Temple auditorium. Among the speakers who have consented to talk are Bishop Joseph H. Johnson, Rabbi S. Hecht and Bishop Conroy.

WIDOW BALDWIN WANTS THREE THOUSAND A MONTH

Los Angeles, Cal., April 8.—Mrs. Lillian Bennett Baldwin, widow of the late E. J. (Lucky) Baldwin, has made an application in the probate court for a monthly allowance pending the return of the inventory of the property left by her husband and Judge Jones signed an order giving her \$3,000 a month until that property is completed.

The petition recites that Mrs. Baldwin has no estate of her own, that she is dependent for her support upon the estate of her deceased husband, who died March 1, 1908, at Arcadia.

She was represented by local attorneys and did not appear in court.

ELECTROPODES
The New Electric Treatment
Electricity, applied by means of Electropodes, recharges the system with new life, energy and vigor. It makes many men of weak men, and fits them for a successful social and business career.

Electropodes cure Rheumatism, by absorbing the toxins of the blood, and build up the weak nerves and second centers of the body. Electropodes have cured more cases of Nervous Headaches, and other nervous ailments, than any five other remedies combined.

Most Drug Stores sell Electropodes, which are made in pairs. If you do not supply Electropodes, have him order a pair for you from
