It's our new and immensely popular plan of selling Oliver Typewriters on little payment plans. The abandonment of hand labor in favor of typewriting is the most beautiful step in human progress.

Impetus—in all lines of business and in all branches of business—has been largely restricted to the writing of signatures.

Business Colleges and High Schools, were the first to take the initiative in introducing the Oliver Typewriter.

Young people and business men are now using the Oliver Typewriter.
